The Seven Principles for Making Marriage Work Small Talk Big Results
NEW YORK TIMES BESTSELLER • Over a million copies sold! “An eminently practical guide to an emotionally intelligent—and long-lasting—marriage.”—Daniel Goleman, author of Emotional Intelligence
The Seven Principles for Making Marriage Work has revolutionized the way we understand, repair, and strengthen marriages. John Gottman’s unprecedented study of couples over a period of years has allowed him to observe the habits that can make—and break—a marriage. Here is the culmination of that work: the seven principles that guide couples on a path toward a harmonious and long-lasting relationship. Straightforward yet profound, these principles teach partners new approaches for resolving conflicts, creating new common ground, and achieving greater levels of intimacy. Gottman offers strategies and resources to help couples collaborate more effectively to resolve any problem, whether dealing with issues related to sex, money, religion, work, family, or anything else. Packed with new exercises and the latest research out of the esteemed Gottman Institute, this revised edition of The Seven Principles for Making Marriage Work is the definitive guide for anyone who wants their relationship to attain its highest potential.

Couples That Work Harmony

Am I with the right person? Will our love last? Men and women in love are haunted by these questions. Love -- especially why it blossoms in relationships and why it later dies -- is a mystery to them. Will Our Love Last? A Couple's Road Map solves this mystery by giving readers a new understanding of love -- an understanding they can actually use to evaluate the soundness of their relationships and to answer confidently the crucial questions that mystified them before. Based on hundreds of cases in his twenty-four years as a marital therapist and twenty-nine years in his own happy marriage, Sam R. Hamburg, Ph.D., explains how compatibility is the key to lasting love. He shows how compatibility on three major dimensions -- the Practical Dimension, the Sexual Dimension, and the Wavelength Dimension -- is essential to the mutual understanding and affirmation that keep love alive, and he leads readers through a simple but systematic procedure for assessing their compatibility with a romantic partner in these crucial relationship areas. Dr. Hamburg introduces a new technique, The Hand Rotation Exercise, to help readers express their degree of compatibility and then convey that visually to their partner. In addition, he presents two new original techniques for working through relationship conflicts and coming to agreement on difficult issues: His Way/Her Way and The Long Conversation. Written in a clear, direct style that is free of jargon, Will Our Love Last? empowers readers to make important relationship decisions that are intellectually and emotionally informed. Will Our Love Last? will help couples trying to decide if they should take the next step to a more committed relationship. It will aid individuals embarking on a new relationship, or who are between relationships, to evaluate the rightness of a new or prospective partner. And it will assist people who are already in committed relationships to make an honest assessment of their prospects for happiness with their current partner. People have it in their power to make sure that they truly are with the right person. Will Our Love Last? shows the way.

10 Principles for Doing Effective Couples Therapy (Norton Series on Interpersonal Neurobiology)
Harvard Business Press

AVOID THE JERKS AND FIND “THE ONE” WHO’S RIGHT FOR YOU “An insightful and creative contribution to managing the complexity of choosing a life partner. I heartily recommend it.” -- Harville Hendrix, Ph.D., author of Getting the Love You Want and Keeping the Love You Find “Don’t be part of the ‘where-was-this-book-when-I-needed-it?’ crowd. It’s not too late--read it now!” --Pat Love, Ed.D., author of The Truth About Love and Hot Monogamy Based on years of research on marital and premarital happiness, How to Avoid Falling in Love with a Jerk (previously published in

hardcover as How to Avoid Marrying a Jerk) will help you break destructive dating patterns that have kept you from finding the love you deserve: Ask the right questions to inspire meaningful, revealing conversations with your partner Judge character based on compatibility, relationships skills, friends, and patterns from family and previous relationships Resolve your own emotional baggage so you’re ready for a healthy relationship

