The race is on to find a

killer when Jude stumbles  
across a body at the  
bookies in this quirky,  
cozy, British village  
mystery. Jude has never  
been averse to a bit of a  
flutter; her friend Carole,

on the other hand, thinks  
that the local betting shop  
is a den of iniquity. But  
when Jude stumbles upon  
the body of fellow  
customer Tadeusz  
Jankowski after placing a

bet, the odds of finding his killer don't look good. No one seems to know much about Polish immigrant Tadek, and even his sister doesn't know why he moved to Fethering in the first place. As they question the local residents, Carole finds an unexpected friend in an inveterate gambler, and Jude finds herself in potentially more trouble than she can handle with a lecherous and charming drama professor. In this race there can only be one winner, but with no leads

and several suspects in the running will the sleuthing friends be pipped at the post by a cold and calculating killer? *The Financial Spread Betting Handbook, 3rd edition* Little, Brown Books for Young Readers SHE BETRAYED MY FAMILY--I WILL MAKE HER PAY. encompassing rural areas as well as cities from Birmingham to Pittsburgh. Though Appalachia's people are as diverse as its terrain, few other regions in America are as burdened with stereotypes. Author Frank X Walker coined the term "Affrilachia" to give identity and voice to people of African descent from this region and to highlight Appalachia's multicultural identity. This act inspired a group of gifted artists, the Affrilachian Poets, to begin working together

and using their writing to defy persistent stereotypes of Appalachia as a racially and culturally homogenized region. After years of growth, honors, and accomplishments, the group is acknowledging its silver anniversary with Black Bone. Edited by two newer members of the Affrilachian Poets, Bianca Lynne Spriggs and Jeremy Paden, Black Bone is a beautiful collection of both new and classic work and features submissions from Frank X Walker, Nikky Finney, Gerald Coleman, Crystal

Wilkinson, Kelly Norman Ellis, and many others. This illuminating and powerful collection is a testament to a groundbreaking group and its enduring legacy. **Blood at the Bookies** Copp, Clark Company If you have ever wondered why the bookie always wins and you always lose, or how your bookie adjusts point spreads and in which direction, The Book on Bookies is for you. Autobiography of a Mafia Hit Man reveals the true story of his most harrowing contract murder. “Joey the Hit Man” was a Bronx-born hired assassin who achieved widespread notoriety after writing a bestselling memoir and appearing on the David Susskind show. In this “down-to-earth realistic account,” Joey tells the riveting story behind the strangest of his thirty-eight kills (Los Angeles Free Press). In the fall of 1969, a public execution in an Italian restaurant in

Brooklyn earned Joey a mention in the New York Daily News and a twenty-grand payout from the mob. On the surface, his next job seemed just as routine: The bosses suspected their trusted numbers controller, Joe Squillante, was skimming the nightly bets to settle personal debts. Joey gave Squillante two weeks to live. But there was one problem: Squillante once had a hit out on Joey too. No clueless patsy, #29 was an unpredictable bull’s-eye, and the contract holder was a

dangerous mobster with a personal grudge against Joey. Taking the job meant entering into a game of predator and prey as nerve-racking as the cock of a .38 hammer. From first tail to all-night stakeouts to the intricate planning of the final confrontation, this is the shockingly detailed first-person account of a professional hit. Full of twists, turns, and double crosses, Hit #29 “tells it like it is” and delivers an unforgettable insider’s view of the mob (Kirkus Reviews).

Book Jacket: From taking \$2 horse bets at his uncle's newsstand in Chicago's downtown district as a nine-year-old in the 1940s, to taking \$20,000 Super Bowl bets from traders on the floor at one of Chicago's Exchanges, Anthony Serrano has seen every bet and every character that comes with them—some loved, and some who wield machine guns. Serrano, a lifelong

resident of Chicago's Chinatown, takes readers on a story about his childhood experience with a book-maker, in the army, as an options clerk and broker and as a railroad clerk. Where it seemed everyone just couldn't resist the thrill of a good (or bad) bet. Told first-hand, Serrano walks us through light-hearted tales that often lead to funny yet sometimes serious circumstances. After taking steep bets from what appeared to be a wealthy businessman,

