John Whitehead began life in Montclair, New Jersey, as a child of the Depression and went on to lead an exemplary life in the years of the Greatest Generation. In this intimate, charming autobiography, he shares his stories and the lessons he's learned about quiet leadership. He describes how on D-Day he commanded one of the landing crafts at Omaha Beach, and witnessed one of the greatest battles in American military history. Later, in his role as co-chair of Goldman Sachs, he was one of the pioneers of the globalization of international finance that was to change the face of American business. In 1985, Whitehead was appointed Deputy Secretary of State under President Ronald Reagan and became the architect of the Reagan administration's successful efforts to wean the countries of Eastern Europe from the Soviet Union and to open up space there for the democratic movements that eventually resulted in the fall of the Berlin Wall. Most recently, he was appointed by New York Governor George Pataki as Chairman of the Lower Manhattan Development Corporation, which is charged with the task of rebuilding Ground Zero. Whitehead provides a first-hand account of the difficult decisions the LMDC has made in meeting its goals of re-developing lower Manhattan and honoring the victims of 9/11 as the capstone of his remarkable career.

Thomas Blantz's monumental *The University of Notre Dame: A History* tells the story of the renowned Catholic university's growth and development from a primitive grade school and high school founded in 1842 by the Congregation of Holy Cross in the wilds of northern Indiana to the acclaimed undergraduate and research institution it became by the early twenty-first century. Its growth was not always smooth—slowed at times by wars, financial challenges, fires, and illnesses. It is the story both of a successful institution and of the men and women who made it so: Father Edward Sorin, the twenty-eight-year-old French priest and visionary founder; Father William Corby, later two-term Notre Dame president, who gave absolution to the soldiers of the Irish Brigade at the Battle of Gettysburg; the hundreds of Holy Cross brothers, sisters, and priests whose faithful service in classrooms, student residence halls, and across campus kept the university progressing through difficult years; a dedicated lay faculty teaching too many classes for too few dollars to assure the university would survive; Knute Rockne, a successful chemistry teacher but an even more successful football coach, elevating Notre Dame to national athletic prominence; Father Theodore M. Hesburgh, president for thirty-five years; the 325 undergraduate young women who were the first to enroll at Notre Dame in 1972; and thousands of others. Blantz captures the strong connections that exist between Notre Dame's founding and early life and today's university. Alumni, faculty, students, friends of the university, and fans of the Fighting Irish will want to own this indispensable, definitive history of one of America's leading universities. Simultaneously detailed and documented yet lively and interesting, *The University of Notre Dame: A History* is the most complete and up-to-date history of the university available. *Press Summary - Illinois Information Service* Cengage Learning
"Working from research conducted over six years with hundreds of charities and donors, 'Donor-Centered Fundraising' paints a candid picture of why donors stop giving to charities they once supported, and what it will take to preserve their loyalty in the future. In clear language and backed by statistical evidence, Penelope Burk explores the pitfalls of our traditional approaches to donor communication and recognition and articulates what donors want but seldom get from the charities they support. The book features straightforward and accessible calculations that show how much money charities are failing to raise, and offers a step-by-step procedure for testing a donor-centered alternative and gaining its acceptance in any organization."--From publisher description.

The Standards of Conduct Office of the Department of Defense General Counsel's Office has assembled an "encyclopedia" of cases of ethical failure for use as a training tool. These are real examples of Federal employees who have intentionally or unwittingly violated standards of conduct. Some cases are humorous, some sad, and all are real. Some will anger you as a Federal employee and some will anger you as an American taxpayer. Note the multiple jail and probation sentences, fines, employment terminations and other sanctions that were taken as a result of these ethical failures. Violations of many ethical standards involve criminal statutes. This updated (end of 2009) edition is organized by type of violations, including conflicts of interest, misuse of Government equipment, violations of post-employment restrictions, and travel.