The Love Prescription Simon and Schuster

“One of the foremost relationship experts at work today applies the insights of science toward understanding the real meaning of trust between a couple. He decodes the “why” behind betrayal and shows how partners can avoid or recover from unfaithfulness and maintain a loving relationship.Dr. John Gottman, the country’s pre-eminent researcher on marriage, is famous for his Love Lab at the University of Washington in Seattle where he deciphers the mysteries of human relationships through scientific research. His thirty-five years of exploration have earned him numerous major awards, including from the National Institute of Mental Health, the American Psychological Association, and the American Association for Marriage and Family Therapy. Now, Dr. Gottman offers surprising findings and advice on the characteristic that is at the heart of all relationships: Trust. Dr. Gottman has developed a formula that precisely calculates any couple’s loyalty level. The results determine a relationship’s likely future, including the potential for one or both partners to stray. A Love You Can Trust shows couples how to bolster their trust level and avoid what Dr. Gottman calls the “Roach Motel for Lovers.” He describes how the outcome of-- “sliding door moments,” small pivotal points between a couple, can lead either to more emotional connection or to discontent. He suggests a new approach to handling adultery and reveals the varied and unexpected non-sexual ways that couples often betray each other. A Love You Can Trust guides couples through an empirically tested, trust-building program that will let them repair and maintain a long-term, intimate, and romantic relationship”--

Principia Amoris Bloomsbury Publishing USA

Stereotypically, science and emotion are diametric opposites: one is cold and unfeeling, the other soft and nebulous; one is based on proven facts while the other is based on inexplicable feelings and “never the twain shall meet,” until now. John Gottman delves into the unquantifiable realm of love, armed with science and logic, and emerges with the knowledge that relationships can be not only understood, but also predicted as well. Based on research done at his Love Lab and other laboratories, Gottman has discovered that the future of love relationships can be predicted with a startling 91% success rate. These predictions can help couples to prevent disasters in their relationships, recognize the signs of a promising relationship, and perhaps more importantly, recognize the signs of a doomed one. Principia Amoris also introduces Love Equations, a mathematical modeling of relationships that helps understand predictions. Love Equations are powerful tools that can prevent relationship distress and heal ailing relationships. Readers learn about the various research and studies that were done to discover the science behind love, and are treated to a history of the people, ideas, and events that shaped our current understanding. They also learn about: • The “Four Horsemen of the Apocalypse” • 45 natural principles of love • 5 couple types • 5 recipes for good relationships • And much more! Just as science helped us to understand the physical world, it is helping us to understand the emotional world as well. Using the insights in this book, mental health professionals can meaningfully help their distressed clients, as well as better understand why a relationship is failing or succeeding. Appropriate for the curious non-mental health professional as well, Principia Amoris is a must-have on any bookshelf!

DATING AND MATING IN A TECHNO-DRIVEN WORLD Workman Publishing

An eminent therapist explains what makes couples compatible and how to sustain a happy marriage. For the past thirty-five years, John Gottman’s research has been internationally recognized for its unprecedented ability to precisely measure interactive processes in couples and to predict the long-term success or failure of relationships. In this groundbreaking book, he presents a new approach to understanding and changing couples: a fundamental social skill called

“emotional attunement,” which describes a couple’s ability to fully process and move on from negative emotional events, ultimately creating a stronger relationship. Gottman draws from this longitudinal research and theory to show how emotional attunement can prevent negative affect, help couples focus on positive traits and memories, and even help prevent domestic violence. He offers a detailed intervention devised to cultivate attunement, thereby helping couples connect, respect, and show affection. Emotional attunement is extended to tackle the subjects of flooding, the story we tell ourselves about our relationship, conflict, personality, changing relationships, and gender. Gottman also explains how to create emotional attunement when it is missing, to lay a foundation that will carry the relationship through difficult times. Gottman encourages couples to cultivate attunement through awareness, tolerance, understanding, non-defensive listening, and empathy. These qualities, he argues, inspire confidence in couples, and the sense that despite the inevitable struggles, the relationship is enduring and resilient. This book, an essential follow-up to his 1999 The Marriage Clinic, offers therapists, students, and researchers detailed intervention for working with couples, and offers couples a roadmap to a stronger future together.

