BRADFORD JANIAH

H. C. Bankole-Bright and Politics in Colonial Sierra Leone, 1919-1958 Palgrave Macmillan
Explores how the first treaty-based UN international tribunal's judges innovatively applied the law to perpetrators of international crimes in one of the worst conflicts in recent history.

The Temne of Sierra Leone Martinus Nijhoff Publishers

Sierra Leone came to world attention in the 1990s when a catastrophic civil war linked to the diamond trade was reported globally. This fleeting and particular interest, however, obscured two crucial processes in this small West African state. On the one hand, while the civil war was momentous, brutal and affected all Sierra Leoneans, it was also just one element in the long and faltering attempt to build a nation and state given the country's immensely problematic pre-colonial and British colonial legacies. On the other, the aftermath of the war precipitated a huge international effort to construct a 'liberal peace', with mixed results, and thus made Sierra Leone a laboratory for post-Cold War interventions. Sierra Leone examines 225 years of its history and fifty years of independence, placing state- society relations at the centre of an original and revealing investigation of those who have tried to rule or change Sierra Leone and its inhabitants and the responses engendered. It interweaves the historical narrative with sketches of politicians, anecdotes, the landscape and environment and key turning-points, alongside theoretical and other comparisons with the rest of Africa. It is a new contribution to the debate for those who already know Sierra Leone and a solid point of entry for those who wish to know.

Sierra Leone Routledge

Post-war democratization has been identified as a crucial mechanism to build peace in war-ridden societies, supposedly allowing belligerents to compete through ballots rather than bullets. A byproduct of this process, however, is that military leaders often become an integral part of the new democratic system, using resources and networks generated from the previous war to dominate the emerging political landscape. The crucial and thus-far overlooked question to be addressed, therefore, is what effect the inclusion of ex-militaries into electoral politics has on post-war security. Can 'warlord democrats' make a positive contribution by shepherding their wartime constituencies to support the building of peace and democracy, or are they likely to use their electoral platforms to

sponsor political violence and keep war-affected communities mobilized through aggressive discourses? This important volume, containing a wealth of fresh empirical detail and theoretical insight, and focussing on some of Africa's most high-profile political figures - from Paul Kagame to Riek Machar to Afonso Dhlakama - represents a crucial intervention in the literature of post-war democratization.

Gender and Power in Sierra Leone Manchester University Press

This is the first book on German-African economic relations published in Russia in the last 25 years. It covers a whole spectrum of Germany's bi-lateral and multilateral relations with the countries of Africa, including commercial ties, money transfers, direct and portfolio investment, movement of labor resources, etc. Special attention is given to the legal framework and political context of German-African cooperation. Germany's role in implementing EU joint policy in Africa is analyzed in detail for the first time in the Russian economic literature. The book will be of interest to scholars, university students as well as business people, interested in the contemporary economic, political and social development of Africa.

The Law Reports of the Special Court for Sierra Leone Cambridge University Press

The first comprehensive book on the participation of Muslim Fula business elites in the post-independence politics of Sierra Leone

THE DAMBY TRADITION OF THE KONO OF SIERRA LEONE-WEST AFRICA Routledge

Against the backdrop of a threadbare post-war state and a global marine ecology in treacherous decline, Jennifer Diggins offers a dynamic account of post-war Sierra Leone, through the examination of a precarious frontier economy and those who depend on it. The book traces how understandings of intimacy, interdependence, and exploitation have been shaped through a history of indentured labour, violence, and gendered migration; and how these relationships are being renegotiated once more in a context of deepening economic uncertainty. At its core, this is about the material substance of human relationships. One can go a long way towards mapping the town's shifting networks of friendship, love, and obligation simply by watching the vast daily traffic in gifts of fish exchanging hands on the wharf. However, these mundane social and economic strategies are often inflected through a cultural dynamic of 'secrecy', and a shared sense of the unseen forces understood to inhabit the material world.

Area Handbook for Sierra Leone Cambridge University Press

An in-depth study examining the agency and influence of indigenous Temne-speakers in the making of the Sierra Leone Colony. It is ideal for students, researchers, and scholars interested in the foundations of colonial Sierra Leone and its social, political and economic history, and Colonial Studies and African history more widely.

