The Florentine Codex Berghahn Books

Rebecca West's gripping chronicle of England's World War II traitors, expanded and updated for the Cold War era In *The Meaning of Treason*, Rebecca West tackled not only the history and facts behind the spate of World War II traitors, but the overriding social forces at work to challenge man's connection to his fatherland. As West reveals in this expanded edition, the ideologically driven amateurs of World War II were followed by the much more sinister professional spies for whom the Cold War era proved a lucrative playground and put Western safety at risk. Filled with real-world intrigue and fascinating character studies, West's gripping narrative connects the war's treasonous acts with the rise of Communist spy rings in England and tackles the ongoing issue of identity in a complex world.

A Train of Powder University of Oklahoma Press

This classic sociological examination of art as collective action explores the cooperative network of suppliers, performers, dealers, critics, and consumers who—along with the artist—"produce" a work of art. Howard S. Becker looks at the conventions essential to this operation and, prospectively, at the extent to which art is shaped by this collective activity. The book is thoroughly illustrated and updated with a new dialogue between Becker and eminent French sociologist Alain Pessin about the extended social system in which art is created, and with a new preface in which the author talks about his own process in creating this influential work.

Records, Computers, and the Rights of Citizens University of Texas Press

This multidisciplinary book presents a balanced view of contemporary leftist and center-leftist Latin American governments. Drawing on the relationships among economic, social, and political factors, it explores the historically unprecedented duration of the Pink Tide phenomenon as well as

the setbacks and conservative inroads of recent years.

The New Meaning of Treason Vintage

"Slow violence" from climate change, toxic drift, deforestation, oil spills, and the environmental aftermath of war takes place gradually and often invisibly. Rob Nixon focuses on the inattention we have paid to the lethality of many environmental crises, in contrast with the sensational, spectacle-driven messaging that impels public activism today.

Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States Basic Books

Malintzin was the indigenous woman who translated for Hernando Cortés in his dealings with the Aztec emperor Moctezuma in the days of 1519 to 1521. "Malintzin," at least, was what the Indians called her. The Spanish called her doña Marina, and she has become known to posterity as La Malinche. As Malinche, she has long been regarded as a traitor to her people, a dangerously sexy, scheming woman who gave Cortés whatever he wanted out of her own self-interest. The life of the real woman, however, was much more complicated. She was sold into slavery as a child, and eventually given away to the Spanish as a concubine and cook. If she managed to make something more out of her life--and she did--it is difficult to say at what point she did wrong. In getting to know the trials and intricacies with which Malintzin's life was laced, we gain new respect for her steely courage, as well as for the bravery and quick thinking demonstrated by many other Native Americans in the earliest period of contact with Europeans. In this study of Malintzin's life, Camilla Townsend rejects all the previous myths and tries to restore dignity to the profoundly human men and women who lived and died in those

days. Drawing on Spanish and Aztec language sources, she breathes new life into an old tale, and offers insights into the major issues of conquest and colonization, including technology and violence, resistance and accommodation, gender and power. "Beautifully written, deeply researched, and with an innovative focus, Malintzin's Choices will become a classic. Townsend deftly walks the fine line between historical documentation and informed speculation to rewrite the history of the conquest of Mexico. Weaving indigenous and Spanish sources the author not only provides contextual depth to understanding Malintzin's critical role as translator and cultural interpreter for Cortes, but in the process she illuminates the broader panorama of choices experienced by both indigenous and Spanish participants. This work not only provides revisionist grist for experts, but will become a required and a popular reading for undergraduates, whether in colonial surveys or in specialty courses."--Ann Twinam, professor of history, University of Texas, Austin "In this beautifully written and engrossing story of a controversial figure in Mexican history, Camilla Townsend does a wonderful job unraveling the multiple myths about Malintzin (Marina, Malinche), and placing her within her culture, her choices, and the tumultuous times in which she lived. The result is a portrayal of Malintzin as a complex human being forced by circumstances to confront change and adaptation in order to survive."--Susan M. Socolow, Emory University "Camilla Townsend's text reads beautifully. She has a capacity to express complex ideas in simple, elegant language. This book consists of an interweaving of many strands of analysis. Malinche appears as symbol, as a historical conundrum, and as an actor in one of history's most

fascinating dramas. The reader follows Malinche but all the while learns about the Nahuas' world. It is a book that will be extremely valuable for classrooms but also makes an important contribution to the academic literature."--Sonya Lipsett-Rivera, professor of history, Carleton University