Why Marriages Succeed or Fail Simon and Schuster

INSTANT NEW YORK TIMES BESTSELLER “This book feels so hopeful because it’s direct, it’s really honest, and it’s so actionable.” —Brene Brown From New York Times–bestselling authors Dr. John Gottman and Dr. Julie Schwartz Gottman, a simple yet powerful plan to transform your relationship in seven days What makes love last? Why does one couple stay together forever, while another falls apart? And most importantly, is there a scientific formula for love? Drs. John Gottman and Julie Schwartz Gottman are the world’s leading relationship scientists. For the past forty years, they have been studying love. They’ve gathered data on over three thousand couples, looking at everything from their body language to the way they converse to their stress hormone levels. Their goal: to identify the building blocks of love. The Love Prescription distills their life’s work into a bite-size, seven-day action plan with easy, immediately actionable steps. There will be no grand gestures and no big, hard conversations. There’s nothing to buy or do to prepare. Anyone can do this, from any starting point. The seven-day prescription will lead you through these exercises: Day 1: Make Contact Day 2: Ask a Big Question Day 3: Say Thank You Day 4: Give a Real Compliment Day 5: Ask for What You Need Day 6: Reach Out and Touch Day 7: Declare a Date Night There is a formula for a good relationship, and this book will show you how a few small changes can fundamentally transform your relationship for the better.

Love Cycles, Fear Cycles AuthorHouse

Psychologist John Gottman has spent twenty years studying what makes a marriage last. Now you can use his tested methods to evaluate, strengthen, and maintain your own long-term relationship. This breakthrough book guides you through a series of self-tests designed to help you determine what kind of marriage you have, where your strengths and weaknesses are, and what specific actions you can take to help your marriage. You'll also learn that more sex doesn't necessarily improve a marriage, frequent arguing will not lead to divorce, financial problems do not always spell trouble in a relationship, wives who make sour facial expressions when their husbands talk are likely to be separated within four years and there is a reason husbands withdraw from arguments—and there's a way around it. Dr. Gottman teaches you how to recognize attitudes that doom a marriage—contempt, criticism, defensiveness, and stonewalling—and provides practical exercises, quizzes, tips, and techniques that will help you understand and make the most of your relationship. You can avoid patterns that lead to divorce, and—Why Marriages Succeed or Fail will show you how.

The Seven Principles for Making Marriage Work QuickRead.com

"What the heck is my partner thinking?" is a common refrain in romantic relationships, and with good reason. Every person is wired for love differently, with different habits, needs, and reactions to conflict. The good news is that most people's minds work in predictable ways and respond well

to security, attachment, and rituals, making it possible to actually neurologically prime the brain for greater love and fewer conflicts. *Wired for Love* is a complete insider's guide to understanding a partner's brain and promoting love and trust within a romantic relationship. Readers learn ten scientific principles they can use to avoid triggering fear and panic in their partners, manage their partners' emotional reactions when they do become upset, and recognize when the brain's threat response is hindering their ability to act in a loving way. By learning to use simple gestures and words, readers can learn to put out emotional fires and help their partners feel more safe and secure. The no-fault view of conflict in this book encourages readers to move past a "warring brain" mentality and toward a more cooperative "loving brain" understanding of the relationship. Based in the sound science of neurobiology, attachment theory, and emotion regulation research, this book is essential reading for couples and others interested in understanding the complex dynamics at work behind love and trust in intimate relationships. *The Science of Trust: Emotional Attunement for Couples* John Wiley & Sons

