In Earline's Pink Party Elizabeth Findley Shores sifts through her family's scattered artifacts to understand her grandmother's life in relation to the troubled racial history of Tuscaloosa, Alabama. A compelling, genre-bending page-turner, Earline's Pink Party: The Social Rituals and Domestic Relics of a Southern Woman analyzes the life of a small-city matron in the Deep South. A combination of biography, material culture analysis, social history, and memoir, this volume offers a new way of thinking about white racism through Shores's conclusion that Earline's earliest childhood experiences determined her worldview. Set against a fully drawn background of geography and culture and studded with detailed investigations of social rituals (such as women's parties) and objects (such as books, handwritten recipes, and fabric scraps), Earline's Pink Party tells the story of an ordinary woman, the grandmother Shores never knew. Looking for more than the details and drama of bourgeois Southern life, however, the author digs into generations of family history to understand how Earline viewed the racial terror that surrounded her during the Jim Crow years in this fairly typical southern town. Shores seeks to narrow a gap in the scholarship of the American South, which has tended to marginalize and stereotype well-to-do white women who lived after Emancipation. Exploring her grandmother's home and its contents within the context of Tuscaloosa society and historical events, Shores evaluates the belief that women like Earline

consciously engaged in performative rituals in order to sustain the "fantastical" view of the white nobility and the contented black underclass. With its engaging narrative, illustrations, and structure, this fascinating book should interest scholars of memory, class identity, and regional history, as well as sophisticated lay readers who enjoy Southern history, foodways, genealogy, and material culture.

The term "domesticity" may bring to mind cooking, cleaning, and tranquil evenings at home. During the last few decades, however, American domesticity has become ever more politicized as third-wave feminists, conservative critics, and others debate the very meaning of home and family. Despite this new wave of debate, the home, particularly the kitchen, is comfortable territory for the consolidation of issues of gender, space, marketplace, community, and technology in twentieth century literature. This work looks closely at a wide variety of southern domestic literature, focusing particularly on the role of the family kitchen as a driving force in the narratives of Ellen Glasgow, Eudora Welty, Lee Smith, and Toni Morrison. Topics include the overtones of isolation and the almost claustrophobic third-person narration of Glasgow's *Virginia and Life* and Gabriella; the communal kitchen and its role in defining the sexual discourse of Welty's *Delta Wedding*; the unification of national railway lines and its consequences for the traditional Appalachian kitchen in Smith's *Oral History and Fair and Tender Ladies*; and the lasting effects of slavery on the "haunted domesticity" of the African-American kitchen in Morrison's *Jazz, Paradise, and Love*.
