Use and Abuse of History has become a key text of current historiography; this is a book that poses fundamental and disturbing questions about the use and abuse of history.

Engaging and challenging, this book confronts the reader with the many 'histories' that exist and have existed around the world, from the Zulu kingdoms to Communist China. This title has now been extensively revised by

Marc Ferro, a well respected historian, and presents the different narratives that constitute the histories of countries as diverse as India, Iran, Trinidad and the United States makes for fascinating reading in their own right. What makes this book so valuable, though, is what these narratives tell us about the societies which create them – how much is history distorted in order to condition the minds of those who are taught it? Use and Abuse of History appeals to anyone with a general interest in history.

Los Inicios del Arte Otomano: La herencia de los emiratos presenta las expresiones artísticas y arquitectónicas del

oeste de Anatolia y el surgimiento de la dinastía otomana en los siglos XIV y XV. Los emiratos turcos desarrollaron una nueva síntesis estilística de las tradiciones centroasiática y selyúcida con el legado de las civilizaciones griega, romana y bizantina. Los esquemas arquitectónicos de las mezquitas, los hammam, hospitales, madrasas, mausoleos y grandes complejos religiosos, las columnas y cúpulas, la decoración floral y caligráfica, la cerámica y la iluminación atestiguan la riqueza de estilos. El florecimiento cultural y artístico que acompañó al surgimiento del Imperio Otomano estuvo profundamente marcado por la

herencia de los Emiratos. Ocho recorridos le invitan a descubrir 61 museos, monumentos y yacimientos en Milas, Selçuk, Manisa, Bursa, Iznik, Karacabey, Çanakkale, Gelibolu y Edirne, entre otras localidades.

Los espectaculares

paisajes costeros y de montaña proporcionan el telón de fondo para las visitas a las ciudades, los castillos, jardines, iglesias y antiguas mezquitas cristianizadas. This 1959 account of the Nomadic pastoral Fulani of Bornu, Northern Nigeria, begins with a brief historical sketch of the ancient kingdom of Bornu, and the Holy War of the nineteenth century and its repercussions. A detailed analysis of the family structure of the pastoralists (or Wodaabe) follows. The volume covers their organization into

lineage groups, their forms of marriage and of inheritance, the status and functions of leaders in the lineage group and the cattle camps, and the central place the herds occupy in the social structure. The volume covers the impact on the traditional structure and way of life of the British administration, in particular the effects of the introduction of village headships and of new methods of taxation. A concluding chapter describes current plans for improving the general economy of the pastoralists, by developing various modifications of their methods of agricultural and animal husbandry, and by establishing forms of settlement. *Anuario de estudios medievales* Elsevier

Ifriqiya: Trece siglos de arte y arquitectura en Túnez es un viaje a través de la historia de la arquitectura islámica del Magreb, para descubrir una civilización milenaria que convirtió en obras de arte sus espacios más importantes. Las grandes dinastías islámicas -abbasíes, aglabíes, fatimíes, ziríes, almohades, hafsíes, otomanos-, así como las escuelas y los movimientos religiosos islámicos dejaron la impronta de su expresión artística a lo largo de los siglos. El arte islámico de Túnez es una encrucijada de culturas y ha sido ampliamente influenciado por las costumbres artísticas locales, por los elementos arquitectónicos y decorativos andalusíes

y orientales, por tradiciones árabes, romanas y beréberes, y por la diversidad del paisaje natural. Once recorridos le invitan a descubrir 108 museos, monumentos y yacimientos en Túnez, Sidi Bou Said, Bizerta, Testur, El Kef, Kairuán, Mahdia, Sfax, Tozer y Gabes, entre otras localidades. Esta obra forma parte de la colección "El arte islámico en el Mediterráneo".  The Paper-making Machine: It's Invention, Evolution and Development covers the history of the paper-making machine and its origin and how it developed. This book is organized into 15 chapters, and starts with the discussion of the origin of the first paper-machine way back from A.D. 105 in China. The subsequent chapter deals with the

development of the paper-machine where the British improved the machine and were then widely used by people. This topic is followed by discussions on the progress of paper making in 1830-1835 where an advanced type of Fourdrinier machine was introduced by Matthew Towgood and Leapidge South. Other chapters describe further improvements on the Fourdrinier machines and the paper-makings on the late 1800's. The last chapter considers the standardization of the paper-making machine during 1870-1890. This book will be of value to machine inventors and those who work in printing presses.

This posthumous work of the renowned scholar Henri Pirenne (originally published in 1939) offered a new and decisive explanation of the evolution of Europe from the time of Constantine to that of Charlemagne. His revolutionary ideas overthrew many of the most cherished conceptions concerning the Middle Ages: namely that "the Germanic invasions destroyed neither the Mediterranean unity of the ancient world, nor the essential features of Roman culture" and that "the cause of the break with the tradition of antiquity was the advance of Islam..."
