Shakespeare and Gender
guides students,

educators, practitioners and researchers through the complexities of the representation of gender and sexuality in Shakespeare's work.

Informed by contemporary and early modern debates and insights into gender and sexuality, including intersectionality, feminist geography, queer and performance studies and fourth-wave feminism, this book provides a lucid and lively discussion of how gender and sexual identity are debated, contested and displayed

in Shakespeare's plays and sonnets. Using close textual analysis hand-in-hand with diverse contextual materials, the book offers an accessible and intelligent introduction to how gender debates are integral to the plays and poems, and why we continue to read and perform them with this in mind. Topics and themes discussed include gendering madness, paternity and the patriarchy, sexuality, anxious masculinity, maternal bodies, gender

transgression, and kingship and the male body politic.

Shakespeare / Sense

Bloomsbury Publishing
Looking at some of the Shakespearean comedies, author John Vyvyan suggests they express a consistent, profoundly Christian philosophy of life based on the Platonic ideas of beauty and love. In *A Midsummer Night's Dream*, *As You Like It*, and *All's Well That Ends Well*, the heroines bring to life the idea of love as the force that is awakened in the world by beauty which

then leads the soul to perfection. Vyvyan believes that for Shakespeare, love was preeminent over human ideas of justice, that self-discovery was a supreme human experience, and that breaking faith with the ideal—as Agamemnon, Cressida, and Hector all do in *Troilus and Cressida*—sowed the seeds of tragedy. The author's recognition of Shakespeare's use of allegory enables him to make sense of certain developments in these

plays that seem weak or absurd from the psychological standpoint. He does not suggest that Shakespeare's philosophy is the most important thing about his plays; it is simply one thing about them that ought to be known. The recognition of this philosophy enhances enjoyment of the plays, giving them a new dimension and richness. This edition contains a list of the author's Shakespearean references and an enhanced index.

Wydawnictwo UJ Pearce analyzes three of Shakespeare's immortal plays in order to uncover evidence of the Bard's Catholic beliefs.

Through Elizabethan Eyes Bloomsbury Publishing Physicians, readers and scholars have long been fascinated by Shakespeare's medical language and the presence of healers, wise women and surgeons in his work. This dictionary includes entries about ailments, medical concepts, cures and,

taking into account recent critical work on the early modern body, bodily functions, parts, and pathologies in Shakespeare.

Shakespeare's Medical Language will provide a comprehensive guide for those needing to understand specific references in the plays, in particular, archaic diagnoses or therapies ('choleric', 'tub-fast') and words that have changed their meanings ('phlegmatic', 'urinal'); those who want to learn more about early modern

medical concepts ('elements', 'humors'); and those who might have questions about the embodied experience of living in Shakespeare's England. Entries reveal what terms and concepts might mean in the context of Shakespeare's plays, and the significance that a particular disease, body part or function has in individual plays and the Shakespearean corpus at large.

**Eyes to Wonder,
Tongue to Praise**

University of California Press

Reveals the influence of the Renaissance scholar-priest Marsilio Ficino on Shakespeare and how the Neoplatonic philosophy of love shaped the inner meaning of his work • Shows how Shakespeare's works offer a path back to the divine unity of all things • Explains the role of love in the Christian-Platonic concept of the three worlds In Love's Labours Lost, Shakespeare talks of the true Promethean fire that is lit by the doctrine he reads in women's eyes. What is this doctrine and

what is this true Promethean fire to which it gives birth? In Shakespeare and the Ideal of Love, Jill Line shows that Shakespeare shared the perennial philosophy of a long line of teachers, including Hermes Trismegistus, Pythagoras, Plato, Plotinus, and especially the Florentine scholar and mystic Marsilio Ficino. The answer to these questions, Line claims, lies in Ficino's Christian-Platonic philosophy of love, from which all Shakespeare's plays have

their genesis. Love, according to Ficino, is the force that inspired the creation of the worlds of the angelic mind, the soul, and the material, and it is through love that each of these worlds expands into the next. Love is also the vehicle that allows human beings to make the return journey to the source of their being, where they find unity in God. This is the path on which all of Shakespeare's lovers embark. Jill Line explains how Shakespeare's plays represent more than poetic literary constructs:

They are mirrors of the progress of the soul, in many conditions and situations, as it returns to the divine unity of all things.

What is a Man? William Bishop Jennifer C. Vaught illustrates how architectural rhetoric in Shakespeare and Spenser provides a bridge between the human body and mind and the nonhuman world of stone and timber. The recurring figure of the body as a besieged castle in Shakespeare's drama and

Spenser's allegory reveals that their works are mutually based on medieval architectural allegories exemplified by the morality play *The Castle of Perseverance*. Intertextual and analogous connections between the generically hybrid works of Shakespeare and Spenser demonstrate how they conceived of individuals not in isolation from the physical environment but in profound relation to it. This book approaches the interlacing of identity and place in terms of

ecocriticism, posthumanism, cognitive theory, and Cicero's art of memory. *Architectural Rhetoric in Shakespeare and Spenser* examines figures of the permeable body as a fortified, yet vulnerable structure in Shakespeare's comedies, histories, tragedies, romances, and Sonnets and in Spenser's *Faerie Queene* and *Complaints*. [The Routledge Research Companion to Shakespeare and Classical Literature](#) A&C Black Through the Eyes of Shakespeare offers a

collection of rhythmic poetry that has been inspired by the pacing and emotions encountered in Shakespeare's A Midsummer Night's Dream. Poet LaShandia Billingsley has creatively envisioned her poetry in a manner reminiscent of Shakespeare's verses. From exploring the meaning of the purity of love in Destiny to the vibrancy of The Woman Within, she captures the emotional essence of these life occurrences from deep within her

heart and soul. Through her rhapsodic pacing, one is able to experience the emotions of her words through the rhythmic timing of her poetry. Passion Flower Oh, passion flower, short-lived but sweet, your fragrant elegance evokes my highest esteem and enchantment. Oh, passion flower, your aromatic aura takes me back to a place in time centuries ago where I stood amidst kings and servants and vowed before noblemen and clergy what's set forever on my heart. Oh,

passion flower, soft and sweet, you are to me a vision of eternity.