Love Cycles, Fear Cycles teaches readers the most important idea in all of couples therapy. This idea gives readers a new understanding of what's been going wrong in their marriage – and a new way to make things right. The key idea is changing a couple's negative cycle back into their positive cycle. Most relationships start in a positive cycle, where both people feel wonderful and respond lovingly. There are four words that describe each couple's positive cycle – one for each person's good feeling, and one for each person's loving response. However, as challenges arise, people instinctively respond with some type of fight or flight. Over time, these responses spiral together into a negative cycle where each person feels bad and responds defensively. There are four words for each couple's negative cycle – one for each person's worst feeling, and one for each person's defensive reaction. Many couples get trapped in their negative cycle and their relationship spirals deeper into hurt and loneliness. To have a good marriage, a couple needs to find a way out of their negative cycle and back into their positive cycle. *Love Cycles, Fear Cycles* teaches readers how to do that. From his decades as a couples therapist, Dr. Woodsfellow has distilled this one most-essential component of all successful marriage counseling. He now presents this to the general public in a way that is easy to understand and easy to use.

Will Our Love Last? Adidas Wilson

John and Julie Gottman, world-renowned for bringing an evidence base to couples therapy, report here the results of a second empirical revolution in understanding couples and families. This change is not based on their guesswork, but on state-of-the-art science. The book you hold in your hands finally completes the old general systems theory of the 1960s, which metaphorically described processes but did not actually research them. A new general systems theory and therapy is presented here, one which will have profound implications for powerful clinical work with both couples and families. This new theory is based on 45 years of careful basic scientific research with thousands of couples and families, including synchronized observational, interview, physiological, and questionnaire data. The Gottmans have studied some families for as long as 20 consecutive years. Their work has led to their highly replicated ability to precisely predict the future of relationships, relationship happiness, and whether couples will divorce or not with as much as 94% accuracy. Their empirical work has also led them to develop and test a theory of specifically what makes relationships work. Each construct in this theory is precise and measurable and it is all written about and described here. This book presents an original new way of understanding relationships and families. Both theoretical and highly practical, and it will help clinicians become more effective in their everyday work.

Marriage Clinic New Harbinger Publications

Surveys show that only 10% of all marriages are truly happy. The simple truth is the absence of grace leaves a gaping hole in the husband-wife relationship. An instant classic, *Grace Filled Marriage* shows grace to be the missing piece-and the only place to start building a happy marriage.

The Science of Couples and Family Therapy: Behind the Scenes at the "Love Lab" Penguin

Results from world-renowned relationship expert John Gottman's famous Love Lab have proven an incredible truth: Men make or break relationships. Based on 40 years of research, *The Man's Guide to Women* unlocks the mystery of how to attract, satisfy, and succeed with a woman for a lifetime. For the first time ever, there is a science-based answer to the age-old question: What do women really want in a man? Dr. Gottman, author of the New York Times bestseller *The Seven Principles for Making Marriage Work*, and his wife and collaborator, clinical psychologist Julie Schwartz Gottman, PhD, have pored over the research along with bestselling coauthors Douglas Abrams and Rachel Carlton Abrams, MD. Together, they have written this definitive guide for men, providing answers on everything from how to approach a woman and build a connection with her to how to truly satisfy her in bed and know when the relationship is on the right track. *The Man's Guide to Women* is a must-have playbook for how to play—and win—the game of love.

Wired for Love Routledge

I know of no better guide for couples who genuinely desire a maturing relationship.M. Scott Peck, author of *The Road Less Traveled* A remarkable bookthe most incisive and persuasive I have ever read on the knotty problems of marriage relationships. Ann Roberts, former president, Rockefeller Family Fund