Ethics in Psychology and the Mental Health Professions Boston : Little, Brown

"Military historian and Civil Air Patrol (CAP) member Frank A. Blazich Jr. collects oral and written histories of the CAP's short-lived--but influential--coastal air patrol operations of World War II and expands it in a scholarly monograph that cements the legacy of this vital civil-military cooperative effort"--

Slow Violence and the Environmentalism of the Poor Simon and Schuster

The dictatorship of Rafael Trujillo, who ruled the Dominican Republic from 1930 until his assassination in 1961, was one of the longest and bloodiest in Latin American history. The Dictator's Seduction is a cultural history of the Trujillo regime as it was experienced in the capital city of Santo Domingo. Focusing on everyday forms of state domination, Lauren Derby describes how the regime infiltrated civil society by fashioning a "vernacular politics" based on popular idioms of masculinity and fantasies of race and class mobility. Derby argues that the most pernicious aspect of the dictatorship was how it appropriated quotidian practices such as gossip and gift exchange, leaving almost no place for Dominicans to hide or resist. Drawing on previously untapped documents in the Trujillo National Archives and interviews with Dominicans who recall life under the dictator, Derby emphasizes the role that public ritual played in Trujillo's

exercise of power. His regime included the people in affairs of state on a massive scale as never before. Derby pays particular attention to how events and projects were received by the public as she analyzes parades and rallies, the rebuilding of Santo Domingo following a major hurricane, and the staging of a year-long celebration marking the twenty-fifth year of Trujillo's regime. She looks at representations of Trujillo, exploring how claims that he embodied the popular barrio antihero the tiguere (tiger) stoked a fantasy of upward mobility and how a rumor that he had a personal guardian angel suggested he was uniquely protected from his enemies. The Dictator's Seduction sheds new light on the cultural contrivances of autocratic power.

Vision's Immanence NYU Press

The histories of the North American West and photography have been intertwined since photography reached America. From the middle of the 19th century, images of the West have continuously played a significant role in defining the ways the region is perceived not only within America but around the world. Eye on the West presents the work of seventeen contemporary photographers of the West, including David Plowden, Laura McPhee, Miguel Gandert, Karen Halverson, Toba Tucker, Richard Buswell, John Willis, David Ottenstein, Lauren Henkin, and Will Wilson. Beautiful reproductions of 34 photographs are accompanied by brief essays by George Miles and by the artists themselves, contributing to multiple conversations about how visual art continues to reflect and shape our understanding of Western American society, culture, and politics. Distributed for the Beinecke Rare Book and Manuscript Library Exhibition Schedule: The Beinecke Rare Books & Manuscripts Library, Yale

University (09/01/18-12/16/18)

Historia de la Conquista de México National Academies Press

Every day in the United States, children and adolescents are victims of commercial sexual exploitation and sex trafficking. Despite the serious and long-term consequences for victims as well as their families, communities, and society, efforts to prevent, identify, and respond to these crimes are largely under supported, inefficient, uncoordinated, and unevaluated. *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* examines commercial sexual exploitation and sex trafficking of U.S. citizens and lawful permanent residents of the United States under age 18. According to this report, efforts to prevent, identify, and respond to these crimes require better collaborative approaches that build upon the capabilities of people and entities from a range of sectors. In addition, such efforts need to confront demand and the individuals who commit and benefit from these crimes. The report recommends increased awareness and understanding, strengthening of the law's response, strengthening of research to advance understanding and to support the development of prevention and intervention strategies, support for multi-sector and interagency collaboration, and creation of a digital information-sharing platform. A nation that is unaware of these problems or disengaged from solutions unwittingly contributes to the ongoing abuse of minors. If acted upon in a coordinated and comprehensive manner, the recommendations of *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* can help advance and strengthen the nation's emerging efforts to prevent, identify, and respond to commercial

sexual exploitation and sex trafficking of minors in the United States.

