Conversations on shamanism and mind-altering plants by filmmaker Jan Kounen,

anthropologist Jeremy Narby, and writer/filmmaker Vincent Ravalec • Explores how ayahuasca and iboga are tools for communicating with other life-forms • Offers insights into the role this indigenous knowledge can play in solving the current problems facing the world
In the Amazon, shamans do not talk in terms of hallucinogens but of tools for communicating with other life-forms.

Ayahuasca, for example, is first and foremost a means of breaking down the barrier that separates humans from other species, allowing us to communicate with them. The introduction of plant-centered shamanism into the Western world in the 1970s was literally the meeting of two entirely

different paradigms. In *The Psychotropic Mind*, three of the individuals who have been at the forefront of embracing other ways of knowing look at the ramifications of the introduction into our Western culture of these shamanic practices and the psychotropic substances that support them. With rare sincerity and depth, noted anthropologist Jeremy Narby, filmmaker Jan Kounen, and writer/filmmaker Vincent Ravalec explore the questions of sacred plants, initiations, hallucinogens, and altered states of consciousness, looking at both the benefits and dangers that await those who seek to travel this path. Focusing specifically on ayahuasca and iboga, psychotropic

substances with which the authors are intimately familiar, they examine how we can best learn the other ways of perceiving the world found in indigenous cultures, and how this knowledge offers immense benefits and likely solutions to some of the modern world's most pressing problems.

The science of esoteric astrology is said to be the basic occult science for the future. It will come into its own as the esoteric or soul factors begin to supersede the exoteric focus of the vast majority of professional and amateur astrologers today. This is the science which deals with those conditioning and governing energies and forces which play through and upon the whole field of space and all that is found within that field. The Ancient Wisdom teaches that Space is an entity. It is with the life of this entity and with the forces and energies, the impulses and the rhythms, the cycles and the times and seasons, that esoteric astrology deals. Esoteric astrology can be applied by the trained worker in a variety of ways; in medicine, psychology, science,

education; to an evaluation of human problems, of the destiny of nations, of a correct interpretation of world affairs, and so on. It is necessary, however, that at this stage the application of esoteric astrology to human life should be recognised as experimental and tentative, so that each individual worker can adjust his thinking and his methods according to his own wrought-out experience. to work depend entirely on a consciousness evolving out of control by the personality into the life of the soul, out of separateness and self-centredness into a realisation of unity, and absorption into a centre of group consciousness. Astrology is described in this book as the science of relationships - the relationship existing between all living organisms within the universe. Not only the qualities of the ray energies affect these centres of consciousness, but also the quality and energy of the ruling planets and the zodiacal signs. Seen from the exoteric outside, astrology is a vast and most involved and complex subject. From the

esoteric inside, while it is still vast, all-inclusive and complex, it is also possible to perceive the thread which unites and the pattern which prevails throughout the whole system. A basic simplicity in the grand design emerges, therefore, which can serve to interpret the whole. study: (1) The Zodiac and the Rays (2) The Nature of Esoteric Astrology (3) The Science of Triangles (4) The Sacred and Non-Sacred Planets (5) Three Major Constellations (6) The Three Crosses (7) The Rays, Constellations and Planets. In addition there is an appendix which summarises and tabulates many of the factors of fundamental importance to the study of esoteric astrology. This is a book for the true occult student. It may appear to be too highly specialised for some; but every esoteric worker finds eventually that his work requires an understanding of the basic astrological factors which affect all relationships and all forms of life within the ethers of space, so that he may learn how to cooperate intelligently in the evolution of the whole by the right adjustment of the part within that whole; until eventually the many

are absorbed into the One. The books of Alice A. Bailey, written in cooperation with a Tibetan teacher between 1919-1949, constitute a continuation of the Ageless Wisdom—a body of esoteric teaching handed down from ancient times in a form which is always suitable to each period. writings offer an unparalleled spiritual approach to such subjects as the teaching on Shamballa and the Path of spiritual evolution; the spiritual Hierarchy; the new discipleship and training in meditation as a form of service; the teaching on the seven rays and the new psychology of the soul; the teaching on esoteric astrology; and the new world religion, which emphasizes the common thread of truth linking all the major world faiths.

