Modern

Students—which is now revised and updated—and Modern Hebrew for Beginners are the core of a multimedia program for the college-level Hebrew classroom developed at the University of Texas at Austin in the

early 2000s. Within an intensive framework of instruction that assumes six weekly hours in the classroom, the program provides for two semesters of instruction, at the end of which most successful students will reach the intermediate-mid or intermediate-high levels of proficiency in speaking and reading, and some will reach advanced-low proficiency, as defined by the American Council on the

Teaching of Foreign Languages (ACTFL). In addition to a variety of written exercises, the workbook includes vocabulary lists, reading selections, discussions of cultural topics, illustrations of grammar points, notes on registers, suggestions for class and individual activities, and glossaries. The workbook is complemented by a website (<http://www.laits.utexas.edu/hebrew>) that provides short

video segments originally scripted and filmed in Israel and the United States, vocabulary flashcards with sound, interactive exercises on topics included in the workbook, sound files parallel to the reading selections in the workbook, and additional materials that enhance the learning experience. The stability of the workbook, combined with the dynamic nature of the website and the internet

searches the students are directed to conduct, allows language instructors to reshape the curriculum and adapt it to the needs of their students and the goals of their programs.

Teach Yourself Like several other Asian countries, Malaysia uses English for a variety of official, professional

and everyday purposes.

Many Malaysians use English alongside their first language, typically Malay, Chinese or Tamil, but have a particular need for English if they are to succeed in their careers. What is special about this book is that it looks under the surface of the use of English, and shows how the teaching of English is tailored to bring this language

situation about, by applying recent developments in the study of English and of English Language Teaching. It deals with questions such as the use of corpora in language teaching, and investigates some of the obstacles young Malaysians face in acquiring the necessary command of English. Issues investigated include the link between lack of proficiency and lack of

motivation, the effect of examinations and the 'washback' effect, and the problems of academic writing. Other chapters deal with English in the workplace, including doctor-patient communication, the communication challenges facing tour guides, and gender-based differences in the learning of computer skills. The book will be of great value to anyone professionally involved with global English, 'glocalisation'

or language contact, including teachers, publishers and language planners, especially those concerned with the use of global English in Asia.

This diverse anthology of traditional tales from across the Indonesian archipelago includes short stories, origin myths, historical legends, poetry, diary entries, news reports and dialogues. Each of the 20 stories is presented in parallel English and Indonesian versions on facing pages, making this a great resource for intermediate language learners. Although written in the

Indonesian national language, the stories hail from many different ethnic cultures and include a number of female characters who reveal the challenges faced by women in Indonesian society. In adopting this approach, the authors make the stories relevant and engaging for students, as well as provide fascinating windows onto the regional cultures found among these

islands. The stories in this volume include: "Forbidden Love"—A story from West Kalimantan that tells of the tragic love between two first cousins who had to pay a hefty price for their love "Freshwater Dolphins of the Mahakam River"—A story in the form of blog reports from Borneo telling the legend of the freshwater dolphins in the Mahakam River and the challenges faced by the peoples of

East Kalimantan "Pitung, the Hero of Batavia"—A story from Jakarta in which a Robin Hood-like figure who stole from the rich to pay the poor, played a heroic role in defending the poor against foreign-run gangs in colonial times. And many more! Authors Katherine Davidsen and Yusep Cuandani are experienced language teachers who use these texts in their high school classes at international schools in Jakarta to fulfill the requirements for International Baccalaureate and Cambridge IGCSE curriculum courses in Indonesian language and culture. The stories are graded in terms of difficulty. Each one is accompanied by a set of discussion questions, a detailed vocabulary list, cultural notes keyed to the text and online native-speaker audio recordings. An extensive Indonesian-English glossary is provided at the back of the book. Complete Malay Teach Yourself Cekidot, gan!—"Check it out Boss!" Kamu Dodol—"You're a coconut fudge!" (You're slow on the uptake) This book is an informal compendium of Indonesian expressions, including proverbs, slang, quotations and acronyms. The unique

aspects of the Indonesian language offer one of the best windows into Indonesian culture. Slang, titles, proverbs, nicknames, acronyms, quotations and other expressions reveal its character, in the words of its people and are a great way to learn Indonesian culture. This book of expressions looks at Indonesia with the help of its national language, bahasa Indonesia. It

describes Indonesians and their fears, beliefs, history and politics, as well as how they live, fight, grieve and laugh. Indonesian is a variant of Malay, the national language of Malaysia, and many of its expressions come from the Malay heartland of Sumatra island. Indonesian has also incorporated terms from Javanese, the language of the dominant ethnic group in a huge

nation of more than 17,000 islands. Although Indonesian is officially a young language, it contains words from Sanskrit, Arabic, Chinese, Dutch, Portuguese and English, a legacy of the merchants, warriors, laborers and holy men who traveled to the archipelago over the centuries. The Indonesian language was a nationalist symbol during the campaign against Dutch rule in the

