KELLEY HEAVEN

Socijalna psihologija Peter Lang GmbH, Internationaler Verlag Der Wissenschaften

This is designed to be a clear and readable introduction to social psychology for A-level students, for those studying psychology as a supplement to other applied courses, and for those requiring an overview of the major concerns and issues in this subject.; The book aims to integrate the traditional material, such as conformity, attitudes and prejudice, with some of the more recent insights into social life, such as the study of discourse, relationships, social identity and social representations. This work also incorporates themes and concerns which have emerged in social psychology, including problems of ethnocentrism and identity, ethical issues, and the challenges to conventional

methodology represented by some recent areas of research.

Социолошки преглед Psychology Press

Seit dem Ende des 20. Jahrhunderts macht der europäische Integrationsprozeß unter den Bedingungen der globalen Informations- und Kommunikationsgesellschaft rasche Fortschritte, die nationalstaatlichen Grenzen werden durchlässiger, bei den Menschen wächst die Bereitschaft und der Wille zur Transnationalität. Freilich, das Vermögen dazu hält mit dem Wollen nicht Schritt. Zu gering ist das Wissen um die Anderen und zu stereotyp sind noch die Vorstellungen voneinander, als daß sich die Angehörigen verschiedener Nationen in voraussetzungsloser Akzeptanz begegnen könnten. Stereotype verstellen den Weg zum unbelasteten Miteinander, auch und gerade im ehemaligen Jugoslawien.