Advance Praise for The Accelerating Universe
"The Accelerating Universe is not only an informative book about modern cosmology. It is rich storytelling and, above all, a celebration of the human mind in its quest for beauty in all things." —Alan Lightman, author of Einstein's Dreams "This is a

wonderfully lucid account of the extraordinary discoveries that have made the last years a golden period for observational cosmology. But Mario Livio has not only given the reader one clear explanation after another of what astronomers are up to, he has used them to construct a provocative argument for the importance of aesthetics in the development of science and for the inseparability of science, art, and culture." —Lee Smolin, author of The Life of the Cosmos "What a pleasure to read! An exciting, simple account of the universe revealed by modern astronomy. Beautifully written, clearly presented, informed by scientific and philosophical insights." —John Bahcall, Institute for Advanced Study "A book with charm, beauty, elegance, and importance. As authoritative a journey as can be taken through modern cosmology." —Allan Sandage, Observatories of the Carnegie Institution of Washington

In 1980, Michael Harner blazed the trail for the worldwide revival of

shamanism with his seminal classic *The Way of the Shaman*. In this long-awaited sequel, he provides new evidence of the reality of heavens. Drawing from a lifetime of personal shamanic experiences and more than 2,500 reports of Westerners' experiences during shamanic ascension, Harner highlights the striking similarities between their discoveries, indicating that the heavens and spirits they've encountered do indeed exist. He also provides instructions on his innovative core-shamanism techniques, so that readers too can ascend to heavenly realms, seek spirit teachers, and return later at will for additional healing and advice. Written by the leading authority on shamanism, *Cave and Cosmos* is a must-read not only for those interested in shamanism, but also for those interested in spirituality, comparative religion, near-death experiences, healing, consciousness, anthropology, and the nature of reality. Praise for Michael Harner and *The Way of the Shaman* "What Yogananda did for Hinduism and D. T. Suzuki

did for Zen, Michael Harner has done for shamanism—namely, bring the tradition and its richness to Western awareness.” —from Higher Wisdom, by Roger Walsh and Charles S. Grob “Wonderful, fascinating.... Harner really knows what he’s talking about.” —Carlos Castaneda, best-selling author of The Teachings of Don Juan and The Active Side of Infinity “An intimate and practical guide to the art of shamanic healing and the technology of the sacred. Michael Harner is not just an anthropologist who has studied shamanism; he is an authentic white shaman.” —Stanislav Grof, author of The Adventure of Self-Discovery “Harner has impeccable credentials, both as an academic and as a practicing shaman. Without doubt (since the recent death of Mircea Eliade) the world’s leading authority on shamanism.” —Nevill Drury, author of The Elements of Shamanism “Michael Harner is a great shaman. He also proves that a person can be both a scientist and a shaman.” —Bo Bair Rinchinov, Siberian Buryat shaman Indigenous Heritage and Rock Art Routledge Mesopotamia was one of

the earliest regions to produce writing, literature and the fine arts, as well as being one of the first areas to construct states. This comprehensive and detailed survey of the region's prehistory and protohistory shows how these fascinating developments were possible. Petr Charvát explores the economic, social and spiritual spheres in Mesopotamia from the Palaeolithic to the time of the early states, c. 100,000 BC to 2334 BC. The narrative is supplemented by numerous descriptions of the principal archaeological sites for each phase, and by conclusions outlining the most important developments and changes. *The Homeric Hymn to Hermes* Bryn Mawr Commentaries, Incorporated Trente ans après son grand classique La Voie du chamane, Michael Harner nous livre enfin Caverne et cosmos , un livre déjà culte. Michael Harner est à l’origine de la renaissance du chamanisme avec son ouvrage majeur La Voie du chamane. Dans cette suite tant attendue, il apporte de nouveaux témoignages sur la réalité

des au-delà. S’appuyant sur une vie de pratiques chamaniques personnelles et sur plus de deux mille cinq cents récits d’expériences chamaniques vécues par des Occidentaux, Harner met en lumière des similitudes frappantes, et montre que les esprits rencontrés lors de ces voyages existent réellement. Il approfondit les techniques innovantes de son core shamanism, afin de permettre au lecteur d’accéder aux mondes au-delà du monde, d’y chercher les esprits qui lui prodigueront leur enseignement, et d’y retourner à loisir en quête de guérison et de conseils. Rédigé par une sommité mondiale en la matière, Caverne et cosmos est un ouvrage incontournable pour tous ceux qui s’intéressent au chamanisme, mais aussi à la spiritualité, aux religions comparées, aux expériences de mort imminente, à la conscience, à l’anthropologie ou encore au channeling. The Hatred of Music Simon and Schuster Bryn Mawr Commentaries provide clear, concise, accurate, and consistent support for students making the transition

