What Is Instructional Writing? CICO Books

"Rubber band jewellery is a relative newcomer to the crafts world, and is about to make a big splash in the UK market, although it has been massive in the US for some time. Many items can be made just using a crochet hook; other more complex items are made using a special loom, which is very widely available from outlets such as Amazon, Argos and Toys R Us, for about 15. The most popular loom is the Rainbow Loom, but other makes, such as Cra-Z-Loom and Fun Loom are also available. Bags of very brightly coloured rubber bands are also easily available, together with plastic connecting clips, charms and other embellishments. In the book, there will be 20 pieces of rubber band jewellery -- 10 made using just a crochet hook-like tool, and 20 using the loom -- including bracelets, earrings, necklaces, rings, bag charms and hand/foot accessories. Each project is accompanied by a beautiful full-colour photograph of the finished piece, clear step-by-step instructions, a list of the materials and tools needed. Two versions of each project are included, each made by following the same step-by-step instructions but by varying the colours of the rubber bands.

LEGO Guns is packed with building instructions for five impressive looking "weapons" built entirely from LEGO TECHNIC parts. In this heavily illustrated 2-color book, you learn how to use LEGO TECHNIC pieces to build working model guns like the Warbeast, a sophisticated, fully-automatic submachine gun; Parabella, a semi-automatic pistol; Thriller, a slide action crossbow pistol with smooth cocking and chambering mechanisms; and the Magic Moth, a simple butterfly "knife" built with TECHNIC pieces. With the help of a bit of sanding, some rubber bands, and Crazy Glue, each gun actually shoots LEGO

bricks at high speed, with surprising accuracy. The building instructions for each model are easy to follow and include detailed parts lists. LEGO Guns also includes sections discussing the general concepts of LEGO gun design and offers practical building tips and tricks. The models range from sophisticated to easy, and readers of all ages will find something enjoyable to build and play with.

Combining fun and interactive activities, this guide will have kids captivated for hours constructing fantastic racing cars with the basics of only rubber bands, cardboard, and glue. These simple instructions with templates allow budding engineers to gain hands-on experience as they learn not only how to build a basic racer, but how to make modifications such as aluminum foil axle bearings, steering mechanisms, hinges, cam shafts, and wheels made out of old CDs. This helpful resource has step-by-step instructions for making a basic rubber-band model, a railroad push-car, and a high-speed racer. Other unique projects include Oscar the Laughing Clown, which has a jaw mechanism that opens and closes when it moves, and Spot the Dog, which has a moving tail. Children can even learn how to build a rubber band car big enough for a human. Exploring wheels, bearings, and friction, kids will learn not only how to make speedy racers but also the science that makes the process work.