20th century. Indonesians who fought against colonialism made it the national language in their constitution when they declared independence in 1945. Two generations later, modern Indonesians love word play. The tongue slips and skids, chopping words, piling on syllables and flipping them. Indonesians turn phrases into acronyms, and construct double

meanings. Their inventions reflect social trends, mock authority, or get a point across in a hurry. This book divides Indonesian expressions into categories such as food and wisdom, politics and personalities. The format is the same in each chapter. An expression in Indonesian, or sometimes a regional language in Indonesia, is followed by a translation, an interpretation of the meaning, and

usually a summary of the idiom's origin or background. Some translations are more literal than others, reflecting an effort to balance clarity of meaning with the flavor of the original words.

Malay Рипол
Классик
The Malay Sentence Builders is a workbook aimed at beginner to pre-intermediate students co-authored by three modern languages educators with

over 70 years of extensive classroom experience between them, in the UK, Australia and internationally. This 'no-frills' book contains 19 units of work on very popular themes, jam-packed with graded vocabulary-building, reading, translation, retrieval practice and writing activities. Key vocabulary, lexical patterns and structures are recycled and interleaved throughout.

Each unit includes: - a sentence builder modelling the target constructions; - a set of vocabulary building activities; - a set of narrow reading texts exploited through a range of tasks focusing on both the meaning and structural levels of the text; - a set of retrieval-practice translation tasks; - a set of writing tasks targeting essential micro-skills such as

spelling, lexical retrieval, syntax, editing and communication of meaning. Based on the E.P.I. principle that learners learn best from comprehensible and highly patterned input flooded with the target linguistic features, the authors have carefully designed each and every text and activity to enable the student to process and produce each item many times over. This occurs

throughout each unit of work as well as in smaller grammar, vocabulary and question-skills micro-units located at regular intervals in the book, which aim at reinforcing the understanding and retention of the target grammar, vocabulary and question patterns.

Then this book is exactly what you are looking for. Following the Pareto principle</p>	<p>(80/20 rule), this book is built to streamline the learning process by concentrating on the core words and sentence structures that make up everyday conversations. The result is a unique vocabulary book with 2000 of the most important Malay words and phrases ordered by their frequency of use. Who this Malay learning book is for: This book is for beginners and</p>	<p>intermediate learners of Malay who are self-motivated and willing to spend 15 to 20 minutes a day on learning vocabularies. The simple structure of this vocabulary book is the result of taking all unnecessary things out allowing the learning effort to solely be spent on the parts that help you make the biggest progress in the shortest amount of time. If you are willing to put in 20</p>
---	--	---

minutes of learning every day, this book is very likely the single best investment you can make if you are at a beginner or intermediate level. You will be amazed at the speed of progress within a matter of just weeks of daily practice. Who this Malay frequency list is not for: This book is not for you if you are an advanced learner of Malay. In this case, please go to our website or search for our Malay vocabulary

book which comes with more vocabularies and is grouped by topic which is ideal for advanced learners who want to improve their language capabilities in certain fields. Furthermore, if you are looking for an all in one Malay learning book that guides you through the various steps of learning Malay, this book is most likely also not what you are looking for. This book contains

vocabularies only and we expect buyers to learn things like grammar and pronunciation either from other sources or through language courses. The strength of this book is its focus on quick acquisition of core vocabularies which comes at the expense of information many people might expect in a conventional language learning book. Please be aware of this when making the purchase.

How to use this Malay workbook: This book is ideally used on a daily basis, reviewing a set number of pages in each session. The book is split into sections of 50 vocabularies which allows you to step by step progress through the book. Let's for example say you are currently reviewing vocabularies 101 to 200. Once you know vocabularies 101 to 150

very well, you can start learning vocabularies 201 to 250 and on the next day skip 101-150 and continue reviewing vocabularies 151 to 250. This way, step by step, you will work your way through the book and your language skills will jump with each page you master. Some final thoughts: Like many language hacking methods, this book is quite unconventional

in its approach, but for a driven person that uses it correctly it can significantly speed up the learning process. Vocabulary books have been around for centuries and as with so many things that have been around for some time, they are not very fashionable and a bit boring, but they usually work quite well - and that is what counts in the end.
