According to Didi-  
Huberman, visual  
representation has an

"underside" in which intelligible forms lose clarity and defy rational understanding. Art historians, he contends, fail to engage this underside, and he suggests that art historians look to Freud's concept of the "dreamwork", a mobile process that often involves substitution and contradiction.

Authors from Herodotus in antiquity to Vasari in the Renaissance related art and architecture to peoples, nations, regions, cities, and environments. Already with Winckelmann and the origins of discussion of art history in the eighteenth century geography was seen as

a powerful determinant of art. In the nineteenth century, the perceived connection between nations or races and art flourished, mainly because of the rise of nationalism. Around 1900 the method of geographical analysis received a modern name, 'Kunstgeographie'. But the ideology of 'Blut and Boden' associated with Nazism and related ideologies brought the geography of art into disrepute. This book proposes to return anew to the approach of artistic geography, which had been largely neglected from the Second World War until recently, and to reevaluate the possibilities it provides through a selection of case studies that discuss the connection

between art and its place. The introduction and first essay deal with the historiography of the geography of art. Five essays take up specific questions ranging from France and the Low Countries to Mexico and China. The final three essays consider contemporary and broader theoretical issues concerning art in time and place.

universitaire mais celle d'un passionné guidé par ses émotions, qui souhaite partager son enthousiasme.

Ce premier volume de la série Histoire de l'art traite de l'art préhistorique, égyptien, oriental (Mésopotamie, Assyrie, Perse), grec et romain. Par son évocation de l'art grec notamment, celui qu'Henry Miller qualifiait de « magicien » rend un vibrant hommage à l'art et, à travers lui, à la vie.

L'Histoire de l'art d'Elie Faure est la première et peut-être la seule véritable histoire universelle de l'art qui ait jamais été écrite.

L'universelle parce que. partant des fresques préhistoriques pour arriver à l'époque contemporaine, en passant par l'Islam, les Tropiques et tous les arts de l'Asie, elle ne juxtapose pas l'analyse des styles, -mais cherche à dégager de leur diversité, leurs caractères essentiels et les deux ou trois attitudes fondamentales qui ont permis à l'homme au cours de son histoire d'exprimer dans le monde des images le Dieu confus qui l'habite .Elie -Faure savait de l'histoire de l'art tout

ce qu'un homme cultivé peut raisonnablement en savoir et cet immense poème s'appuie sur l'information historique la plus solide.

[Time's Visible Surface](#)

L'Histoire de l'art est une vaste fresque qui va de la préhistoire jusqu'aux premières années de notre siècle. Commencée en 1909, terminée en 1927, plusieurs fois remaniée, la totale nouveauté de l'entreprise d'Elie Faure a été d'introduire un genre nouveau devenu populaire et indispensable aujourd'hui: le livre d'art où chaque commentaire peut être comparé aux oeuvres elles-mêmes, la juxtaposition et la confrontation des images justifiant l'audace et des rapprochements qui parfois paraissent insolites. Entreprise tout à fait nouvelle à l'époque, elle n'a été, Malraux mis à part, ni égalée ni dépassée aujourd'hui. Cette

édition du cinquanteaire comporte des éléments inédits : - une présentation de l'homme et de l'oeuvre, en tête de L'art antique; - un dossier constitué de lettres, d'articles, de variantes, de textes divers, à la fin de chaque volume. Ces éléments établis par Martine Chatelain-Courtois, responsable des Cahiers Elie Faure et grande spécialiste de son oeuvre, sont d'un immense intérêt. Ils permettent une lecture entièrement nouvelle, nous aident à saisir l'évolution de l'auteur, le font revivre au fil des ans et des itinéraires de ses voyages.
