Rapid globalization coupled with the growth of the Internet and Information Technology (IT) has led to a complete transformation in the way businesses or organizations function today. This has not only affected the management culture but has also led to an increase in competition in terms of markets and resources. Businesses have become more customer-driven and e-business is gaining popularity. Traditional means of communication/correspondence have given way to online dealings, e-mails and chats. With such a radical shift in the approach to doing business, came the need for specialized systems to handle the various departments and functions in an organization. Management Information System or MIS is an organized and well-structured system used by organizations for the collection, storage, processing and dissemination of data in the form of information that facilitates the smooth functioning of the organization. Management information systems involve three primary resources: people, technology and information or decision-making. It is in this context, a textbook on introduction to the subject of MIS is presented to the students of Management program. The book contains the syllabus from basics of the subjects going into the intricacies of the subjects. All the concepts have been explained with relevant examples and diagrams to make it interesting for the readers. An attempt is made here by the experts to assist the students by way of providing case based study material as per the curriculum with non-commercial considerations. However, it is implicit that these are exam-oriented Study Material and students are advised to attend regular class room classes in the institute and utilize reference books available in the library for in-depth knowledge. We owe to many websites and their free contents; we would like to specially acknowledge contents of website [www.wikipedia.com](http://www.wikipedia.com) and various authors whose writings formed the basis for this book. We acknowledge our thanks to them. At the end we would like to say that there is always a room for improvement in whatever we do. We would appreciate any suggestions regarding this study material from the readers so that the contents can be made more interesting and meaningful. The motivation for the Eleventh Edition of 'Investment Management' has been provided by the enthusiastic response of the readers and reviewers to the earlier editions which, together with reprints, were sold out within a few months of the publication. The book has been presented as an introductory level text on the theory and practice of investment. It has been accepted by the students of finance preparing for a paper on investment management, particularly the B.Com (H) VIth Semester (CBCS)/Annual Mode of University of Delhi. The highlight of the Eleventh Edition is the presentation of 'Concept Checks' in the form of 'Test-Yourself' at various places in different chapters. This will give an opportunity to the students to apply the concepts which they have read so far. Additional working notes and explanations have been provided at various places throughout the book. Comments and suggestions received from students as well as teachers have been duly incorporated. In an attempt to keep intact the basic structure of the book, the chapter plan has not been changed. Nevertheless, sufficient material has been added in Chapter 6, 'Fundamental and Technical Analysis' with a view to provide more insight into technical analysis. Several numerical illustrations have been added in different Chapters at appropriate places.