Disease Control Priorities, Third Edition (Volume 6) Routledge

In the sixteenth century, the Franciscan friar Bernardino de Sahagún and a team of indigenous grammarians, scribes, and painters completed decades of work on an extraordinary encyclopedic project titled *General History of the Things of New Spain*, known as the Florentine Codex (1575–1577). Now housed in the Biblioteca Medicea Laurenziana in Florence and bound in three lavishly illustrated volumes, the codex is a remarkable product of cultural exchange in the early Americas. In this edited volume, experts from multiple disciplines analyze the manuscript's bilingual texts and more than 2,000 painted images and offer fascinating, new insights on its twelve books. The contributors examine the “three texts” of the codex—the original Nahuatl, its translation into Spanish, and its painted images. Together, these constitute complementary, as well as conflicting, voices of an extended dialogue that occurred in and around Mexico City. The volume chapters address a range of subjects, from Nahua sacred beliefs, moral discourse, and natural history to the Florentine artists' models and the manuscript's reception in Europe. The Florentine Codex ultimately yields new perspectives on the Nahua world several decades after the fall of the Aztec empire.

Normal Life Temple University Press

The fiery, provocative, and unparalleled work of feminist art criticism that launched the exceptional career of one of our most important public intellectuals—“a remarkable book, at once outrageous and compelling, fanatical and brilliant.... One must be

awed by [Paglia's] vast energy, erudition and wit" (The Washington Post). Is Emily Dickinson "the female Sade"? Is Donatello's David a bit of pedophile pornography? What is the secret kinship between Byron and Elvis Presley, between Medusa and Madonna? How do liberals and feminists—as well as conservatives—fatally misread human nature? This audacious and omnivorously learned work of guerrilla scholarship offers nothing less than a unified-field theory of Western culture, high and low, since Egyptians invented beauty—making a persuasive case for all art as a pagan battleground between male and female, form and chaos, civilization and daemonic nature. With 47 photographs.

Latin America's Pink Tide Beinecke Rare Book Library

Its opponents call it part of "the lunatic fringe," a justification for "black separateness," "the most embarrassing trend in American publishing." "It" is Critical Race Theory. But what is Critical Race Theory? How did it develop? Where does it stand now? Where should it go in the future? In this volume, thirty-one CRT scholars present their views on the ideas and methods of CRT, its role in academia and in the culture at large, and its past, present, and future. Critical race theorists assert that both the procedures and the substance of American law are structured to maintain white privilege. The neutrality and objectivity of the law are not just unattainable ideals; they are harmful actions that obscure the law's role in protecting white supremacy. This notion—so obvious to some, so unthinkable to others—has stimulated and divided legal thinking in this country and, increasingly, abroad. The essays in *Crossroads*, *Directions*, and *a New Critical Race Theory*—all original—address this notion in a variety of helpful

and exciting ways. They use analysis, personal experience, historical narrative, and many other techniques to explain the importance of looking critically at how race permeates our national consciousness.

The Burning Tigris World Bank Publications

In *The Interpretation of Cultures*, the most original anthropologist of his generation moved far beyond the traditional confines of his discipline to develop an important new concept of culture. This groundbreaking book, winner of the 1974 Sorokin Award of the American Sociological Association, helped define for an entire generation of anthropologists what their field is ultimately about. *The Interpretation of Cultures* Univ of California Press

"Lurie takes particular interest in the influence of cinema on Faulkner's fiction and the visual strategies he both deployed and critiqued. These include the suggestion of cinematic viewing on the part of readers and of characters in each of the novels; the collective and individual acts of voyeurism in *Sanctuary* and *Light in August*; the exposing in *Absalom! Absalom!* and *Light in August* of stereotypical and cinematic patterns of thought about history and race; and the evocation of popular forms like melodrama and the movie screen in *If I forget thee, Jerusalem*. Offering innovative readings of these canonical works, this study sheds new light on Faulkner's uniquely American modernism."--BOOK JACKET.