Human Rights in Sierra Leone, 1787-2016 Indiana University Press

Foods of Sierra Leone and other West African countries is a unique cookbook focusing on West African foods many of which have a global appeal. It is loaded with overwhelming details about these foods as well as interesting personal food stories that will delight children and adults alike. In addition, the book exposes the reader to many delectably tasty recipes for dishes like jollof rice, various soups and stews, the fascinating groundnut soups and stews, the delicious cassava leaf sauce, okra sauces, beans sauces, other mixed sauces and many more including vegetarian variations of some of the sauces. Food lovers will learn how traditionally Western vegetables like spinach, collard green, swiss chard and many others can be cooked using West African recipes. All these are lavishly presented by a West African national who was born and brought up in the region, and has lived in the region cooking and eating these foods for more than 50 years.

War and the Crisis of Youth in Sierra Leone Martinus Nijhoff Publishers

Mangrove rice farming on West Africa's Rice Coast was the mirror image of tidewater rice plantations worked by enslaved Africans in 18th-century South Carolina and Georgia. This book reconstructs the development of rice-growing technology among the Baga and Nalu of coastal Guinea, beginning more than a millennium before the transatlantic slave trade. It reveals a picture of dynamic pre-colonial coastal societies, quite unlike the static, homogenous pre-modern Africa of previous scholarship. From its examination of inheritance, innovation, and borrowing, Deep Roots fashions a theory of cultural change that encompasses the diversity of communities, cultures, and forms of expression in Africa and the African diaspora.

Dell'antica Siracusa illustrata di G. Bonanni e Colonna ... libri due, etc EGEA spa

I paesi subsahariani stanno attraversando una fase di crescita economica senza precedenti, fonte a sua volta di trasformazioni politiche e sociali che percorrono tutta la regione. Eppure la retorica prevalente quando parliamo di Africa è paradossalmente ferma all'immagine di paesi ostili, instabili, flagellati da povertà e malattie. Pur senza trascurare gli elementi critici, i rischi e le sfide che caratterizzano l'Africa contemporanea, gli autori esaminano le potenzialità e opportunità dischiuse dai cambiamenti in corso nel continente africano. Attraverso dati aggiornati e comparazioni con altri paesi, vengono messi in evidenza aspetti chiave per l'internazionalizzazione economica italiana e per la ridefinizione di una strategia politica e diplomatica verso l'Africa subsahariana.

Modern Marriage in Sierra Leone CUP Archive

Racial history has always been the thorn in America's side, with a swath of injustices—slavery, lynching, segregation, and many other ills—perpetrated against black people. This very history is complicated by, and also dependent on, what constitutes a white person in this country. Many of the European immigrant groups now considered white have also had to struggle with their own racial consciousness. In *A Great Conspiracy against Our Race*, Peter Vellon explores how Italian immigrants, a once undesirable and “swarthy” race, assimilated into dominant white culture through the influential national and radical Italian language press in New York City. Examining the press as a

cultural production of the Italian immigrant community, this book investigates how this immigrant press constructed race, class, and identity from 1886 through 1920. Their frequent coverage of racially charged events of the time, as well as other topics such as capitalism and religion, reveals how these papers constructed a racial identity as Italian, American, and white. *A Great Conspiracy against Our Race* vividly illustrates how the immigrant press was a site where socially constructed categories of race, color, civilization, and identity were reworked, created, contested, and negotiated. Vellon also uncovers how Italian immigrants filtered societal pressures and redefined the parameters of whiteness, constructing their own identity. This work is an important contribution to not only Italian American history, but America's history of immigration and race.

Il Leone di Damasco Oxford University Press

The Special Court for Sierra Leone was established through signature of a bilateral treaty between the United Nations and the Government of Sierra Leone in 2002. This volume presents all the interlocutory decisions and final trial and appeals judgments issued by the court in the case *Prosecutor v. Brima, Kamara and Kanu*.

