Does your stockbroker look out for your best interest? Not likely, says author Rick Ferri. In his hard-hitting books, Ferri reveals Wall Streets darkest secret: most stockbrokers and financial advisors are not investment wizards out to make you rich, but rather peddlers of expensive investment products designed to make money from you, not for you. Ferri exposes the dubious sales practices of brokers and other financial consultants and explains why many of their recommendations are doomed to fail. He then provides clear and useful advice that readers can use to turn what they earn into a secure financial future.

Muscular Portfolios is here to change the investing game — and help you leave stress behind with a stronger, smarter approach to investing. For decades, the financial services industry has sold risky investments, claiming that this was the only path to large gains. But this strategy is highly vulnerable to big losses that can devastate your portfolio. Today, there's a better approach. It combines the latest academic research in finance with the new ultra-low-cost index funds (exchange-traded funds). The result is an approach that provides market-like returns with dramatically smaller losses and requires only 15 minutes a month or less. Muscular Portfolios lays out the basic principles of this kind of investing so you can manage your own money successfully — without turning it into your second job. Investigative journalist Brian Livingston takes you behind the curtain of Wall Street and lays out a game-changing approach to investing: Muscular Portfolios, which are easy-to-use financial strategies you can set up yourself, even if you have no investment experience at all. Filled with helpful illustrations, compelling evidence, and simple, no-nonsense instructions, Muscular Portfolios is a resource, not a sales pitch. There are no financial products to buy, no secret formula to pay for. Everything is fully disclosed in bite-sized steps — and on a totally free website — that you can start using today to grow your wealth. Driven by cutting-edge investment research and backed by extensive market testing, Muscular Portfolios will revolutionize investing for families and individual investors.

Although we have been successful in our careers, they have not turned out quite as we expected. We both have changed positions several times—for all the right reasons—but there are no pension plans vesting on our behalf. Our retirement funds are growing only through our individual contributions. Michael and I have a wonderful marriage with three great children. As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying. “Why should I put time into studying subjects I will never use in real life?” he protested. Without thinking, I responded, “Because if you don't get good grades, you won't get into college.” “Regardless of whether I go to college,” he replied, “I'm going to be rich.”

If you want to have more peace of mind—no matter how world events are impacting the market—Investing Redefined has the advice you need to hear. Were you one of millions of Americans in 2008 wondering what you could have done differently to manage risks to your investments? Since then, have you changed your investment strategy or are you still doing the same things you did before the meltdown? Are you prepared for the next major crisis? Randy Swan believes it's not a question of if, but rather when, the market will suffer another dramatic fall—and approaching the market in the same old way is the path to financial suicide. You need to redefine your investing strategy to seek protection for your money. Swan breaks down the factors that influence market events—from world governments and global debt to technological wild cards—and explains why most individuals, including investment professionals, are not adequately prepared for the likely consequences of the next market crisis. This book offers investors a new way to play the game. Randy Swan shares the strategy that his company, Swan Global Investments, has developed to remain always invested and always hedged against the worst risks, while making the most of the opportunities a down market can offer. His advice is to learn and be prepared: He shows you how in this valuable book.

Exchange-traded funds (ETFs) have become in their 25-year history one of the fastest growing segments of the investment management business. These funds provide liquid access to virtually every financial market and allow large and small investors to build institutional-caliber portfolios. Yet, their

management fees are significantly lower than those typical of mutual funds. High levels of transparency in ETFs for holdings and investment strategy help investors evaluate an ETF's potential returns and risks. This book covers the evolution of ETFs as products and in their uses in investment strategies. It details how ETFs work, their unique investment and trading features, their regulatory structure, how they are used in tactical and strategic portfolio management in a broad range of asset classes, and how to evaluate them individually.

