Aristotle Detective  
Mango Media Inc.  
A luminous, inventive,  
and deeply personal  
exploration of living in  
the liminal space

between Jewish and Arab, ancient and modern, by a gifted Palestinian writer. Chosen by The New York Times as one of the best books of 1988, Arabesques is a luminous novel that engages with history

and politics not as propaganda but as literature. That engagement begins with the language in which the book is written: Anton Shammas, from a Palestinian Christian family and raised in Israel, wrote in Hebrew, as no Arab novelist had before. The choice was provocative to both Arab and Jewish readers. *Arabesques* is divided into two sections: “The Tale” and “The Teller.” “The Tale” tells of several generations of family life in a rural village, of the interplay of past and present, of how memory intersects with history in a part of the world where different people have both lived together and struggled against each other for centuries. “The Teller”

is about the writer’s voyage out of that world to Paris and the United States, as he comes into his vocation as a writer, and raises questions about the authority of the storyteller and the nature of the self. Shammas’s tour de force is both a personal and a political narrative—a reinvention of the novel as a way of envisioning and responding to historical and cultural legacies and conflicts.

They say there have been eight worlds before ours. Eight times the people of this Earth, over vast millennia, built their civilizations. They reached heights we cannot even imagine now: they spoke to the stars, reshaped the creatures of the world, and mastered form and essence. They built cities and machines that have since crumbled to dust, leaving only their vast outlines and barest remnants. This is the Ninth World. The people of the prior worlds are gonescattered,

disappeared, or transcended. But their works remain, in the places and devices that still contain some germ of function. The ignorant call these magic, but the wise know that these are our legacy. They are our future. They are the... Two 416-page corebooks, two poster maps, a handsome and sturdy slipcase, a metal medallion, and additional play aids all for the price of the corebooks alone. Cambodia is home to an ancient city. For

over five centuries Angkor, ancient seat of the Buddhist god-kings, was the capital of the Khmer empire. Abandoned in the 15th century, this city was swallowed up by the jungle and almost forgotten until, four centuries later, it was uncovered by European explorers. This book traces the origins of these mysterious ruins and tells the story of their rediscovery through documentary photographs, maps and illustrations.

 Vigil in the Night represents something of an event for fans of A. J. Cronin. Here, published for the first time in book form, is his poignant and moving tale of two nurses"of Anne, who devoted herself to serving others, and of her younger sister, Lucy, who meant to get everything in life for herself. When Lucy's negligence causes the tragic death of a young patient, Anne takes the blame to protect her young sister"an act that threatens to

destroy the brilliant nursing career that lies before her. But then Anne meets an idealistic young surgeon who takes an interest in her, and although one of the oldest and most honored traditions of the medical profession is that the relationship between doctors and nurses remain strictly impersonal, doctors and nurses are, after all, human beings"and sometimes that tradition breaks down.

From the critically acclaimed author of the novel *The Good Brother* and memoir *My Father the Pornographer*, *Out of the Woods* is Chris Offutt's fiercely original short story collection the *New York Times* calls “a magical book”. Arriving seven years after Offutt's debut collection *Kentucky Straight*, *Out of the Woods* returns a masterly writer to the form which garnered

him not only critical praise but many prestigious awards. Offutt, who “draws landscape and constructs dialogue with the eyes and ears of a native son” (The Miami Herald), is on strong home turf here, capturing those who have left the Kentucky hills and long to return. These nine stories of gravediggers and drifters, gamblers and truck drivers a long way from home, are tales so full of hard edges they can't help but tell some hard truths.
