Making and Decorating Picture Frames Readers Digest

This New York Times bestselling book is filled with hundreds of fun, deceptively simple, budget-friendly ideas for sprucing up your home. With two home renovations under their (tool) belts and millions of hits per month on their blog YoungHouseLove.com, Sherry and John Petersik

are home-improvement enthusiasts primed to pass on a slew of projects, tricks, and techniques to do-it-yourselfers of all levels. Packed with 243 tips and ideas—both classic and unexpected—and more than 400 photographs and illustrations, this is a book that readers will return to again and again for the creative projects and easy-to-follow instructions in the relatable voice the Petersiks are known for. Learn to trick out a thrift-store mirror, spice up plain old roller shades, "hack" your Ikea table to create three distinct looks, and so much more.

Practical Book of Picture Framing

National Geographic Kids
This visually appealing book introduces readers with no previous

knowledge of the craft to simple techniques for creative home picture-framing. It shows how investing in a few essential hand tools and basic materials can save you hundreds of pounds on your framing costs, and help you create high-quality handmade gifts for family and friends. Step-by-step photos and easy-to-follow instructions - as well as useful 'insider tips' - reveal the secrets of DIY framing. Ten original projects include simple techniques to frame canvases and stretch canvas artworks, make standard frames and box frames using readily available timber, and even craft a 60-minute mirror frame from a plank of wood. You'll learn techniques for cutting mount-board and glass,

and discover the secrets of easy gilding, decoupage and copper embossing to decorate your frames. The Woodland Pie framing style is all about accessible creativity; making easy and appealing frames from basic materials and always using hand-painted or hand-made finishes. Find out how to create a lustrous, versatile, go-to paint effect for your picture frames using nothing other than household emulsion paint, water, and wire wool! This brilliant how-to book cuts out the unnecessary and promises to get you hobby framing in no time – with creative flair.

Picture Framing, Modern Methods of Making and Finishing Picture Frames

Weidenfeld & Nicolson
You can choose the right molding, mount, or finish to complement any object: paintings, mirrors, textiles and more. “A DIY manual for making custom frames. Traditional and contemporary techniques are presented, along with a variety of finishing techniques.”—Woodshop News.

Popular Science Dutt Press

Making Frames is an essential and practical guide to the process of framing artwork of all types. It explains how to measure the artwork, cut a window mount, attach the image, cut the moulding and make the frame before preparing the backing board and glass for assembly. Having explained the basic process, it then describes more advanced techniques such as using different mounts and

framing other three-dimensional items. It is illustrated with over 300 photographs and gives clear detailed instructions along with tips and advice throughout to give your frame a professional finish. Contents include: instructions to frame paper-based artwork such as photographs, prints, drawings and paintings; advice on equipment and materials to buy, as well as tips on how to store them; guidance on conservation methods to preserve valuable artwork; specialist methods for framing canvas, panels and other types of supports that are thicker than paper; methods for advanced mounts, framing fabric art and different types of deep-box frames. Ideas for creative framing and unique effects, including hand decorated mounts, gilding and paint effects on bare wood moulding. This essential and practical guide to framing artwork of all types will be of interest to artists, crafters, needle workers, interior designers as well as beginners and experienced framers. Superbly illustrated with 353 colour photographs. *Making Picture Frames* Southwater Publishing Provides instructions and

techniques for creating your own picture frames. *Patents for Inventions* Courier Dover Publications An exciting interactive title chock-full of stars, planets, aliens, and everything out of this world brings National Geographic Kids signature content to a sticker and activity book format. 144. CHAPTER ONE.
ABOUT PICTURE FRAMES.
THE PICTURE FRAME, as it
exists today, is derived
from the doorway or
entrance to temples,
palaces and cathedrals.
From a functional
viewpoint, it might have
been more practical to
place doors at the sides of
these buildings, but the
importance of the door
framing an impressive
picture of the interior was
never overlooked. The
need to enhance a picture
or bas-relief with a frame
is evidenced from the
earliest times. The first
decorations were
necessarily crude a raised
line some times being the

