BALLARD ANTWAN

Black Tulip Casemate

For four hundred years--from the first Spanish assaults against the Arawak people of Hispaniola in the 1490s to the U.S. Army's massacre of Sioux Indians at Wounded Knee in the 1890s--the indigenous inhabitants of North and South America endured an unending firestorm of violence. During that time the native population of the Western Hemisphere declined by as many as 100 million people. Indeed, as historian David E. Stannard argues in this stunning new book, the European and white American destruction of the native peoples of the Americas was the most massive act of genocide in the history of the world. Stannard begins with a portrait of the enormous richness and diversity of life in the Americas prior to Columbus's fateful voyage in 1492. He then follows the path of genocide from the Indies to Mexico and Central and South America, then north to Florida, Virginia,

and New England, and finally out across the Great Plains and Southwest to California and the North Pacific Coast. Stannard reveals that wherever Europeans or white Americans went, the native people were caught between imported plagues and barbarous atrocities, typically resulting in the annihilation of 95 percent of their populations. What kind of people, he asks, do such horrendous things to others? His highly provocative answer: Christians. Digging deeply into ancient European and Christian attitudes toward sex, race, and war, he finds the cultural ground well prepared by the end of the Middle Ages for the centuries-long genocide campaign that Europeans and their descendants launched--and in places continue to wage--against the New World's original inhabitants. Advancing a thesis that is sure to create much controversy, Stannard contends that the perpetrators of the American Holocaust drew on the same ideological wellspring as did the later architects of the Nazi Holocaust. It is an ideology that remains dangerously alive today, he adds, and one that in recent years has surfaced in American

justifications for large-scale military intervention in Southeast Asia and the Middle East. At once sweeping in scope and meticulously detailed, *American Holocaust* is a work of impassioned scholarship that is certain to ignite intense historical and moral debate.

L'ANTIQUITÉ EXPLIQUÉE. ET REPRÉSENTÉE EN FIGURES. Vault Comics

"Bradley is sharp and rueful, and a voice for a more seasoned, constructive vision of our international relations with East Asia." -- Christian Science Monitor James Bradley introduces us to the prominent Americans--including FDR's grandfather, Warren Delano--who in the 1800s made their fortunes in the China opium trade. Meanwhile, American missionaries sought a myth: noble Chinese peasants eager to Westernize. The media propagated this mirage, and FDR believed that supporting Chiang Kai-shek would make China America's best friend in Asia. But Chiang was on his way out and when Mao Zedong instead came to power, Americans were shocked, wondering how we had "lost China." From the 1850s to the origins of the Vietnam War, Bradley reveals how American misconceptions about China have distorted our policies and led to the avoidable deaths of millions. The *China Mirage* dynamically explores the troubled history that still defines U.S.-Chinese relations today.

Early Greek Alchemy, Patronage and Innovation in Late Antiquity provides an example of the innovative power of ancient scholarly patronage by looking at a key moment in the creation of the Greek alchemical tradition. New evidence on scholarly patronage under the Roman empire can be garnered by analyzing the descriptions of learned magoi in several texts from the second to the fourth century CE. Since a common use of the term magos connoted flatterer-like figures (kolakes), it is likely that the figures of "learned sorcerers" found in texts such as Lucian's *Philopseudes* and the apocryphal Acts of Peter captured the notion that some client scholars exerted undue influence over patrons. The first known author of alchemical commentaries, Zosimus of Panopolis (c. 300 CE), presented himself neither as a magos nor as an alchemist. In his treatises, he rather appears as a Christian scholar and the client of a rich woman named Theosebeia. In three polemical letters to his patroness, Zosimus attempted to discredit rival specialists of alchemy by describing them as magoi and demon-worshippers and by equating their techniques with Egyptian temple practice. In a subtler attempt to edge out his competitors, Zosimus pointed to their limited

education and suggested that true alchemy could only be acquired by a meticulous interpretation of Greek alchemical texts. Extant evidence thus suggests that alchemical texts were first introduced among other Greek scholarly traditions when Zosimus annexed Egyptian temple rituals into the ambit of paideia thanks to the support and venue provided by his patroness.

