Singapore's

spearheaded  
by a

concerted, closely-coordinated programme of nation branding. Brand Singapore helped to attract the investments, business, trade, tourism and talented human resources that are the lifeblood of a successful nation. Today, the city-state is known internationally as a dynamic, safe, corruption-free place to do business, a Garden City, and increasingly, a vibrant city of

culture and the arts. In global surveys of quality of life, Singapore regularly tops the charts. How did Singapore create this country brand, cultivate and guard it, sell it to its “shareholders”, and make it known to the world? Drawing on two decades in the nation branding game, Koh Buck Song offers an illuminating inside look at – and candid critique of – a country brand that is as rich in resource as

it is potent with promise.

Springer  
Former Head of the Singapore Civil Service  
Mr Lim Siong Guan now shares his diverse experiences and fresh insights on leadership in his exclusive new book, *The Leader, The Teacher & You*. As a former Permanent Secretary in ministries, including the Ministry of Defence, the Prime

Minister's Office and the Ministry of Finance, and former chairman of the Inland Revenue Authority of Singapore and the Singapore Economic Development Board, the indefatigable public servant has contributed greatly to Singapore's success, introducing innovative policies and practices at each turn, which have greatly enhanced drive and performance across the

board. Most notably, he is known for his pursuit of excellence, especially in spearheading the Public Service for the 21st Century (PS21) movement, to develop organizational excellence. From Singapore's early years of government to its emergence as a prosperous metropolis, Lim has served the nation tirelessly through the years. In *The Leader, The Teacher & You*, Lim puts

forth a fresh take on the notion of leadership as other-centered, with the focus on enabling others to be the best they can be. This noble vision of leadership is elaborated and built upon through the sharing of his experiences, in particular the memorable lessons and deep-seated convictions he has had while serving under Mr Lee Kuan Yew, Singapore's first Prime Minister, and Dr Goh Keng

Swee, Singapore's First Deputy Prime Minister. Different types of leadership, such as personal and position leadership are touched upon as the author encourages leaders to take an active role in empowering those they lead and spurring them on to excellence. Coming from a man who has helmed many distinguished organizations, Mr Lim's insights on core values

essential for organizational excellence are also not to be missed. The book offers practical and down-to-earth advice for leaders in all walks of life. For leaders who genuinely care for the people they lead and hope to make a difference in their lives, this book will be a crucial guide. excellence. Siong Guan Lim is one of the most outstanding public servants in any country, and after finishing this book, you will know why.” Senator Bill Bradley Former U.S. Senator and a Managing Director at Allen & Co. United States of America “The Leader, The Teacher & You is a riveting and thoughtful study on leadership based on theory, principles, and experience by

a former Head of the Civil Service and one of Singapore's most successful and admired public servants, Siong Guan Lim. It should be read by every student of politics and public policy, and anyone who aspires to play a leadership role. The book which as the author says is ‘part biography, part commentary, and part exposition,’ is loaded with insights into how to work

with people, deal with reality, motivate an organization, achieve results, anticipate change, and ensure relevance of the organization. For those who have long puzzled over how Singapore has been able to achieve so much with so little and in short time, it is public servants such as Siong Guan Lim who have made the partnership between the civil service and the elected

politicians so fruitful. Through his fascinating account of how he started in his first job as an engineer in the Sewerage Department, went on to be the Principal Private Secretary to Prime Minister Lee Kuan Yew, worked with Deputy Prime Minister and Minister of Defence Dr Goh Keng Swee, and became successively Permanent Secretary of Defence, Education, and Finance, he recounts

the crucial mentorship and inspiration provided by Singapore's leaders. He thoroughly examines what true leadership is all about. Lim moved on to become Chairman of Singapore's Economic Development Board and then Group President of GIC Private Limited, the wealth fund of Singapore. I have not read such a clear analysis of the function of leadership written so succinctly and

in such practical terms. It should be on the required reading list of university courses not only in Singapore, but major universities everywhere." Professor Chan Heng Chee Chairman, Lee Kuan Yew Centre for Innovative Cities Singapore University of Technology and Design Singapore "The Leader, The Teacher & You makes us aware that what we do is not just for

ourselves, but also for future generations. It is full of a wisdom born of a vast experience and a propensity to take the long view, while remaining acutely relevant for the immediate. Siong Guan Lim is the consummate teacher and role-models the title of the book. While there are suggestions on how to skim through selectively, I would encourage readers to read the

