**Hide and Sheep** Englewood Cliffs, N.J. : Prentice Hall

A 2019 Caldecott Honor Book What's in a name? For one little girl, her very long name tells the vibrant story of where she came from — and who she may one day be. If you ask her, Alma Sofia Esperanza José Pura Candela has way too many

names: six! How did such a small person wind up with such a large name? Alma turns to Daddy for an answer and learns of Sofia, the grandmother who loved books and flowers; Esperanza, the great-grandmother who longed to travel; José, the grandfather who was an artist; and other namesakes, too. As she hears the story of her name, Alma starts to think it might be a perfect fit after all — and realizes that she will one day have her own story to tell. In her author-illustrator debut, Juana Martinez-Neal opens a treasure box of discovery for children who may be curious about their own origin stories or names.

### BEEP 1 STUDENT'S BOOK PACK

Cambridge University Press

From the bestselling author of Blink and The Tipping Point, Malcolm Gladwell's Outliers: The Story of Success overturns conventional wisdom about genius to show us what makes an ordinary person an extreme overachiever. Why do some people achieve so much more than others? Can they lie so far out of the ordinary? In this provocative and inspiring book, Malcolm Gladwell looks at everyone from rock stars to professional athletes, software billionaires to

scientific geniuses, to show that the story of success is far more surprising, and far more fascinating, than we could ever have imagined. He reveals that it's as much about where we're from and what we do, as who we are - and that no one, not even a genius, ever makes it alone. Outliers will change the way you think about your own life story, and about what makes us all unique. 'Gladwell is not only a brilliant storyteller; he can see what those stories tell us, the lessons they contain' Guardian 'Malcolm Gladwell is a global phenomenon ... he has a genius for making everything he writes seem like an impossible adventure' Observer 'He is the best kind of writer - the kind who makes you feel like you're a genius, rather than he's a genius' The Times

*Thyssen-Bornemisza Art Contemporary*  
Cambridge University Press

A massive anthology of texts, visual material, and research on TBA21's commissions and the foundation's vast collection of over 700 artworks. "What survives after the artwork?" asks curator and researcher Natasha Ginwala in one of the essays in *Thyssen-Bornemisza Art Contemporary: The Commissions Book*, a new and comprehensive publication by the art foundation Thyssen-Bornemisza Art Contemporary (TBA21), founded by Francesca Thyssen-Bornemisza in Vienna, Austria, in 2002. "The artwork is not just the thing in itself, but also the metaphysical infrastructure and unfinished relationships that produce it," Ginwala writes. In that sense, this

anthology of texts, visual material, and research on TBA21's commissions and the foundation's vast collection of over 700 artworks serves as vivid testimony to the processes and relationships that enabled them. In over 1,300 pages The Commissions Book engages with more than 100 works of art, proposing a speculative topography that organizes and weaves together sequences of potential narratives and interrogations along with close examinations of different works of art and a collective archive of images. The stories embedded in these works, as well as in TBA21 and TBA21-Academy's practice--an itinerant site of transdisciplinary research and cultural production engaging with the oceans--is a story of making new connections, or rather

creating interconnections. Bringing together visual and written material from TBA21's commissioning practice and vast history of exhibitions and live events, The Commissions Book also goes beyond the foundation's archives to present new works and commissions by Cecilia Bengolea, Claudia Comte, SUPERFLEX, and Territorial Agency, amongst many others. New essays by Natasha Ginwala's and such transdisciplinary feminist thinkers as Astrida Neimanis and Eva Hayward transcend individual artistic positions and ask questions that lie at the core of TBA21's program.

Coding as a Playground, Second Edition focuses on how young children (aged 7

and under) can engage in computational thinking and be taught to become computer programmers, a process that can increase both their cognitive and social-emotional skills. Learn how coding can engage children as producers—and not merely consumers—of technology in a playful way. You will come away from this groundbreaking work with an understanding of how coding promotes developmentally appropriate experiences such as problem-solving, imagination, cognitive challenges, social

interactions, motor skills development, emotional exploration, and making different choices. Featuring all-new case studies, vignettes, and projects, as well as an expanded focus on teaching coding as a new literacy, this second edition helps you learn how to integrate coding into different curricular areas to promote literacy, math, science, engineering, and the arts through a project-based approach and a positive attitude to learning.
