A Teach-Yourself Guide to Italic

Handwriting The Italic Way to Beautiful Handwriting is your key to mastering the Italic hand in just minutes a day. Originally developed in the early Renaissance as a "speedwriting" technique by Papal scribes who wanted to combine beauty and legibility with speed, Italic handwriting continues to appear today on diplomas, wedding invitations, and other special announcements. Now through modern teaching methods developed by Fred Eager, this handwriting can be yours. The foundation of the Eager system is a dual approach: you learn calligraphic and cursive simultaneously--one handsome, the other functional--to synthesize a perfect balance. Eager's techniques have been widely used throughout the United States and inspired the resurgence of Italic classes and clubs from coast to coast. In this step-by-step, trace-and-copy manual, renowned Italic instructor Fred Eager shows how to develop the ideal handwriting--legible and beautiful, yet characteristically your own.

In an age of myriad computer fonts and instant communication, your handwriting style is increasingly a very personal creation. In this book, Margaret Shepherd, America's premier calligrapher, shows you

that calligraphy is not simply a craft you can learn, but an elegant art form that you can make your own. Calligraphy remains perennially popular, often adorning wedding invitations, diplomas, and commercial signs. Whether it is Roman, Gothic, Celtic, Bookhand, or Italic style, calligraphy conveys class and elegance. Margaret Shepherd makes this ancient art form accessible in a completely hand-lettered technical guide that will: \* Provide context for calligraphy as an art, exploring the rich tradition of hand-lettering and mapping the evolution of the most popular styles. \* Give detailed technical advice on choosing pens, paper, and inks, setting up your workspace, mastering various pen angles, along with step-by-step illustrations to guide you as you practice. \* Explain which alphabets are appropriate for different forms of writing. For example, the Roman alphabet works well for short, unpunctuated passages, while the Italic alphabet is more suited to informal everyday communication. \* Encourage you to personalize your lettering by using variant strokes and interpreting how you would like the words to look on the page. \* Inspire you with carefully chosen illustrations and examples, which bring letters to life. In Margaret Shepherd's own words, "Calligraphy trains not only your eye and hand, but your mind as well." *Learn Calligraphy* is the authoritative primer for this age-old craft, and will help develop a new appreciation for lettering as
