In the summer of 1944, a shocking murder rocked the fledgling Beats. William S. Burroughs and Jack Kerouac, both still unknown, we inspired by the crime to collaborate on a novel, a hard-boiled tale of bohemian New York during World War II, full of drugs and art, obsession and brutality, with scenes and characters drawn from their own lives. Finally published after more than sixty years, this is a captivating read, and incomparable literary artifact, and a window into the lives and art of two of the twentieth century's most influential writers.

A very personal story of the efforts of a schoolteacher to clear his name after charges were laid following a police campaign called 'Operation Paradox'. On the basis of one photograph obtained in a search of his house, the teacher was charged on three counts of indecent dealing the conviction of which may have put him behind bars. The story clearly documents the events preceding and following the charges, including the involvement of Brian G. Tennant, Human Rights Campaigner, the Western Australian Education Department, friends of the accused, and the media. It is a story which illustrates dramatically the doctrine of innocent until proven guilty. Includes copies of newspaper articles on the events at the time.

 Death and pain. They surround me. Hold me hostage, refusing to let go. But I want to survive. Want to fight. I just don't know if I have it in me. Maybe dying would be better. It's the break in the shadows that gives me hope. When I look at him, all I can see is light. So now I'm out to find freedom. Private investigator Ryan Warden doesn't know he's moved next door to people he would put behind bars in an instant. Nor does he realise a sleepless night could lead him on the right track with the case he's working on. He certainly doesn't expect Emerson Spence. What he does know is he has to stay away from her. She's been beaten and broken. She deserves to live freely while learning and experiencing things in life like any young woman should. He's too old for her. It's better to stay away. If he can. Author's note: *Out to Find Freedom* starts out intense and dark, then moves into a very slow burn romance. It's also set six months after *No Way Out* (Stoke and Malinda's story from the *Hawks MC: Ballarat Charter*) but it can be read as a standalone. Warning, triggers may occur 18+

The Eye of War Scholastic Inc.

This is the story of photography in war - from the Crimean War and American Civil War through two World Wars, from Vietnam and the Gulf War to the Balkans and beyond, photographers have been drawn to the battlefield. The best war photography bares the essence of war by distilling the chaos of combat into indelible

visual icons, such as the napalmed young Vietnamese girl or the flag-raising in Iwo Jima. The camera was part of the technological revolution that started to transform warfare in the middle of the 19th century. As weapons have become more deadly, cameras have kept pace, getting smaller, quicker, longer ranged.
