During his sixty years as a motoring journalist, Stuart Bladon test drove almost every car on the road. Working

for Autocar, and later as a freelance writer, he was granted access to some of the oddest vehicles off the road as well, including the three-wheeled Bond Minicar, in which he was very nearly killed. The best part of any car test, however, was finding out how fast they would go. In 1970, he set what was for a long time Autocar's fastest road test maximum speed, at 172mph. Going back to the days when the only speed limit was the 30mph restriction in built-up areas, each chapter of this book brings a motoring story of travel, testing and adventure. Since a fond aunt began teaching him to drive at the age of 7, Stuart Bladon has enjoyed a lifelong passion for cars. This book recounts the many motors and the colourful escapades of a life spent very near - if not over - the speed limit.

World Cars, 1982 Icon Books Ltd

The Magic of a Name tells the story of the first 40 years of Britain's most prestigious manufacturer - Rolls-Royce. Beginning with the historic meeting in 1904 of Henry Royce and the Honourable C.S. Rolls, and the birth in 1906 of the legendary Silver Ghost, Peter Pugh tells a story of genius, skill, hard work and dedication which gave the world cars and aero engines unrivalled in their excellence. In 1915, 100 years ago, the pair produced their first aero engine, the Eagle which along with the Hawk, Falcon and Condor proved themselves in battle in the First World War. In the Second the totemic Merlin was installed in the Spitfire and built in a race against time in 1940 to help win the Battle of Britain. With unrivalled access to the company's archives, Peter Pugh's history is a unique portrait of both an iconic name and of British industry at its best.
