One of the most persistent concerns about the future is whether it will be dominated by the predictive algorithms of AI – and, if so, what this will mean for our behaviour, for our institutions and for what it means to be human. AI changes our experience of time and the future and challenges our identities, yet we are blinded by its efficiency and fail to understand how it affects us. At the heart of our trust in AI lies a paradox: we leverage AI to increase our control over the future and uncertainty, while at the same time the performativity of AI, the power it has to make us act in the ways it predicts, reduces our agency over the future. This happens when we forget that that we humans have created the digital technologies to which we attribute agency. These developments also challenge the narrative of progress, which played such a central role in modernity and is based on the hubris of total control. We are now

moving into an era where this control is limited as AI monitors our actions, posing the threat of surveillance, but also offering the opportunity to reappropriate control and transform it into care. As we try to adjust to a world in which algorithms, robots and avatars play an ever-increasing role, we need to understand better the limitations of AI and how their predictions affect our agency, while at the same time having the courage to embrace the uncertainty of the future.

US: A Narrative History Volume 1: To 1877 Simon and Schuster

This is the first world history of empire, reaching from the third millennium BCE to the present. By combining synthetic surveys, thematic comparative essays, and numerous chapters on specific empires, its two volumes provide unparalleled coverage of imperialism throughout history and across continents, from Asia to Europe and from Africa to the Americas. Only a few decades ago empire was believed to be a thing of the past; now it is clear that it has been and remains one of the most enduring forms of political organization and power. We cannot understand the dynamics and resilience of empire without moving decisively beyond the study of individual cases or particular periods, such as the relatively short age of European colonialism. The history of empire, as these volumes amply demonstrate, needs to be drawn on the much broader canvas of global history. Volume I: The Imperial Experience is dedicated to synthesis and comparison. Following a comprehensive theoretical survey and bold world history synthesis, fifteen chapters analyze and explore the multifaceted experience of empire across cultures and through the ages. The broad range of perspectives includes: scale, world systems and geopolitics, military organization, political economy and elite formation, monumental display, law, mapping and registering, religion, literature, the politics of difference, resistance, energy transfers, ecology, memories, and the decline of empires. This broad set of topics is united by the central theme of power, examined under four headings: systems of power, cultures of power, disparities of power,

and memory and decline. Taken together, these chapters offer a comprehensive and unique view of the imperial experience in world history.

#1 NEW YORK TIMES BESTSELLER • A chorus of extraordinary voices tells the epic story of the four-hundred-year journey of African Americans from 1619 to the present—edited by Ibram X. Kendi, author of *How to Be an Antiracist*, and Keisha N. Blain, author of *Set the World on Fire*. FINALIST FOR THE ANDREW CARNEGIE MEDAL • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post, Town & Country, Ms. magazine, BookPage, She Reads, BookRiot, Booklist • "A vital addition to [the] curriculum on race in America . . . a gateway to the solo works of all the voices in Kendi and Blain's impressive

choir."—The Washington Post "From journalist Hannah P. Jones on Jamestown's first slaves to historian Annette Gordon-Reed's portrait of Sally Hemings to the seductive cadences of poets Jericho Brown and Patricia Smith, *Four Hundred Souls* weaves a tapestry of unspeakable suffering and unexpected transcendence."—O: The Oprah Magazine The story begins in 1619—a year before the Mayflower—when the White Lion disgorges "some 20-and-odd Negroes" onto the shores of Virginia, inaugurating the African presence in what would become the United States. It takes us to the present, when African Americans, descendants of those on the White Lion and a thousand other routes to this country, continue a journey defined by inhuman oppression, visionary struggles, stunning achievements, and millions of ordinary lives passing through extraordinary history. *Four Hundred Souls* is a unique one-volume "community" history of African Americans. The editors, Ibram X. Kendi and Keisha N. Blain, have assembled ninety brilliant writers, each of whom takes on a five-year period of that four-hundred-year span. The writers explore their periods through a variety of techniques: historical essays, short stories, personal vignettes, and fiery polemics. They approach history from various perspectives: through the eyes of towering historical icons or the untold stories of ordinary people; through places, laws, and objects. While themes of resistance and struggle, of hope and reinvention, course through the book, this collection of diverse pieces from ninety different minds, reflecting ninety different perspectives, fundamentally deconstructs the idea that Africans in America are a monolith—instead it unlocks the startling range of experiences and ideas that have always existed within the community of Blackness. This is a history that illuminates our past and gives us new ways of thinking about our future, written by the most vital and essential voices of our present.

 This major new book offers a much-needed introduction to the work of Siegfried Kracauer, one of the main intellectual figures in the orbit of the Frankfurt School of Critical Theory. It is part of a timely revival and reappraisal of his unique contribution to our critical understanding of modernity, the interrogation of mass culture, and the recognition of both the dynamism and diminution of human experience in the

hustle and bustle of the contemporary metropolis. In stressing the extraordinary variety of Kracauer's writings (from scholarly philosophical treatises to journalistic fragments, from comic novels to classified reports) and the dazzling diversity of his themes (from science and urban architectural visions to slapstick and dancing girls), this insightful book reveals his fundamental and formative influence upon Critical Theory and argues for his vital relevance for cultural analysis today. Kracauer's work is distinguished by an acute sensitivity to the 'surface manifestations' of popular culture and a witty, eminently readable literary style. In exploring and making accessible the work of this remarkable thinker, this book will be indispensable for scholars and students working in many disciplines and interdisciplinary fields: sociology and social theory; film, media and cultural studies; urban studies, cultural geography and architectural theory; philosophy and Critical Theory.

 For decades, the history of sexuality has been a multidisciplinary project serving competing agendas. Lesbian, gay, and queer scholars have produced powerful narratives by tracing the homosexual or queer subject as continuous or discontinuous. Yet organizing historical work around categories of identity as normal or abnormal often obscures how sexual matters were known or talked about in the past. Set against the backdrop of women's work experiences, friendships, and communities during World War I, *Disturbing Practices* draws on a substantial body of new archival material to expose the roadblocks still present in current practices and imagine new alternatives. In this landmark book, Laura Doan clarifies the ethical value and political purpose of identity history—and indeed its very capacity to give rise to innovative practices borne of sustained exchange between queer studies and critical history. *Disturbing Practices* insists on taking seriously the imperative to step outside the logic of identity to address questions as yet unasked about the modern sexual past.