from introductory and intermediate texts to the direct experience of ancient Greek and Latin literature. They assume that the student will know the basics of grammar and vocabulary and then provide the specific grammatical and lexical notes that a student requires to begin the task of interpretation. Basándose en una larga vida de experiencias chamánicas y en más de 2.500 informes de experiencias de personas durante su ascensión chamánica, Michael Harner destaca las asombrosas semejanzas entre sus descubrimientos, señalando que los cielos y espíritus que se encuentran en la ascensión existen en realidad. También aporta instrucciones sobre sus innovadoras técnicas chamánicas a fin de que los lectores también puedan ascender a reinos celestiales, buscar a maestros espirituales y regresar a voluntad para

sanarse. Escrito por la principal autoridad en la materia, *La cueva y el cosmos* no sólo es una lectura obligada para los interesados en el chamanismo, sino también para quienes quieran indagar en la espiritualidad, la religión comparada, las experiencias cercanas a la muerte, la sanación, la consciencia, la antropología y la naturaleza de la realidad. *Cave and Cosmos* North Atlantic Books

From the Back Cover: Psychedelics have been a part-often a central and sacred part-of most societies throughout history, and for half a century psychedelics have rumbled through the Western world, seeding a subculture, titillating the media, fascinating youth, terrifying parents, enraging politicians, and intriguing researchers. Not surprisingly, these curious chemicals fascinated some of the foremost thinkers of the twentieth century, fourteen of whom were interviewed for this book. Because no further human research can be done, these researchers constitute an irreplaceable resource. Higher Wisdom offers their fascinating

anecdotes, invaluable knowledge, and hard-won wisdom-the culmination of fifty years of research and reflection on one of the most intriguing and challenging topics of our time.

Follow the fantastic odyssey of one woman as she explores shamanic realms, encountering spirit animals and other teachers who answer her deepest questions and provide her with life-changing guidance and healing. Widowed, childless, and alone, 60-year-old Ema bravely decides to expand her self-knowledge by embarking on a spiritual adventure. She meets with author Sandra Harner, who leads her through five sessions of Harner Shamanic Counseling (HSC), a highly effective system of personal problem-solving in which counselors help clients enter a shamanic state of consciousness using a specific sonic rhythm. While in this state, clients seek out helping spirits, who offer insight, wisdom, and healing. By the end of her sessions with Harner, Ema has discovered her own innate ability to find answers to pervasive

personal questions, overcome inhibitory fears, and acquire self-confidence and wisdom. She has found a sense of personal empowerment and a newfound joy in existence--and decides she wants to continue her journeys independently. From 1999 to 2011, Ema ventures on a total of 64 journeys, each one chronicled in this book, thanks to taped recordings of her simultaneous narration. In addition to serving as an invaluable resource for students and practitioners of shamanism, psychology, and alternative modalities of therapy, Ema's *Odyssey* enchants us with its lyrical poetry and unique wisdom, and inspires us with its demonstration of courage, curiosity, persistence, and humility. Perhaps most importantly, we come away with the added assurance that we are not alone, that there are oft-untapped resources we all can access, given the tools and trust in our own experience.

Singularity Hypotheses

Univ of California Press
Caves and the Ancient Greek Mind analyses techniques of searching for ultimate wisdom in ancient Greece. The

Greeks perceived mental experiences of exceptional intensity as resulting from divine intervention. They believed that to share in the immortals' knowledge, one had to liberate the soul from the burden of the mortal body by attaining an altered state of consciousness, that is, by merging with a superhuman being or through possession by a deity. These states were often attained by inspired mediums, 'impresarios of the gods' - prophets, poets, and sages - who descended into caves or underground chambers. Yulia Ustinova juxtaposes ancient testimonies with the results of modern neuropsychological research. This novel approach enables an examination of religious phenomena not only from the outside, but also from the inside: it penetrates the consciousness of people who were engaged in the vision quest, and demonstrates that the darkness of the caves provided conditions vital for their activities.

