**Desirable Body** Penguin

Fans of both Percy Jackson and Indiana Jones will be captivated by the lost civilizations, ancient secrets, and buried treasure found in the second book of the Ashtown Burials series, action-packed adventure by N. D. Wilson, the author of Leepike Ridge and the 100 Cupboards trilogy. It's been almost a year since Cyrus and Antigone Smith earned their places as Journeymen at Ashtown, home of an ancient order of explorers that has long guarded the world's secrets and treasures. While their studies go well, Cy and Tigs are not well liked since losing the Dragon's Tooth to the nefarious Dr. Phoenix. The Tooth is the only object in the world capable of killing the long-lived transmortals, and Phoenix has been tracking them down one-by-one, and murdering them. The surviving transmortals, led by legendary warrior Gilgamesh of Uruk, descend on Ashtown in force, demanding justice. Cy and Tigs find themselves on the run in a desperate search to locate Phoenix and regain the Tooth. In the process, they uncover an evil even more dangerous than Phoenix, one that has been waiting for centuries to emerge.

*Frankenstein* Precious Moments

An account of the most eminent persons in successive ages, who have claimed for themselves, or to whom has been imputed by others, the exercise of magical power. Necromancy is the art of revealing future events by a pretended communication with the dead. There is a theory that this impious superstition and imposture had its origin at a very early period in the land of Egypt, and had been thence propagated like many other arts in every nation which ancient history has made us acquainted with. Of its early existence we have complete evidence from the writings of Moses, where it is severely condemned as an abomination to the Lord. It appears to be one of the whoredoms to which Ezekiel represents his countrymen as having brought with them from Egypt, and continued to practise till they were carried captives into Babylon.

*Black Jack* Vault Comics

The inspiration for Mary Wollstonecraft Shelley's most famous work, "Frankenstein: The Modern Prometheus" has been debated for 200 years. In 1814, two years before the notorious "Gothic Summer" in Geneva, 16 year old Mary Godwin eloped to Paris with the 22 year old poet, Percy Bysshe Shelley, inviting Mary's 15 year old step-sister Claire Claremont to go with them. They would walk across war ravaged France to Switzerland and up the Rhine River to a castle called Frankenstein. Three years later Mary would publish the diaries she kept of that journey of two teenage girls and the poet of "free love". In the published version of "A History of a Six Week's Tour" she would tell where they went and what they saw, but she never revealed the true secrets of that trip, from where a later inspiration arose. Here now, for the first time is revealed the secret portions of that tour and beyond.

*My Name Is Monster* Soho Press

Once EL was a man. Now he is a monstrosity--a tortured jumble of organs in a hulking biosuit. Mateo doesn't think EL is a monster, he might even him. But will their relationship set EL free, or tighten his shackles? IMAGINE A WORLD WHERE EVERYONE CAN SCREAM AND BE HEARD. EL used to be human. Now he’s a jumble of organs in a bio-suit. El is also in tremendous pain and has been for a very long time. Hope arrives in the form of Mateo, a mechanic brought in to work on EL’s suit. Mateo sees EL in a way no one else ever has. And what’s more: Mateo offers EL an escape. Hollow Heart reunites Tet creators Paul Allor and Paul Tucker for a queer monster love story about the choices we make between giving our loved ones what they want and giving them what we think they need. Collects the complete six-issue series.

*Doctor Who: Time Lord Fairy Tales* Library of Alexandria

The insider whose warnings about terrorism on U.S. soil went unheeded—and whose book Against All Enemies rocketed to the top of bestseller lists—now presents his first novel: an all-too-believable story of politics, oil, espionage, and the earthshaking consequences that may lie at the end of the road ahead... Brian Douglas, working for British intelligence, is in Bahrain’s five-star Diplomat Hotel when the bomb goes off. He’s as used to carnage as one can be, after his years in Iraq. But much has changed since that war. The sheiks have been driven out of Saudi Arabia—now called Islamyah—and Iraq has become a virtual puppet of Iran, now packing nuclear heat. The coalition forces are long gone from Saddam’s homeland, after pulling out their troops and leaving the mess behind. But the mess isn’t going away, as this latest bombing suggests. And as Douglas and others try to sort out agendas and loyalties, motives and manipulations, the Middle East grows ever hotter—and this time withdrawal may not be an option...

