Not knowing why, Bebbie Hickman has always kept many seemingly unimportant bits and pieces of information about her childhood years. Approaching her sixties, Bebbie's yearning to know more about those bygone days prompted her to drive from Virginia to Maryland and New Jersey

for impromptu interviews with her elderly uncle and "second" mom, never realizing From the Eyes of a Sister was in the making! Bebbie had never thought of writing a book. She never had the knack for speaking well in public, although she could write her feelings on paper and describe them perfectly and to the point. With a longing to acknowledge God's presence throughout her life, From the Eyes of a Sister is a candid look at a large family that lived, loved, and enjoyed life despite their poverty. Bebbie's faith in God and love for her siblings brought her untold joy and a satisfied heart. Employment at NASA, the USPS, and other positions could not compare to Bebbie's "calling" as big sister to five brothers and a sister. From the Eyes of a Sister is a

book that allows you take a personal peek into the memories of a South Jersey kid in the '50s and '60s era. You're welcome to open the door and come in.

This New Zealand book was written by Max Crarer of Wairoa while in his mid-70's. It tells the true story of how several years earlier he accidentally healed his Glaucoma (of 12 years standing) by the use of minerals and vitamins. Max was well known to listeners of Radio Pacific and shared his story with them before writing this book. There appears to be no other book like this in the world. Max Crarer's combination of herbs, vitamins and minerals have helped thousands. Following his healing, Max researched eye healings by studying the findings of eye

researchers from all around the world. Since then, through his own experience and the numerous personal experiences of others and his Radio Pacific listeners, he has discovered a combination of herbs, minerals and vitamins that have helped thousands of NZ sufferers of various eye complaints. He calls this natural course of treatment 'Triple Therapy' as it combines the three effects of herbs, minerals and vitamins. This book reveals the full Triple Therapy treatment.

This title presents a celebration of vision, of art and of the relationship between the two. Artists see the world in physical terms as we all do. However, they may be more perceptive than most in interpreting the complexity of how and what they see. In this fascinating juxtaposition of science and art history, ophthalmologists Michael Marmor and James G. Ravin examine the role of vision and eye disease in art. They

focus on the eye, where the process of vision originates and investigate how aspects of vision have inspired - and confounded - many of the world's most famous artists. Why do Georges Seurat's paintings appear to shimmer? How come the eyes in certain portraits seem to follow you around the room? Are the broad brushstrokes in Monet's Water Lilies due to cataracts? Could van Gogh's magnificent yellows be a result of drugs? How does eye disease affect the artistic process? Or does it at all? "The Artist's Eyes" considers these questions and more. It is a testament to the triumph of artistic talent over human vulnerability and a tribute to the paintings that define eras, the artists who made them and the eyes through which all of us experience art.

The eye is one of the most remarkable achievements of evolution, and has evolved up to 40 times in different parts of the animal kingdom. In humans, vision is

the most important sense, and much of the brain is given over to the processing of visual information. In this Very Short Introduction, Michael Land describes the evolution of vision and the variety of eyes found in both humans and animals. He explores the evolution of colour vision in primates and the workings of the human eye, to consider how that contributes to our visual ability. He explains how we see in three dimensions and the basic principles of visual perception, including our impressive capacity for pattern recognition and the ability of vision to guide action. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

The never-before-told true story of Jane Elliott and the "Blue-Eyes, Brown-Eyes Experiment" she made world-famous, using eye color to simulate racism. The

day after Martin Luther King, Jr.'s assassination in 1968, Jane Elliott, a schoolteacher in rural Iowa, introduced to her all-white third-grade class a shocking experiment to demonstrate the scorching impact of racism. Elliott separated students into two groups. She instructed the brown-eyed children to heckle and berate the blue-eyed students, even to start fights with them. Without telling the children the experiment's purpose, Elliott demonstrated how easy it was to create abhorrent racist behavior based on students' eye color, not skin color. As a result, Elliott would go on to appear on Johnny Carson's Tonight Show, followed by a stormy White House conference, The Oprah Winfrey Show, and thousands of media events and diversity-training sessions worldwide, during which she employed the provocative experiment to induce racism. Was the experiment benign? Or was it a cruel, self-serving exercise in sadism? Did it work? *Blue Eyes, Brown Eyes* is a meticulously researched book that details for the first time Jane Elliott's jagged rise to stardom. It is an unflinching assessment of the incendiary experiment forever associated with Elliott,

even though she was not the first to try it out. *Blue Eyes, Brown Eyes* offers an intimate portrait of the insular community where Elliott grew up and conducted the experiment on the town's children for more than a decade. The searing story is a cautionary tale that examines power and privilege in and out of the classroom. It also documents small-town White America's reflex reaction to the Civil Rights Movement of the 1970s and 1980s, as well as the subsequent meteoric rise of diversity training that flourishes today. All the while, *Blue Eyes, Brown Eyes* reveals the struggles that tormented a determined and righteous woman, today referred to as the "Mother of Diversity Training," who was driven against all odds to succeed. *Close Your Eyes* Future Horizons Cashed out from the NYPD after 24 years, Doak Miller operates as a private eye in steamy small-town Florida, doing jobs for the local police. Like posing as a hit man and wearing a wire to incriminate a local wife who's looking to get rid of her husband. But when he sees the wife, when he looks into her deep blue eyes... He falls - and falls hard. Soon he's working with her, against his employer, plotting a

devious plan that could get her free from her husband and put millions in her bank account. But can they do it without landing in jail? And once he's kindled his taste for killing...will he be able to stop at one?

T.E. Hahn's debut novel "Open My Eyes" follows the story of Eddie, who in the present day is breaking free from the psychotropic drugs that have held him captive through much of his young life. As he goes through the physical symptoms of withdrawal, he reflects on key memories, including the death of his father, his complicated relationship with his mother, and events surrounding the relationship with his first love and high school sweetheart, Elizabeth. Eddie is a broken soul, plagued by grief and unresolved trauma regarding his father's death and the subsequent effect this has on the relationship he develops with his mother, a controlling and unwell woman in her own

right. All of this plays a role in the blooming relationship with the naïve Elizabeth and the relationship's eventual downfall. It is this relationship, with all the passion and excitement of first love, that takes center stage in Eddie's jumbled memories. As Eddie's withdrawal symptoms thrust him deeper into a surreal state and memory and fantasy begin to blur together, Elizabeth becomes the light that guides Eddie through his complicated past and hopefully into a more hopeful future, if he can only open his eyes to see it.