whole book to get the true gist of the thinking that has helped to make civil servants people that count in our nation." Mrs Belinda Charles Dean, Academy of Principals Singapore "A remarkable book ... after I started reading it I simply couldn't put it down. It has great insights, is fun to read, and deserves to be widely read. It is full of practical wisdom for a wide range of people — from full time

mums to business leaders. It sets out a framework for leaders based on values and culture, but also on lessons learned by having to take tough decisions. Siong Guan Lim had an outstanding career in the development of Singapore. The ability, motivation, and vision of the author and his colleagues are clearly one reason why Singapore and Lee Kuan Yew were so successful.

Because of this, the book is a great insight to understanding the phenomenon of Singapore.” Lord Griffiths of Fforestfach Vice Chairman, Goldman Sachs International UK “Siong Guan Lim has led and managed at the most senior levels of the Singaporean government. Any leader would love to have him at his/her side, advising, counselling, provoking, and

reminding. We cannot have him with us in person, but we do have this book that extracts the lessons that he has garnered from his many years of experience. We are fortunate that he has chosen to share his wisdom in writing. I have used some of his wisdom in my Harvard Kennedy School course on Effective Implementation for more than ten years. It has stood the test of time. Now, with the

advent of the book, I will borrow even more from him. My students and I are grateful.” Mr Francis Hartmann Adjunct Lecturer in Public Policy and Originator of the Kennedy School course on Effective Implementation Harvard Kennedy School of Government USA “Academics often think of themselves as being like monks in a monastery, each person being responsible

only for themselves and advancing their own careers. This book by Siong Guan Lim shows what real leadership can do to collectively achieve far more than can be done individually. This book contains the lessons and reflections of an outstanding practitioner of the art of leadership. Siong Guan Lim served in many senior positions of the Singapore Civil Service with great

distinction and effectiveness. The fact that he was moved repeatedly from one senior position to another is a testament to his ability. In a society dedicated to promotion on the basis of merit, he was clearly meritorious. The book contains many important lessons and challenges based on what the author has learned and practiced himself. As he points out himself, the true testament of a leader is to

look at what remains after he is gone. By that measure he did exceptionally well since the Singaporean public service and Ministry of Defence are models of efficiency and effectiveness. He points out that organizations need to change in good times and in good time so that they are not overtaken by the future. He clearly succeeded in the ones that he ran. I trust that the current leadership in

these organizations will take his lessons to heart. Relative to other books I have read on leadership, this is one of the best. It is full of practical wisdom, insights and challenges. The focus on values as critical is what I have observed in the organizations I have led. I could not put it down once I started reading it. I would put it as a must read for any leader of an organization

of any size. I certainly intend to use it in my leadership challenges.” Professor Daniel Hastings Cecil and Ida Green Education Professor of Aeronautics and Astronautics and Engineering Systems Massachusetts Institute of Technology (MIT), and Director/ Chief Executive Officer of Singapore-MIT Alliance for Research and Technology United States of America  
“This book is

truly unique: it is written and packaged like the numerous self-help books on leadership with tips and challenges, but its objective is not to teach someone how to get ahead and be successful by learning leadership techniques. At its heart is a simple and yet profound message — that to lead, one has to inspire people to aspire beyond themselves. Messages like ‘at the heart of every

human being is a desire for meaning and purpose in life' is a call for true values-based leadership, and a selflessness that is reflected by the book's fundamental premise: to be a good leader, one has to be a great teacher. Through examples from his own very public record of service to the nation and written in a way that is very accessible to young people, Siong Guan

Lim is himself a teacher-leader. The one message that resonates through the book is his observation that 'time passes and people die, but principles and values are what live on.' Young Singaporeans should absorb the book's messages into their daily lives, and by so doing they will become the selfless teacher-leaders, which Siong Guan Lim is the best example of." Mr Ho Kwon Ping and Ms Claire Chiang

Founders, Banyan Tree Hotels and Resorts Singapore "We live in a wicked world. The conventional wisdom is that, in order to succeed, one has to be ruthless and unprincipled. Siong Guan Lim's extraordinary success is proof that a man with deep religious convictions and high moral principles can be a successful leader. What is Siong Guan Lim's leadership

style? He is a leader with a tough mind and a warm heart, a leader who teaches and develops those who are members of his team. This is a wise and inspiring book.”

