Soft Tissue and Bone Tumours Love You Always

From 1942 to 1945, a small, influential group of media figures willingly volunteered their services to form the Writers' War Board (WWB), accepting requests from government agencies to create propaganda. Members included mystery writer Rex Stout, Pulitzer and Nobel Prize winner Pearl S. Buck, novelist and sports writer Paul Gallico, Book-of-the-Month Club editor and popular radio host Clifton Fadiman, and Broadway lyricist Oscar Hammerstein II. The WWB mobilized thousands of other writers across the country to spread its campaigns through articles, public appearances, radio broadcasts, and more. The WWB received federal money while retaining its status as a private organization that could mount campaigns without government oversight. Historian Thomas Howell argues that this unique position has caused its history to fall between the cracks, since it was not recognized as an official part of the government's war effort. Yet the WWB's work had a huge impact on the nation's wartime culture, and this fascinating history will inform contemporary thinking on propaganda, the media, and American society.

The Monopolists reveals the unknown story of how Monopoly came into existence, the reinvention of its history by Parker Brothers and multiple media outlets, the lost female originator of the game, and one man's lifelong obsession to tell the true story about the game's questionable origins. Most think it was invented by an unemployed Pennsylvanian who sold his game to Parker Brothers during the Great Depression in 1935 and lived happily--and richly--ever after. That story, however, is not exactly true. Ralph Anspach, a professor fighting to sell his Anti-Monopoly board game decades later, unearthed the real story, which traces back to Abraham Lincoln, the Quakers, and a forgotten feminist named Lizzie Magie who invented her nearly identical Landlord's Game more than thirty years before Parker Brothers sold their version of Monopoly. Her game--underpinned by morals that were the exact opposite of what Monopoly represents today--was embraced by a constellation of left-wingers from the Progressive Era through the Great Depression, including members of Franklin Roosevelt's famed Brain Trust. A gripping social history of corporate greed that illuminates the cutthroat nature of American business over the last century, The Monopolists reads like the best detective fiction, told through Monopoly's real-life winners and losers.

Shell, wave, starfish, crab, ball, bucket, spade, hat... introduce your little ones to the words they'll encounter all around them at the seaside. The Seaside in 100 words introduces a range of different scenes and objects. With bold colors and a silky-feel cover that add visual and tactile interest, this fun book inspires a deeper knowledge of the world, introduces language skills and supports emotional intelligence. From things to take to the beach - hat, beach ball, sun cream, towel, spade - to foods we might eat - sandwiches, lolly, apple, banana, ice cream - to creatures we might see - turtle, octopus, whale, seagull, dolphin, fish, seahorse - this title covers all the words which young children might encounter at the beach. As well as objects and creatures,

the book contains feeling words, like 'happy' and 'excited', as well as actions like 'waving' and 'splashing' or qualities like 'wet' or 'helpful'. Different types of world are given a different colorcode to help differentiate them and to help kids identify the different kinds of word! An original, contemporary take on teaching first words, the My World in 100 Words series of board books helps children ages 1-3 boost vocabulary, engage with the world around them and become familiar with specific subjects. With bright, playful illustrations from Sophie Beer, each book explores

a different theme, including starting nursery, the home and the seaside. With 10 words per page and variation between full scenes and visual lists, there's plenty for children to look at and enjoy.