Here at last are the hard-to-find answers to the dizzying array of financial questions plaguing those who are age fifty and older. The financial world is more complex than ever, and people are struggling to make sense of it all. If you're like most people moving into the phase of life where protecting—as well as growing—assets is paramount, you're faced with a number of financial puzzles. Maybe you're struggling to get your kids through college without drawing down your life's savings. Perhaps you sense your nest egg is at risk and want to move into safer investments. Maybe you're contemplating downsizing to a smaller home, but aren't sure of the financial implications. Possibly, medical expenses have become a bigger drain than you expected and you need help assessing options. Perhaps you'll shortly be eligible for social security but want to optimize when and how to take it. Whatever your specific financial issue, one thing is certain—your range of choices is vast. As the financial world becomes increasingly complex, what you need is deeply researched advice from professionals whose credentials are impeccable and who prize clarity and straightforwardness over financial mumbo-jumbo. Carrie Schwab-Pomerantz and the Schwab team have been helping clients tackle their toughest money issues for decades. Through Carrie's popular “Ask Carrie” columns, her leadership of the Charles Schwab Foundation, and her work across party lines through two White House administrations and with the President's Advisory Council on Financial Capability, she has become one of America's most trusted sources for financial advice. Here, Carrie will not only answer all the questions that keep you up at night, she'll provide answers to many questions you haven't considered but should.

William J. Bernstein promises to lay out an investment strategy that any seven year old could understand and will take just 15 minutes of work per year. He also promises it will beat 90% of finance professionals in the long run, but still make you a millionaire over time. Bernstein is addressing young Americans just embarking on their working careers. Bernstein advocates saving 15% of one's salary starting no later than age 25 into tax-sheltered savings plans (IRA or 401(k) in the U.S., RRSPs or Registered Pension Plans in Canada), and divvying up the money into just three mutual funds: a U.S. total stock market index fund, an international stock market index fund and a U.S. total bond market index fund. For millennials, saving 15% of salary is the financial equivalent of dying, which is why Bernstein titles his

Exchange Traded Funds have revolutionised investing. Thanks to ETFs, investors now have the world at their fingertips and can invest in everything, from commodities to countries to currencies. But are investors using these funds effectively? And where do ETFs go from here? This book starts with an overview of the current wonderful world of ETFs, including an analysis of how the industry is changing for both providers and investors. Then, in a

series of essays, it covers recent key developments, including: smart beta ETFs, which are preaching the gospel of factor investing, fixed income ETFs, which are making bond markets available to everyone, environmental and social governance funds, which try to humanise investing, and robo-advisors, which use ETFs to automate portfolio construction. These developments are put into context, showing why ETF sponsors are changing the rules of the game and how the many and varied investors that use ETFs are taking to them. In the final section, the book offers a series of model ETF portfolios, showing how investors can use ETFs to build effective portfolios. The book concludes with the Top101 - a subjective selection of the top ETFs across all asset classes that investors should consider when building an ETF portfolio.

A practical guide to passive investing. Time and again, individual investors discover, all too late, that actively picking stocks is a loser's game. The alternative lies with index funds. This passive form of investing allows you to participate in the markets relatively cheaply while prospering all the more because the money saved on investment expenses stays in your pocket. In his latest book, investment expert Richard Ferri shows you how easy and accessible index investing is. Along the way, he highlights how successful you can be by using this passive approach to allocate funds to stocks, bonds, and other prudent asset classes. Addresses the advantages of index funds over portfolios that are actively managed. Offers insights on index-based funds that provide exposure to designated broad markets and don't make bets on individual securities. Ferri is also author of the Wiley title: *The ETF Book* and co-author of *The Bogleheads' Guide to Retirement Planning*. If you're looking for a productive investment approach that won't take all of your time to implement, then *The Power of Passive Investing* is the book you need to read.

The world of investing normally sees experts telling us the 'right' way to manage our money. How often do these experts pull back the curtain and tell us how they invest their own money? Never. *How I Invest My Money* changes that. In this unprecedented collection, 25 financial experts share how they navigate markets with their own capital. In this honest rendering of how they invest, save, spend, give, and borrow, this group of portfolio managers, financial advisors, venture capitalists and other experts detail the 'how' and the 'why' of their investments. They share stories about their childhood, their families, the struggles they face and the aspirations they hold. Sometimes raw, always revealing, these stories detail the indelible relationship between our money and our values. Taken as a whole, these essays powerfully demonstrate that there is no single 'right' way to save, spend, and invest. We see a kaleidoscope of perspectives on stocks, bonds, real assets, funds, charity, and other means of achieving the life one desires. With engaging illustrations throughout by Carl Richards, *How I Invest My Money* inspires

readers to think creatively about their financial decisions and how money figures in the broader quest for a contented life.