*Frankenstein Diaries: the Romantics* Jazzybee Verlag

When Daniel's mother dies, he is brought under the protection of the AMO: the Alliance of Magicians and Outlaws. It is an introduction to a world of revenge, revolution and mind-bending chemicals, where anarchists, alchemists and high-stake gamblers co-exist. It is a place in which magic and murder are the norm. So begins an extraordinary quest for knowledge and understanding in this unforgettable outlaw classic.

*Stone Junction* Penguin UK

Originally told to young Time Lords at bedtime, these twisted tales are an enchanting read forDoctor Who fans of all ages. Written by Justin Richards and illustrated by David Wardle.

**5-Minute Nighttime Bible Stories** Random House Graphic

The original 1818 text of Mary Shelley's classic novel, with annotations and essays highlighting its scientific, ethical, and cautionary aspects. Mary Shelley's Frankenstein has endured in the popular imagination for two hundred years. Begun as a ghost story by an intellectually and socially precocious eighteen-year-old author during a cold and rainy summer on the shores of Lake Geneva, the dramatic tale of Victor Frankenstein and his stitched-together creature can be read as the ultimate parable of scientific hubris. Victor, “the modern Prometheus,” tried to do what he perhaps should have left to Nature: create life. Although the novel is most often discussed in literary-historical terms—as a seminal example of romanticism or as a groundbreaking early work of science fiction—Mary Shelley was keenly aware of contemporary scientific developments and incorporated them into her story. In our era of synthetic biology, artificial intelligence, robotics, and climate engineering, this edition of Frankenstein will resonate forcefully for readers with a background or interest in science and engineering, and anyone intrigued by the fundamental questions of creativity and responsibility. This edition of Frankenstein pairs the original 1818 version of the manuscript—meticulously line-edited and amended by Charles E. Robinson, one of the world’s preeminent authorities on the text—with annotations and essays by leading scholars exploring the social and ethical aspects of scientific creativity raised by this remarkable story. The result is a unique and accessible edition of one of the most thought-provoking and influential novels ever written. Essays by Elizabeth Bear, Cory Doctorow, Heather E. Douglas, Josephine Johnston, Kate MacCord, Jane Maienschein, Anne K. Mellor, Alfred Nordmann **Vault of Horror** Houghton Mifflin Harcourt

Published in 1928 by Rupert Gould, the first of two books featuring strange facts about natural history, animals, and lore, *Oddities: A Book of Unexplained Facts* is filled with odd tales that will delight and baffle. Readers will get small history lessons embedded in wondrous and curious tales about Nostradamus, the Aurora Islands, and the planet Vulcan. Part of the Loren Coleman Presents series from Cosimo Classics, as well as its sequel, *Enigmas: Another Book of Unexplained Facts*, *Oddities* will entertain readers of all types, but especially those interested in mythology, folktales, and cryptozoology. RUPERT T. GOULD (1890-1948) was a cryptozoology enthusiast, as evidenced by his books on the Loch Ness Monster and the Great Sea Serpent, as well as his books on unexplained facts. Though he was a career lieutenant commander in the British Royal Navy, Gould was best known for his contributions to marine horology. His work *The Marine Chronometer* was

considered the authoritative text on marine timekeepers for more than 50 years. His other interests lay in science (he was a science educator on the BBC's children's hour; his lectures later became the book *The Stargazer Talks*), tennis (he umpired at Wimbledon), and radio. In 1947, Gould received a Gold Medal from The British Horological Institute in highest honor for his contributions to the field. He died in 1948 at 57 years of age.

*One Hundred Years of James Joyce's "Ulysses"* Canongate Books

*Out of Control* chronicles the dawn of a new era in which the machines and systems that drive our economy are so complex and autonomous as to be indistinguishable from living things.

*Frankenstein 200* Random House Books for Young Readers

A medical mystery/fantasy/love story that delves deeply into the nature of consciousness while raising many of the ethical and existential issues facing scientists today A contemporary

*Frankenstein* that defies expectations, this is a thrilling novel, couched in luminous, captivating prose about a journalist, Cédric Allyn-Weberson, who suffers a horrific accident, paralyzing him from the neck down. An ideal candidate for a body transplant, Cédric survives the surgery but has both physical and existential trouble with his recovery and adaptation: encountering his lover with a new body, discovering the life history of his donor, and attempting to understand the mind-body relationship as he lives it. Haddad explores the confusion and insignificance of a single consciousness before experience and identity: What is a head without a body? What or who is a lover with another's body? The gruesome transplant (detailed in a manner that highlights the author's own diligent research and comprehension) parallels other ways humanity mutates nature globally; the novel is a provocative and timely allegory—a work of dystopian fantasy.