New Perspectives on the Sierra Leone Krio Springer

Although graced with picturesque beaches, lush rain forests, and abundant diamond mines, the tiny West African nation of Sierra Leone is a land haunted by tragedy. It is the region from which the first slaves in North America were brought during the 1600s. A century later, thousands of freed slaves would establish a settlement called Freetown, which later became part of the British colony of Sierra Leone. Despite its diamond resources, Sierra Leone remained a poverty-stricken nation after achieving independence in 1961. During the 1990s, its people were devastated by horrific atrocities that occurred during a brutal civil war. Since peace came to the troubled nation in 2002, Sierra Leone has begun the slow process of rebuilding. However, much work must still be done before Sierra Leone can become a stable and prosperous nation.

Warlord Democrats in Africa Routledge

An intriguingly broad picture of Sierra Leone is given in Winterbottom's 1803 work, addressing geography, religion, medicine and women's status.

Deep Roots Cambridge University Press

Using Sierra Leone as a case study, this book examines the nature of knowledge production and interpretation of African history since the decade of African independence. This anthology provides critical reflections on major themes such as ethnicity, class, gender, identity formation, nation building, resistance, and social conflict.

Historical Dictionary of Sierra Leone Simon and Schuster

This substantial and thoroughly documented book is a political biography of an important figure in Sierra Leone. It is also a comment on two of the major themes of the country's history--the relations between the Colony (Krio Society) and the protectorate (the earlier inhabitants of the territory) and more importantly, the position of the imperial regime vis-à-vis its colonial subjects. The author, a Sierra Leonean and a Krio himself, skillfully examines the country's recent history through the life of Dr. H.C. Bankole-Bright, an important leader of the Krio people. The Krio, descendants of the freed slaves, were the elite of Sierra Leone for more than a century, but ultimately they failed to master mass electoral politics during the period of decolonization leading to independence. Dr. Bankole-

Bright's failure is seen as emblematic of the disappointed hopes of the Krio as a political group in Sierra Leone. An underlying theme of the book is the misrepresentation of the Krio people in Sierra Leone historiography.

Account of the Native Africans in the Neighbourhood of Sierra Leone AuthorHouse

DAMBY TRADITION According to the Kono tribes of Sierra Leone, West Africa, a Damby System is a family group, propagated expanded from a single patrilineal lineage, empowered by strict dietary laws, totemic in nature, these laws bind the group to each other. Being a Damby member means being in a covenant relationship, where animal plants, or other food prohibitions must be strictly observed. Our Damby laws parallels the Biblical laws of Moses or Moses' dietary laws. Some of these dietary laws has been interpreted to mean Jewish Kosher laws. Some of these laws will be discussed in detail, as the book progress. Our ancient Fathers considered not only the earth, but also all the sidereal (relating to stars: especially measures with reference to the apparent motion of the stars) bodies as individual creatures possessing individual intelligence. Some of the twelve signs of the Zodiac are represented by animals as well as humans.

The End of the Pagan City NYU Press

Bronwen Everill offers a new perspective on African global history, applying a comparative approach to freed slave settlers in Sierra Leone and Liberia to understand their role in the anti-slavery colonization movements of Britain and America.

Abolition and Empire in Sierra Leone and Liberia Walter de Gruyter GmbH & Co KG

This book addresses the gendered political authority in Sierra Leone, a relatively unknown topic, and looks at the part it plays in women's history, political history, political transformation in Africa, and global women's political leadership.

A Bibliography of Sierra Leone Boydell & Brewer

Sierra Leone was founded, albeit under British control, with the highest hopes of being a refuge for liberated Africans and freed slaves. When the country received its independence, hopes for the future grew even stronger. Alas, its expectations came crashing down when the country's situation grew steadily worse after repeated military interventions and a devastating ten-year civil war that raged throughout the 1990s. Now that the war is over, there is once again renewed cause for optimism about the country's future, as Sierra Leone becomes an active participant in African and world affairs. This new edition is based primarily on recent research on the country, but covers the earliest known inhabitants, the colonial era, and the period of independence including the very confusing turmoil of the recent past. The chronology briefly traces its history and the introduction provides an essential overview of all the recent developments in the country. Hundreds of cross-referenced dictionary entries describe significant leaders, events, political parties and movements, ethnic groups, and related political, economic, and social aspects. A bibliography is included to facilitate further research.