The Dictator's Seduction Open Road Media

John Ross has been living in the old colonial quarter of Mexico City for the last three decades, a rebel journalist covering Mexico and the region from the bottom up. He is filled with a gnawing sense that his beloved Mexico City's days as the most

gargantuan, chaotic, crime-ridden, toxically contaminated urban stain in the western world are doomed, and the monster he has grown to know and love through a quarter century of reporting on its foibles and tragedies and blight will be globalized into one more McCity. *El Monstruo* is a defense of place and the history of that place. No one has told the gritty, vibrant histories of this city of 23 million faceless souls from the ground up, listened to the stories of those who have not been crushed, deconstructed the Monstruo's very monstrosity, and lived to tell its secrets. In *El Monstruo*, Ross now does.

Political Ideologies Duke University Press

Clinical Case Studies for the Family Nurse Practitioner is a key resource for advanced practice nurses and graduate students seeking to test their skills in assessing, diagnosing, and managing cases in family and primary care. Composed of more than 70 cases ranging from common to unique, the book compiles years of experience from experts in the field. It is organized chronologically, presenting cases from neonatal to geriatric care in a standard approach built on the SOAP format. This includes differential diagnosis and a series of critical thinking questions ideal for self-assessment or classroom use.

They Marched Into Sunlight Nation Books

With a New Chapter and Updated Epilogue on Coronavirus A Financial Times Best Health Book of 2019 and a New York Times Book Review Editors' Choice "Honigsbaum does a superb job covering a century's worth of pandemics and the fears they invariably unleash." —Howard Markel, MD, PhD, director of the Center for the History of Medicine, University of Michigan How can we understand the COVID-19 pandemic? Ever since the 1918

Spanish influenza pandemic, scientists have dreamed of preventing such catastrophic outbreaks of infectious disease. Yet despite a century of medical progress, viral and bacterial disasters continue to take us by surprise, inciting panic and dominating news cycles. In *The Pandemic Century*, a lively account of scares both infamous and less known, medical historian Mark Honigsbaum combines reportage with the history of science and medical sociology to artfully reconstruct epidemiological mysteries and the ecology of infectious diseases. We meet dedicated disease detectives, obstructive or incompetent public health officials, and brilliant scientists often blinded by their own knowledge of bacteria and viruses—and see how fear of disease often exacerbates racial, religious, and ethnic tensions. Now updated with a new chapter and epilogue.

Art Worlds, 25th Anniversary Edition World Bank Publications

Despite recent advances in important aspects of the lives of girls and women, pervasive challenges remain. These challenges reflect widespread deprivations and constraints and include epidemic levels of gender-based violence and discriminatory laws and norms that prevent women from owning property, being educated, and making meaningful decisions about their own lives—such as whether and when to marry or have children. These often violate their most basic rights and are magnified and multiplied by poverty and lack of education. This groundbreaking book distills vast data and hundreds of studies to shed new light on deprivations and constraints facing the voice and agency of women and girls worldwide, and on the associated costs for individuals, families, communities, and global development. The volume presents major new findings about the patterns of

constraints and overlapping deprivations and focuses on several areas key to women's empowerment: freedom from violence, sexual and reproductive health and rights, ownership of land and housing, and voice and collective action. It highlights promising reforms and interventions from around the world and lays out an urgent agenda for governments, civil society, development agencies, and other stakeholders, including a call for greater investment in data and knowledge to benchmark progress.

The Monarch Butterfly John Wiley & Sons

This magisterial new work brings fresh insight into the essential

functions of early modern Roman society and the development of the modern state.

Books and Bidders SAGE

The conquest of the New World would hardly have been possible if the invading Spaniards had not allied themselves with the indigenous population. *Indian Conquistadors* examines the role of native peoples as active agents in the Conquest and the overwhelming importance of native allies in both conquest and colonial control.
