Closing the Commons traces the development of limited fishery access from the 1930s—when a licensing system was first established for

trawlers operating in Norwegian waters—through the closing of offshore fleets in the 1970s and the coastal fleet in the 1990s. Today, more than ninety percent of all Norwegian fisheries have been closed through various license systems and mandates. Noted researcher Bjørn Hersoug analyzes this process and related issues, exploring the policy options available for future fisheries development.

Extensively researched, the book is the first to fully examine the entire closing process for an English-speaking audience.

Performance Guide Springer Science & Business Media

This volume continues the publication of

Professor Elton's collected papers on topics in the history of Tudor and Stuart England. All appeared between 1973 and 1981. As before, they are reprinted exactly as originally published, with corrections and additions in footnotes. They include the author's four presidential addresses to the Royal Historical Society and bring together his preliminary findings in the history of Parliament and its records. Several of them, which appeared in various collections and *Festschriften*, have been difficult to find, and some are taken from locations in Germany and the United States unfamiliar to English readers. The eight lengthy reviews here

republished examine some of the major questions in the history of the age and throw light on the principles of investigation which underlie the author's own research.

Go beyond the basics of witchcraft and take your study of wicca to the next level:

everything you need to know to have a deeper understanding of wicca, its teachings, and the meaning behind its rituals and practices. You've bought your crystals and cast your basic spells, planted your herb garden and smudged your home—now what?

**Wicca: A Modern Practitioner's Guide** takes you beyond the trendy witchy basics to the deeper roots the practice, with explanations of the

traditions, beliefs, and rituals that make up the wiccan religion. Learn about Solitary Wicca, which teaches you how to practice wicca—whether you work with a coven or practice alone—and goes beyond the “how” of different practices to explore the “why”: for example, when should you create a sacred space rather than cast a circle? How and why do you purify yourself before a ritual? What is grounding, and why is it important for you to ground yourself before doing spellwork? For those who seek them, Wicca has all the answers.

ADMINISTRATION OF PROGRAMS FOR YOUNG CHILDREN is a tried and true guide for

early childhood education students who want to be directors, as well as a comprehensive resource for those who are already directors. The text emphasizes the role of leaders/managers and their function in relation to new staff, while simultaneously addressing the needs of children, parents, and other staff. Coverage includes a wide variety of information about relevant program elements as well as methods and principles related to supervising student teachers, assistant teachers, teachers, parents, and volunteers. Real-life scenarios equip working directors with problem- solving techniques; readers also learn best

practices in child care program management. Highlights include a fresh new design, a new chapter diversity, up-to-date technology information, and new TeachSource Videos integrated into each chapter. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. University Press  
The importance of international maritime labour law - both as a component of international maritime law, and in socio-political and economic terms - has been recognised by the IMO International Maritime Law Institute for a number of years. Indeed, the Institute has annually organised a course on maritime labour law with the participation of inter alia the International Maritime Organization, the International Labour Organization, the International Transport Workers' Federation, and the German Shipowners' Association. It was therefore a great pleasure when the authors invited me to introduce their forthcoming

monograph on Maritime Work Law Fundamentals: Responsible Shipowners Reliable Seafarers. As the title suggests, a fundamental challenge of this branch of international maritime law is to achieve a balance between the interests of the two main stakeholders. Institutionally, the effort to achieve this balance dates back a number of decades with its genesis mainly found in the work of the International Labour Organization. It has to be said that whilst this effort achieved great progress, it has led to a haphazard, plethora of legal instruments.

We study the effects of opening and closing procedures on the NYSE and Nasdaq by examining firms that moved from the Nasdaq to the NYSE and a sample of size-matched firms. We find that opening trades on the NYSE are about 20 percent less costly to execute than later comparable trades, while closing trades are slightly more costly. On the Nasdaq, both opening and closing trades are slightly more costly. The savings on the NYSE open are increasing with the size of firms. While the consolidation of orders at the NYSE opening auction appears to reduce costs, we also find that opening

quotes are subject to temporary price pressures though transaction prices appear to be unaffected. At the close, NYSE trades obtain comparable executions and quotes do not appear to be distorted. However, closing trades appear to be affected by temporary liquidity pressures, particularly market-on-close orders. We find that price discovery overnight and through the first half hour of trading is comparable across both market systems. However, price discovery is more pronounced in the earlier part of the rest of the day on the NYSE. Also, opening quotes are delayed as NYSE specialists complete opening auctions, thus delaying price

discovery during the first half hour of trading. Finally, we find that the official closing quote on the NYSE reflects more information than quotes prevailing at end of the day, the last third market quote, either of the last two transactions of the day, or the very last quote provided for a given stock.

Opening day in Milwaukee is an event like no other in baseball--all the pomp and reverence for the return of the season, with a tailgate party like only Brewers fans know how to throw. Each opener creates treasured memories, like Hank Aaron's return to Milwaukee,

Sixto Lezcano's walk-off grand slam, the momentous opening of Miller Park, Lorenzo Cain's game-saving grab or the debuts of a couple of kids named Yount and Molitor. Chronicling a half-century of baseball lore, this book relives 53 home openers and the traditions, oddball characters, unlikely heroes and Hall of Fame legends they featured.

Stage Management Basics, second edition, offers a deep dive into the basics of stage

management for theatre, dance, and opera productions. Without assuming any intrinsic prior knowledge of the theatrical field and its associated, specialized terminology, this book covers every aspect of stage management, from reading a script, meeting with a director and theatre staff, and running auditions to communication best practices and opening night protocol. This new edition features brand new chapters on opera, dance, and unions, information on working with intimacy and fight directors, updated tips and tricks, and vibrant color images. Using simple language and detailed explanations, this book is the perfect primer for the beginning stage management student.

The companion website contains blank form templates, chapter comprehension tests, a suggested reading list, glossary flashcards, and more.

Praise for Fast Close: A Guide to Closing the Books Quickly "Steve captures the essence of the problems affecting the financial close process within

corporations of all sizes; from the period close of subledgers and general ledger through financial reporting, and the relationship and interdependencies of governance, people and technology. A must-read for the corporate controller."

—David Taylor, ACMA, MBA, VP Strategy, Trintech Inc. "Fast Close: A Guide to Closing the Books Quickly, Second Edition is a must-read for today's busy controllers. Steven Bragg points out everything that can be done outside the close that you just never realized didn't actually have to be part of the month-end close process! Very commonsensical approach!" —Kathleen Schneibel, mba, cpa, Controller/CFO for Hire,

KMAS Consulting LLC  
 "A well-executed 'fast close' can bring many valuable benefits to any company, from improving organizational performance to transforming accounting executives from financial historians to trusted advisors. In *Fast Close, Second Edition*, Steve systematically breaks down the steps required to achieve a fast close in both public and private companies, providing financial executives with tips, checklists, and a cost-effective road map to implement fast close procedures in virtually any company." —Matthew Posta, Esq., CPA, Vice President of Finance, Key Air, LLC FROM THE FIRST EDITION "This is an outstanding book in

which Steve reveals his secrets to a fast close. Having personally experienced his (one-day) fast close for years and enjoyed the beneficial impact on my company, I highly recommend this book for all financial officers who desire to have a large, favorable impact on their company."