Of greatest relevance to me personally was 'Part I: The Teacher' culminating in the chapter on 'Culture and Values' — valuable for those of us leading organizational change and development. Siong Guan's conviction that today's challenges demand values-driven solutions resonates sharply and

persuasively. This book is organized to lovingly teach you how to lead yourself and your people to be the best that everyone can be." Mr Philip Ng Chief Executive Officer, Far East Organization, and Chairman of the Singapore University of Technology and Design Board of Trustees Singapore "An extensive collection of great quotations and life principles by Siong Guan

Mr John G Rice Vice Chairman, General Electric, and President & Chief Executive Officer of GE Global Growth and Operations USA "This is an extraordinarily valuable book. Siong Guan Lim and Joanne Lim have managed to do the unusual,

which is to create a narrative that is both educational and readable. The writers have elegantly drawn out important experiences and learnings from Siong Guan's long and varied career, and have made them memorable. But this is more than a story of a remarkable career and personal journey but the context, the development of a country whose primary asset is its

people, means that the insights are endorsed by the success of a nation." Sir John Rose Chairman, Holdingham Group, and former Chief Executive Officer, Rolls Royce Inc. UK "One of the most insightful books in German literature is the novel The Buddenbrooks of Thomas Mann. It describes the decline of a family. Again and again looking at dynasties or business houses, we

witness the seemingly unavoidable descent from great heights of success to failure. How can this be prevented? The answer is selfless and competent leadership! The young look for role models and guidance, which can only be provided by elders who by their achievements and their life show them that there are lofty goals worth striving for. Read this book for ideas and ideals.”  
Mr Urs

Schoettli  
Consultant on Asian Affairs and former Asia Correspondent of Neue Zürcher Zeitung (Switzerland) in Beijing, Hong Kong, Delhi, and Tokyo “Siong Guan Lim has been at the helm of many organizations critical in the transformation of Singapore into an economic powerhouse, from the civil service to the Economic Development Board to GIC, the fund manager for Singapore's

foreign reserves. As autobiographical as it is motivational, *The Leader, the Teacher, and You* is a must-read for executives, public servants, and students of East Asian development. Yet the wisdom of its general insights, as well as the humility with which they are delivered, will be an inspiration for any reader.”  
Dr Toni Schönenberger Chief Executive Officer, UBS Wolfsberg,

and Chairman, stars Foundation Board Switzerland “The transformation of Singapore has often been credited to the leadership of its succession of Prime Ministers. However, behind them are other leaders who do the actual grunt work and make things happen. This book tells the remarkable story of one such man, Siong Guan Lim, the son of a taxi driver,

starting his career as a sewerage engineer and rising to be the Head of the Civil Service, having served as Principal Private Secretary to the Prime Minister, as well as Permanent Secretary for the Defence, Education, and Finance Ministries along the way. And today he sits as Group President of one of the largest global sovereign wealth funds. There are fascinating insights into

the way he led innovative changes in the government departments he served. After three decades, there are countless nuggets of wisdom here for us to learn from. There are many things that I admire about Siong Guan — his appetite for learning, courage to accept new appointments, his ability to lead wholesale management changes, and so on. But most of all I admire his humility, his empathy, and

his ability to encourage and inspire others to do the best they can. Reading his story made me wish I had worked for such a leader and mentor.” Dato Dr Kim Tan Chairman, SpringHill Management Ltd. UK “Siong Guan Lim was Head of the well-known Singapore Civil Service. His book is full of aphorisms that are aimed primarily at the empowerment of people in a large complex organization and the role of an

enlightened leadership. He ends the book with a quote from Laozi — ‘As for the best leaders, people do not notice their existence.’ The entire civil service of Singapore could do very well for themselves, but more importantly for Singaporeans, by taking a refresher course through reading this book. Civil servants today must take the risks of constructive change. The

lessons of the book could prevent the stasis that dominant ruling parties undergo as witnessed with the KMT in Taiwan and the LDP in Japan.” Dr Tommy Tan Chief Executive Officer, TC Capital Singapore “One learns how to do something, but one can also do in order to learn. This is a book by a dedicated Singapore civil servant who did both by following able leaders who were also

great teachers. Drawing lessons from a lifetime's work, he offers advice to all those who wish to succeed in serving their society with integrity." Professor Wang Gungwu Chairman of the East Asian Institute and University Professor, National University of Singapore Singapore "This book was written by my good friend Siong Guan Lim based on his observations and