Serrano is exposed to what turns out to be a drug-crazed, bankrupt husband who will stop at nothing to get his ex-wife back and suffers a brutal fate in his pursuit. Meanwhile, Serrano is swept into this drama after the husband cannot pay back a bet. Serrano also explains how his experience as a bookie gave him an advantage while in the army, giving him job opportunities that few other reserves had. He tells how his investment in a Lounge in Cicero, Illinois, welcomes some

threatening and dangerous company, and how his neighborhood connections may have saved his life. From being shaken down by Chicago Police for "their" share of the action from a bookie on the railroads to trying to rescue a dear friend from financial ruins in the commodity markets in 1980s, we see a self-made man who has an unusual grace in pressure situations and an affinity for forging friendships with the most unlikely of characters, resulting in some fascinating tales.

FULLY REVISED AND UPDATED THIRD EDITION  
Financial spread betting is a huge industry. But who wins and who loses at this game? What do the winners do that differs from the losers? That is what this book is about. Malcolm Pryor uses the model of climbing a mountain to explain a

disciplined, winning approach to spread betting. First a base camp must be established. This includes getting set up with the right corporate data, charting and accounts software, deciding what to bet on and what your time frame should be, learning the nuances of operating an account, controlling risk, and learning from other people's mistakes. Many spread bettors don't even get this far. Next, we start climbing the mountain; this means having strategies that are right

for us. The whole of this section is devoted to illustrating strategies which can be used for spread betting, for example trend following, counter-trend strategies and delta-neutral strategies such as pairs trading. Finally, we make our assault on the summit of the mountain. This is where the winners set themselves apart from the losers. Issues covered here include trade planning, record keeping, performance reviews, more on risk management, psychology

and continual development. In this substantially revised and enhanced third edition, you will benefit from: - Updated details about computer hardware, trading software and price data products to reflect technological changes and new products coming to market. - Updated information about product spreads to reflect the changed spread betting and market environment. - Refreshed and improved information about spread betting firms' product offerings, order types, and

approach to pricing and hedging. - Numerous other revisions and improvements throughout, to bring everything up to date and enhance clarity. Spread betting is great fun; almost anyone can enjoy the odd bet now and again. But if you want to make money from spread betting then it must be taken seriously and a disciplined, tactical approach is required. This book is the essential guide to get to the top of the mountain. **Enforcer** Routledge

For many of their campfire tales, the aboriginal people of Australia looked to the

skies, where they found a twinkling text of morals and stories within their own version of the zodiac. Today, the starry birds, fishes, and dancing men that provided a backdrop to life Down Under for thousands of years have found a new popularity beyond Australia. With this colorful compilation of oral traditions, readers can savor the tales as they were told by their aboriginal narrators. Footnotes throughout the text clarify occasional obscurities, providing background on aboriginal

life and customs as the need for explanation arises. For the most part, however, the author allows the myths to speak for themselves, without any attempt to support or disprove anthropological theories. The myths range in nature and tone from reverent recountings of the origins of the world and human life, to legends about the roots of religious and social customs, to fanciful and humorous animal fables. Folk-tales of Andros Island, Bahamas Open Road Media  
 True stories of nineteenth-century crooks, con artists, and quacks—including the man who “sold” the Brooklyn Bridge. Gunslingers and outlaws weren’t the only ones who made the West wild. The nineteenth century was the golden era of riverboat gamblers,

crooked railroad contractors, and filthy-rich medical quacks. These crooks made a living deceiving people who took a stranger at face value and left their doors unlocked. Throw in some get-rich-quick schemes and a generous mixture of whiskey and there was never a shortage of suckers. Conman George Parker was able to stay in business for forty years by “selling” public structures such as Madison Square Garden and the Statue of Liberty. He even “sold” the Brooklyn Bridge as

often as twice a week. For most, the Salted Gold Mine or the Magic Wallet cons were enough to satisfy their greed. However, the more ambitious grifters tried the Big Store, an illegal underground betting parlor like the one seen in the movie *The Sting*. With an honest-looking face and a lack of morals, these scammers played a big role in giving the frontier its lawless reputation—and this book tells their stories.