The Beothuk Saga

Routledge

In the merciless arena of life, we are all subject to the law of the jungle, to ruthless competition and the survival of the fittest -

such is the myth that has given rise to a society that has become toxic for our generation and our planet. But today the lines are shifting. A growing number of new movements and thinkers are challenging this skewed view of the world and reviving outdated words like 'altruism', 'cooperation', 'kindness' and 'solidarity'. Our era is rediscovering with a sense of wonder that this jungle also has a strong scent of mutual aid. A close look at the wide spectrum of living beings reveals that, at all times and all places, animals, plants, micro-organisms and human beings have practised different forms of mutual aid. And those who survive difficult conditions best are not necessarily the strongest, but those who help each other the most. Through a multidisciplinary inquiry, Pablo Servigne and Gauthier Chapelle explore a vast, forgotten continent of mutual aid in order to discover the mechanisms of this 'other law of the jungle'. In so doing, they provide a more rounded view of the world of living things and give us some of the conceptual tools we need to move beyond the vicious circle of

competition and self-destruction that is leading our civilization to the verge of collapse.

Mystical Shaman Oracle Deck and Guidebook

Heinemann Educational Publishers

Hailed by Dr. Andrew Weil as a book "that must be brought to all who seek true health," Coyote Medicine is an engaging and essential testament to the power of alternative healing and recovery methods that lie beyond the confines of Western medicine.

Inspired by his Cherokee grandmother's healing ceremonies, Lewis Mehl-Madrona enlightens readers to "alternative" paths to recovery and health. Coyote Medicine isn't about eschewing Western medicine when it's effective, but about finding other answers when medicine fails: for chronic sufferers, patients not responding to medication, or "terminal" cases that doctors have given up on. In the story of one doctor's remarkable initiation into alternative ways to spiritual and physical health, Coyote Medicine provides the key to untapped healing methods available today.

Continuing the journey begun in his acclaimed book *The Cosmic Serpent*, the noted anthropologist ventures firsthand into both traditional cultures and the most up-to-date discoveries of contemporary science to determine nature's secret ways of knowing. Anthropologist Jeremy Narby has altered how we understand the Shamanic cultures and traditions

that have undergone a worldwide revival in recent years. Now, in one of his most extraordinary journeys, Narby travels the globe—from the Amazon Basin to the Far East—to probe what traditional healers and pioneering researchers understand about the intelligence present in all forms of life. Intelligence in Nature presents overwhelming illustrative evidence that independent intelligence is not unique to humanity alone. Indeed, bacteria, plants, animals, and other forms of nonhuman life display an uncanny penchant for self-deterministic decisions, patterns, and actions. Narby presents the first in-depth anthropological study of this concept in the West. He not only uncovers a mysterious thread of intelligent behavior within the natural world but also probes the question of what humanity can learn from nature's economy and knowingness in its own search for a saner and more sustainable way of life.

In *La Caverna e il Cosmo* l'autore Michael Harner (la

principale autorità nel campo dello sciamanesimo) fornisce nuove prove dell'esistenza di un'altra realtà. Confrontando i viaggi sciamanici effettuati da lui e dai suoi studenti con quelli degli sciamani di altre etnie, Harner ne evidenzia le sorprendenti similarità. Raggiunge quindi la conclusione che i mondi spirituali a cui lo sciamano accede posseggono una loro intrinseca realtà. Egli fornisce anche dettagliate istruzioni sulle innovative tecniche del particolare sciamanesimo da lui sviluppato: il core-sciamanesimo. Seguendo tali istruzioni il lettore potrà ascendere ai mondi celesti, trovare i suoi insegnamenti spirituali e riceverne aiuto e guida.

Tarot of the Magicians by Swiss occultist artist and author Oswald Wirth was first published in Paris in 1927, and a Weiser edition was later released in 1985. Long unavailable, the book is back in print in a beautiful new package with full-color pull-out cards reproducing Wirth's 1889 tarot deck. With a new introduction by bestselling tarot author Mary K. Greer, *Tarot of the Magicians* offers tarot enthusiasts and students

of the occult an in-depth and authoritative analysis of one of the most beautiful and evocative of all modern tarot decks. In this important tarot work

of the Major Arcana, Wirth combines the imagery and symbolism from Alchemy, Freemasonry, Rosicrucianism, and the

magical heritage of Egypt and Chaldea, and explores the astronomical (rather than strictly zodiacal) associations for the Major Arcana cards.