The Relationship Cure Harmony

Based on data obtained from nearly 100,000 respondents, here is the ultimate resource for anyone who wants to learn the relationship-tested ways couples can achieve satisfaction and contentment in areas such as communication, sex, affection, and financial cooperation. What constitutes "normal" behavior among happy couples? What steps you should take if that "normal" is one you want to strive for? To help answer those questions, wellness entrepreneur Chrisanna Northrup teamed with two of America's top sociologists, Yale Ph.D. Pepper Schwartz and Harvard Ph.D. James Witte, to design a unique interactive survey that would draw feedback from around the world. What has resulted is the clearest picture yet of how well couples are communicating, romancing each other, satisfying each other in the bedroom, sharing financial responsibilities, and staying faithful – or not. Since the Normal Bar survey methodology sorts for age and gender, racial and geographic differences and sexual preferences, the authors are able to reveal , for example, what happens to passion as we grow older, which gender wants what when it comes to sex, the factors that spur marital combat, how kids figure in, how being gay or bisexual turns out to be both different and the same, and –regardless of background -- the tiny habits that drive partners absolutely batty. The book is dense with revelations, from the unexpected popularity of certain sexual positions, to the average number of times happy – and unhappy -- couples kiss, to the prevalence of lying, to the surprising loyalty most men and women feel for their partner (even when in a deteriorating relationship), to the vivid and idiosyncratic ways individuals of different ages, genders and nationalities describe their "ideal romantic evening." Much more than a peek behind the relationship curtain, *The Normal Bar* offers readers an array of prescriptive tools that will help them establish a "new normal." Mindful of what keeps couples stuck in ruts, the book's authors suggest practical and life-changing ways to break cycles of disappointment and frustration.

What Makes Love Last? BenBella Books

From the country's leading couple therapist duo, a practical guide to what makes it all work. In 10

Principles for Doing Effective Couples Therapy, two of the world's leading couple researchers and therapists give readers an inside tour of what goes on inside the consulting rooms of their practice. They have been doing couples work for decades and still find it challenging and full of learning experiences. This book distills the knowledge they've gained over their years of practice into ten principles at the core of good couples work. Each principle is illustrated with a clinically compiled case plus personal side-notes and storytelling. Topics addressed include: • You know that you need to "treat the relationship," but how are you supposed to get at something as elusive as "a relationship"? • How do you empathize with both clients if they have opposite points of view? Later on, if they end up separating does that mean you've failed? Are you only successful if you keep couples together? • Compared to an individual client, a relationship is an entirely different animal. What should you do first? What should you look for? What questions should you ask? If clients give different answers, who should you believe? • What are you supposed to do with all the emotional and personal history that your clients stir up in you? • How can you make your work research-based? No one who works with couples will want to be without the insight, guidance, and strategies offered in this book.

The Five Love Languages ACU Press

Jesus said, "Go and make disciples." So, what exactly are we doing? Western churches face a difficult future marked by numerical decline and evident signs of shrinking cultural influence. But *Discipleship in Community* wisely asks the church to go back to basics. What does it mean to follow Jesus? What does a life of discipleship look like? Trusted scholars Mark Powell, John Mark Hicks, and Greg McKinzie invite you to consider how good theology can lead to better, more intentional discipleship. In *Discipleship in Community* you will learn • how the language of Trinity matters to everyday disciples; • how God's plan and mission is unfolding and how, as disciples, we can participate in that mission; • how the Bible is more than a book of facts and how it guides us into a relationship with God; • how baptism and the Lord's Supper allow us to experience God's saving power; and • how local churches can encourage intentional discipleship.

Want more free books like this? Download our app for free at <https://www.QuickRead.com/App> and get access to hundreds of free book and audiobook summaries. The revolutionary guide for learning the seven principles for creating a happy marriage that will last a lifetime. Divorce statistics are higher than ever. 67 percent of first marriages will end in divorce within 40 years and half of those will occur within the first 7 years. The divorce rate is even higher for second marriages, so it makes sense for couples to put forth the effort into making their marriage work. But how can you ensure your marriage will go the distance? Throughout Dr. Gottman's Love Lab, Gottman revolutionized the study of marriage by using scientific procedures and observing the habits of married couples in detail over several years. His research methods revealed the key to happy marriages as well as the detriments that lead to divorce. The seven principles outline the path to success as well as tips for effective communication and agreeable compromise.

Blink Worthy Books

Making a marriage work can be a challenging journey, but it can also be one of the most fulfilling and rewarding experiences of your life.