The Art of Shakespeare's Sonnets

BoD - Books on Demand

The complete dramatic and poetical works of William Shakespeare.

With a summary outline of the life of the poet, and a description of his most authentic portraits.

'Love looks not with the

eyes but with the mind': Shakespeare's Sonnets, Alchemy and Individuation. Ignatius Press
 Alongside Spenser, Sidney and the early Donne, Shakespeare is the major poet of the 16th century, largely because of the status of his remarkable sequence of sonnets. Professor Cousins' new book is the first comprehensive study of the Sonnets and narrative poems for over a decade. He focuses in particular on their exploration of self-knowledge, sexuality,

and death, as well as on their ambiguous figuring of gender. Throughout he provides a comparative context, looking at the work of Shakespeare's contemporaries. The relation between Shakespeare's non-dramatic verse and his plays is also explored.

Taylor & Francis
 It is my intention, in reading together literary critics, artists and theorists, to show how the development of Shakespeare's conception of his own subjectivity develops over the course of his sonnet sequence. I will discuss and utilise the Jungian concept of individuation, and the Lacanian concept of desire, as well as language from the lexicon of the fifteenth and sixteenth century alchemists to develop an understanding of how the

intimately psychological nature of the production of art is being demonstrated by Shakespeare in his poems.

Shakespeare's Perjured Eye
Bloomsbury Publishing

Fulfilling the promise he made in his previous book, *The Quest for Shakespeare*, bestselling literary writer Joseph Pearce analyzes in this volume three of Shakespeare's immortal plays — *The Merchant of Venice*, *Hamlet* and *King Lear* — in order to

uncover the Bard's Catholic beliefs. In *The Quest for Shakespeare*, which has been made into an EWTN television series, Pearce delved into the known biographical evidence for Shakespeare's Catholicism. Here the popular and provocative author digs into the plays, which were written and first performed during the English crown's persecution of Catholics. English history and literature were taught for generations through the prism of English

Protestantism. Of late both of these fields have been dominated in universities and academic presses by modern scholars with filters and interpretations of their own. Though the evidence for Shakespeare's Catholicism has been studied before now, thanks, in part, to the unique contribution of Joseph Pearce, the Bard's genius is being analyzed in the open air of the public arena, the very place where Shakespeare intended his dramas to entertain and edify.

Through Shakespeare's Eyes-- what is a Man?

Routledge

This book is a collection of articles written for Professor Marta Gibińska by her colleagues and friends, from universities both in Poland and abroad. The texts presented in this volume cover a wide spectrum of topics. Part I, devoted to Shakespeare, comprises wide-ranging work from renowned specialists in the field: studies on historical background, sources, theatrical, screen and literary reception, as

well as translation. Part II contains articles which deal with multiple authors, genres and perspectives, but are uniformly passionate and insightful. The title Eyes to Wonder, Tongue to Praise, a poetic phrase borrowed from Shakespeare, conveys what seems to be a defining quality of both the contributors to this volume and its recipient: namely, the ability to translate keen appreciation of literature not into speechless awe but eloquent praise,

combined with the generosity to share it with others.

Lexicon Zu Shakespeare's Werken

Harvard University Press

Fineman argues that in the sonnets Shakespeare developed an unprecedented poetic persona, one that subsequently became the governing model of all literary subjectivity. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the

brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, *Voices Revived* makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1986.

Shakespeare's Medical Language: A Dictionary

Peter Lang Pub
Incorporated

With Shakespeare's Eyes is the first monograph to focus exclusively on the relationship between the

Russian poet Alexander Pushkin and Shakespeare. Taking into account contemporary perceptions of Shakespeare in print and on the Russian stage, O'Neil examines all levels of poetic influence of Shakespeare on Pushkin. In addition to untangling the central presence of Shakespeare on Pushkin's historical tragedy 'Boris Godunov'. O'Neil examines Shakespeare's influence in many other works by Pushkin, an influence that ranges from the textual to the conceptual. The

Shakespeare plays addressed most closely in this book are 'Othello', 'Measure for Measure', and 'Julius Ceasar', all of which interact in a dynamic way with Pushkin's creative development. This book will help English readers understand better what it means to say Pushkin is 'the Shakespeare of Russia.' Catherine O'Neil is Assistant Professor of Russian at the University of Denver.

[A New Variorum Edition of Shakespeare: The life and death of King John. 1919](#)
University of California Press

Shakespeare's plays share with his sonnets a fundamental interest in the relation between perceiving, knowing and thinking, and between thinking and acting. By considering the relationship between

perception as a theme and as a process of the thinking mind and various treatments of plot, structure and characterization, this book underscores the continuity of Shakespeare's sonnets as well as the relation between his sonnets and plays. Recognizing Shakespeare's use of the -parted eye- helps to reveal what Shakespeare thought about thought, how he understood understanding, and how he would have us understand it."