experience in his public career since 1969. It reflects his lifestyle, wisdom, life, and beliefs. With keen insight, he describes the behaviour of human groups, for example, by using the image of GEESE in a thoughtful and persuasive way. While each society may need a slightly different type of leader, there are some basic requirements that make a superior leader. Some

leaders, while they are leading their people, are brilliant and exemplary with a clear vision for the future. But once they leave, the group may face an abrupt slowdown or even chaos. Siong Guan clearly states that such leaders are not the best ones. Not leading from the front, nor from the side, nor from behind, but 'from within' is what makes the best leader, he writes. There is so much

<p>truth in his statement that the leader must seek to be like the teacher, where the true measure of success is how well the student can surpass the teacher. Siong Guan and I are involved in sharing ideas on lessons for leaders of the future generation. I find his thoughts and contributions to be highly original and instructive.” Mr Hiroshi Watanabe Chief Executive Officer/ Executive</p>	<p>Managing Director Japan Bank for International Co-operation Japan “Siong Guan Lim has written an outstanding book, and he has done this because he is an outstanding man. Mr Dean Williams Lecturer in Public Policy, Center for Public Leadership Harvard Kennedy School of Government USA "The dearth in courageous moral leadership in our world

today has left many political and economic institutions weakened and compromised. In this book, Siong Guan offers us tried and tested truths on leadership that he personally embodied throughout his time with the Singaporean Government Civil Service, Economic Development Board, and GIC. Malaysia "An invaluable guide to the heart, soul, and guts of leadership from that rarest of breeds: a true Servant Leader who, in the words of Singapore's Prime Minister, 'established an unbroken record of understanding Singapore's challenges and developing a vision of how the Public Service should respond to these challenges' over an outstanding, 44-year career

directly managing key areas of our nation's tumultuous and miraculous transformation . Having worked under his teacher-leader mentorship, I can testify to both the personal genuineness and organizational effectiveness of Mr Lim's remarkable mastery of that most difficult of management arenas: leading excellence, innovation, and change from the front

as a boss, from the side as a comrade, from behind as a mentor, and finally from within as a lasting source of inspiration." Mr Yeoh Lam Keong Social commentator and former GIC Chief Economist Singapore "Although The Leader, the Teacher & You relates Lim's 37 years as a civil servant in Singapore, the lessons apply universally to all sorts of readers. Advanced materials and nanotechnology is a promising, emerging field involving the use of nanoparticles to facilitate the detection of various physical and chemical parameters, including temperature, humidity, pH, metal ion, anion, small organic or inorganic molecules, gases, and

biomolecules responsible for environmental issues that can lead to diseases like cancer, diabetes, osteoarthritis, bacterial infections, and brain, retinal, and cardiovascular diseases. By monitoring environmental samples and detecting these environmental issues, advanced nanotechnology in this type of sensory technology is able to improve daily quality of life. Although these sensors

are commercially available for the detection of monovalent cations, anions, gases, volatile organic molecules, heavy metal ions, and toxic metal ions, many existing models require significant power and lack advanced technology for more quality selectivity and sensitivity. There is room in these sensors to optimize their selectivity, reversibility, on/off ratio, response time, and their

environmental stability in real-world operating conditions. This book explores the methods for the development and design of environmentally-friendly, simple, reliable, and cost effective electrochemical nanosensors using powerful nanostructured materials. More specifically, it highlights the use of various electrochemical-based biosensors involved in the detection of

monovalent cations, anions, gases, volatile organic molecules, heavy metal ions, and toxic metal ions, with the ultimate goal of seeing these technologies reach market. Designer Origami Race Point Pub This book discusses the sensitivity, selectivity, and response times of different sensor materials and their potential application in the design of portable sensor

systems for monitoring water pollutants and remediation systems. Beginning with an overview on water pollutants and analytical methods for their detection, the book then moves on to describing the advances in sensor materials research, and the scope for their use in different types of sensors. The book lays emphasis on techniques such as colorimetric, fluorescence,

electrochemical, and biological sensing of conventional and emerging pollutants. This book will serve as a handy guide for students, researchers, and professional engineers working in the field of sensor systems for monitoring water pollutants to address various challenges. Origami Worldwide