only ornament The
earliest examples of
frame-like decorations or
borders bear a great
resemblance to door
frames. They were
composed of two columns
surmounted by a con-
necting entablature and
this form persisted into
the 15th century. Even the
decorations painted by
the artists around the
edges of pictures before
the introduction of
movable frames were
similar in form. As a
matter of fact, frames
without pictures eventu-
ally came into existence
because the desire to
embellish with mouldings
was so strong. Rooms in
palaces were arbitrarily
panelled with mouldings
and their vestigial
remains are to be seen
today in the senselessly
panelled walls
of apartments in modern
cities. Movable picture
frames for easel paintings
gained quickly in
popularity once they were
introduced. About Picture
Frames sides the
elaborate and intricate
wood-carving, ebony,
ivory, tortoise shell and
mother of pearl were used
for inlaid decoration. Gold,
silver and every other
metal have also been
used for frames. With the
perfection of the
technique of making large

sheets of glass which were in turn used to cover and protect pictures, frame-making received a big impetus in the 17th century. In the 18th century, when cheaper mirrors were introduced, frames were in greater demand than ever. This century also saw an invention that was to revolutionize the art of frame decoration that of the development of moulded composition ornaments. The use of this easily handled material, which did away with the need for laborious and expensive hand-carving, drove artisans to other fields. Since then, there has been no large group of wood-carvers devoted solely to frame decoration. It is interesting to note that during the Renaissance period, when movable frames were first introduced, book decoration reached its highest form. Undoubtedly, the early carvers and framers, besides using architectural designs, took many of their ideas from early illuminated manuscripts. The frames of the Louis periods certainly got their inspiration from typographical decorative motifs. Before then,

architects and sculptors designed much of the scroll-work, but later goldsmiths were employed for decoration. Over-elaboration became the order of the day until all forms were lost beneath the gingerbread. With the French revolution, people turned away from all evidences of bourgeois wealth and returned about picture frames to a refreshing simplicity. Until 1850 all mouldings were cut from rough boards by hand, but with the invention of labor-saving machinery, frames could be put on the market for what the raw material had cost previously. This country was fortunately spared from the use of moulded ornaments until the advent of the Victorian era...

[Picture Frame Making for Amateurs - Being Practical Instructions in the Making of Various Kinds of Frames for Paintings, Drawings, Photographs, and Engravings.](#) Lark Books

This visually stunning and technically detailed book is an in-depth analysis of the materials and techniques used on thirty eight of the V&A's Renaissance frames. The book will teach the reader to recognise frame style,

structure and surface decoration of the period, as well as additions and alterations and later frames in the style. * First detailed technical analysis of the V&A's most important Renaissance frames * Highly illustrated with 100 + colour photos of front back and details, digital reconstructions, section profiles, and illustrations of frame types, joints and mouldings. * Provides a comparative reference for Renaissance frames in other publications Christine Powell has worked at the V&A since 1993. She is a Senior Furniture Conservator specialising in gilt wood European Furniture, mirror and picture frames. She has also worked at The National Gallery London for seven years as conservator working on European painted and gilt wood altarpieces and frames and The Wallace Collection for two years on European gilt wood frames and furniture. She has taught and published articles on the history, materials techniques and conservation of gilding. Christine studied furniture making and restoration of furniture at the London College of Furniture (latterly the Metropolitan University) including wood

finishing, carving and gilding. Before this she worked in private practice for furniture restoration and special paint effects firms. She also attended Epsom School of Art and Design. Zoë Allen first joined the V&A in 2000 to work on gilt wooden objects for the British Galleries and returned to the V&A in 2003 where she has worked since as

Frames and Gilded Furniture Conservator. Before joining the V&A full time she worked as a conservator for both public institutions, such as English Heritage, and private practices including projects at the Royal Academy, St Paul's Cathedral and Somerset House. Zoë has published articles on her work. After a first degree in French Literature, Zoë studied

conservation at the City & Guilds of London Art School. Her training covered the conservation of objects made from wood, stone and other sculptural materials, gilding and decorative surfaces. Internships included the National Institute for Restoration, Croatia, the Royal Collection, London and the Museum of London.