ENCYCLOPÉDIE MÉTHODIQUE. THÉOLOGIE. Saint-Paul
Quatrième volume de notre célèbre série d'érotic-fantasy dans laquelle on retrouve les mêmes créatures aux courbes voluptueuses, farouchement charnelles et indépendantes. Des femmes de caractère, sursexuées et qui n'ont aucun complexe à faire étalage de leurs charmes, sans pour autant être dupes de la veulerie masculine. Un mélange savamment dosé de sexe, de contes populaires et d'intrigues rocambolesques propres aux romans moyenâgeux sous la forme d'historiettes des plus jouissantes. À mi-chemin entre le fantastique et l'héroïc-fantasy, les histoires d'Erich Hartmann réjouiront les amateurs de bandes dessinées adultes et de ce genre littéraire. Son trait nous accompagne au fil des péripéties et atteint des merveilles de réalisme s'affirmant en égal des grands maîtres de l'érotisme.

The Ruin of the Roman Empire Routledge

This myth-busting military biography reveals the true story of the legendary WWII German flying ace—and how his story was manipulated during the Cold War. Over the course of 1,404 wartime missions, Luftwaffe fighter pilot Erich Hartmann claimed a staggering 352 airborne kills. His storied career contains all the dramas you would expect: frostbitten fighter sweeps over the Eastern Front, drunken forays to Hitler's Eagle's Nest, a decade of imprisonment in the wretched Soviet POW camps, and further military service during the Cold War. Then, just as Hartmann's career was faltering, he was adopted by a network of writers and commentators deeply invested in his reputation. These men, mostly Americans, published celebratory stories about Hartmann and his elite fraternity of Luftwaffe pilots. With each dogfight tale put into print, Hartmann's legacy became loftier and more secure, and his complicated service in support of Nazism faded away. Black Tulip digs beneath this one-dimensional account of Hartmann's life, revealing a man who was neither a full-blown Nazi nor an impeccable knight.

This study sheds new light on identity formation and maintenance in the world of the early Christians by drawing on neglected archaeological and epigraphic evidence concerning associations and immigrant groups and by incorporating insights from the social sciences. The study's unique contribution relates, in part, to its interdisciplinary character, standing at the intersection of Christian Origins, Jewish Studies, Classical Studies, and the Social Sciences. It also breaks new ground in its thoroughly comparative framework, giving the Greek and Roman evidence its due, not as mere background but as an integral factor in understanding dynamics of identity among early Christians. This makes the work particularly well suited as a text for courses that aim to understand early Christian groups and literature, including the New Testament, in relation to their Greek, Roman, and Judean contexts. Inscriptions pertaining to associations provide a new angle of vision on the ways in which members in Christian congregations and Jewish synagogues experienced belonging and expressed their identities within the Greco-Roman world. The many other groups of immigrants throughout the cities of the empire provide a particularly appropriate framework for understanding both synagogues of Judeans and groups of Jesus-followers as minority cultural groups in these same contexts. Moreover, there were both shared means of expressing identity (including fictive familial metaphors) and peculiarities in the case of both Jews and Christians as minority

cultural groups, who (like other "foreigners") were sometimes characterized as dangerous, alien "anti-associations". By paying close attention to dynamics of identity and belonging within associations and cultural minority groups, we can gain new insights into Pauline, Johannine, and other early Christian communities.

One of the most important texts of modern times, Herbert Marcuse's analysis and image of a one-dimensional man in a one-dimensional society has shaped many young radicals' way of seeing and experiencing life. Published in 1964, it fast became an ideological bible for the emergent New Left. As Douglas Kellner notes in his introduction, Marcuse's greatest work was a 'damning indictment of contemporary Western societies, capitalist and communist.' Yet it also expressed the hopes of a radical philosopher that human freedom and happiness could be greatly expanded beyond the regimented thought and behaviour prevalent in established society. For those who held the reigns of power Marcuse's call to arms threatened civilization to its very core. For many others however, it represented a freedom hitherto unimaginable.