Extraordinary Origami Cernunnos This book presents recent advances in and perspectives on the use of organoselenium compounds, primarily highlighting the new frontiers in the field of Green Chemistry, their therapeutic and biological relevance and new materials. Throughout its 200 pages, readers will find an updated and comprehensive review of new aspects of organoselenium chemistry and biochemistry. Fully referenced and written in an easy to read style, it offers readers a primary resource for including organoselenium derivatives in their projects. This book will be of interest to

specialists, students and researchers involved in a broad range of fields, from synthetic green chemistry to medicinal chemistry and the chemistry of natural products. The connection between organoselenium compounds and green chemistry, despite having only recently emerged, is one of the subjects of this book. The first chapter highlights the use of Se-containing molecules as reagents and

catalysts in new green protocols to access important organic transformations. The book provides a wealth of examples of bioactive Se-containing molecules, especially focusing on those with potential therapeutic uses. The second chapter focuses on the state of the art concerning the role of organoselenium compounds as antioxidants, GPx mimics, and

derivatives endowed with different bioactive properties. "Organoselenium in nature" is the title of the third chapter, which equips readers with essential information on the main natural organoselenium compounds and where they are found. Selected aspects of the metabolism of selenium in plants and microorganisms are also discussed. In closing, the book includes a chapter

dedicated to recent advances concerning the nonbonding interactions between organochalcogen compounds. This is currently a hot topic in selenium chemistry and biochemistry, and here readers will find key insights into the chalcogen bond and its role in the biological activity of organoselenium compounds. Twists, Tilings, and Tessellation describes the underlying principles and mathematics of the broad and exciting field of abstract and mathematical origami, most notably the field of origami tessellations. It contains folding instructions, underlying principles, mathematical concepts, and many beautiful photos of the latest work in this fast-expanding field. **Origami**

**Collection 2008 (Deluxe Edition)** Laurence King Publishing Modular origami is the latest craze in paper folding! These three-dimensional models are created from a number of small pieces of paper that are easily folded and then cleverly fit together to form a spectacular shape. They range from paper polyhedra to bristling buckyballs that are reminiscent of sea

urchins—to ornate flower-like spheres. Each piece of paper is held by the tension of the other papers—demonstrating the remarkable hidden properties of paper, which is at the same time flexible but also strong! Author Byriah Loper has been creating modular origami sculptures for just five years, but in that time, he's pushed the upper limits of the art form with some of the largest, most complex

geometric paper constructions ever assembled. While many geo-modular origami artists focus on creating dense floral spheres, Byriah has pioneered the open, linear "wire frame" approach, which results in a very complex-looking model that reveals the interior of its form. He exhibits his sculptures annually at the Origami USA convention in New York, and was recently a

featured artist at the "Surface to Structure" exhibition at the Cooper Union gallery in the East Village. A great way to learn origami, the easy-to-follow diagrams and step-by-step instructions in this book show you how to fold the paper components and then assemble them to create 22 incredible models. Each model is a new challenge, and the paper sculptures you

create look  
fantastic on  
your desk or  
shelf!

The art of  
origami, or  
paper folding,  
is carried out  
using a square  
piece of paper  
to obtain  
attractive  
figures of  
animals,  
flowers or  
other familiar  
figures. It is  
easy to see  
that origami  
has links with  
geometry.  
Creases and  
edges  
represent  
lines,  
intersecting

creases and  
edges make  
angles, while  
the  
intersections  
themselves  
represent  
points.  
Because of its  
manipulative  
and  
experiential  
nature,  
origami could  
become an  
effective  
context for the  
learning and  
teaching of  
geometry. In  
this unique  
and original  
book, origami  
is an object of  
mathematical  
exploration.  
The activities  
in this book  
differ from  
ordinary  
origami in that  
no figures of

objects result.  
Rather, they  
lead the  
reader to  
study the  
effects of the  
folding and  
seek patterns.  
The  
experimental  
approach that  
characterizes  
much of  
science  
activity can be  
recognized  
throughout  
the book, as  
the  
manipulative  
nature of  
origami allows  
much  
experimenting  
, comparing,  
visualizing,  
discovering  
and  
conjecturing.  
The reader is  
encouraged to  
fill in all the

proofs, for  
his/her own  
satisfaction  
and for the  
sake of  
mathematical

completeness.  
Thus, this  
book provides  
a useful,  
alternative

approach for  
reinforcing  
and applying  
the theorems  
of high school  
mathematics.
