**How to Be
an Overnight

Homeopathy
is over 200

years old and
is still
experiencing
an
uninterrupted
influx of new
practitioners
and patients.
Many patients
and therapists
swear by this

"alternative
healing
method",
which in some
countries is
even financed
by health
insurances.
This seems
completely
incomprehen-

ble to critics:
For them it is
clearly evident
that
homeopathy is
hopelessly
unscientific
and has at
best a placebo
effect. The
positions of
supporters
and
opponents
seem to be
just as
immutable as
they are
incompatible.
This book
answers some
essential and
fascinating
questions:
What remains
of the
founding ideas
of
homeopathy
in 21st
century
medicine?

Does it really
work and, if
so, how?
Which of the
original
theories can
we still apply
today with a
clear
conscience
and use for
the benefit of
patients and
the healthcare
system?
Where does
homeopathy
have its limits
and does it
indeed need
to be critically
reconsidered
and
evaluated?
The author
has dealt with
the points of
criticism for
years, but at
the same time
also takes
seriously the

wishes and
concerns of
patients who
often feel
insufficiently
cared for by
conventional
medical
practice.
Against the
background of
her own
personal
history, her
book attempts
to bridge the
gap between
these two
traditionally
opposing
camps.

Why did
Yugoslavia fall
apart? Was its
violent demise
inevitable?
Did its

population simply fall victim to the lure of nationalism? How did this multinational state survive for so long, and where do we situate the short life of Yugoslavia in the long history of Europe in the twentieth century? A History of Yugoslavia provides a concise, accessible, comprehensive synthesis of the political, cultural, social, and economic life of Yugoslavia—from its

nineteenth-century South Slavic origins to the bloody demise of the multinational state of Yugoslavia in the 1990s. Calic takes a fresh and innovative look at the colorful, multifaceted, and complex history of Yugoslavia, emphasizing major social, economic, and intellectual changes from the turn of the twentieth century and the transition to modern industrialized mass society. She traces the origins of

ethnic, religious, and cultural divisions, applying the latest social science approaches, and drawing on the breadth of recent state-of-the-art literature, to present a balanced interpretation of events that takes into account the differing perceptions and interests of the actors involved. Uniquely, Calic frames the history of Yugoslavia for readers as an essentially open-ended

process, undertaken from a variety of different regional perspectives with varied composite agenda. She shuns traditional, deterministic explanations that notorious Balkan hatreds or any other kind of exceptionalism are to blame for Yugoslavia's demise, and along the way she highlights the agency of twentieth-century modern mass society in the politicization of differences. While

analyzing nuanced political and social-economic processes, Calic describes the experiences and emotions of ordinary people in a vivid way. As a result, her groundbreaking work provides scholars and learned readers alike with an accessible, trenchant, and authoritative introduction to Yugoslavia's complex history. Diefenbach describes in her series *Land Ohne Eltern* (Country Without Parents) the life choices faced by migrant workers from the republic of Moldova, one of the poorest countries in Europe. In her photographs, the distance between the two utterly different worlds of the children left at home and the parents working in far-off lands become almost painfully tangible.

University of Chicago Press
This new handbook, written in English, illustrates the current state as well as future developments of the digital transformation on the legal market. It thereby gives an overview of the legal tech field worldwide as well as examples of its application

in order to show how and to which extent automatized workflows, artificial intelligence (AI), automatized generation of documents and contract management in law firms and companies are in use even today. This book, in its first part originally written for Germany and German speaking countries, now also exemplifies the development of legal tech in

numerous jurisdictions, including the USA, Europe, Russia, China and Australia. A third section is devoted to future developments, including smart contracts, block chain, AI, and publishers as legal service providers. More than 50 authors from all over the globe have contributed to this unique book. Particularly helpful: up-to-date examples show how legal tech is already in use in various

<p>fields of application in the context of jurisprudence. <u>Theory and Practice of Contemporary Pharmaceutics</u> Purdue University Press</p> <p>Der Band stellt die Aufgaben und Aktivitäten der Organisation für Sicherheit und Zusammenarbeit in Europa von der Konfliktverhütung und Krisenbewältigung über die Förderung von Demokratie und Menschenrechten bis zu Rüstungskontr</p>	<p>olle dar - wissenschaftliche Analysen und Berichte aus der politischen und diplomatischen Praxis. <i>eIDAS-Regulation</i> Schäffer-Poeschel</p> <p>Now in its fifth edition, this successful text introduces the basic principles and underlying concepts of accounting and finance. It adopts a practical, non-technical approach, making it the ideal text for students from non-</p>	<p>accounting disciplines. The text is written from a 'user' perspective, demonstrating ways in which accounting statements and financial information can be used to improve the quality of decision making. <i>Country Without Parents</i> Vahlen</p> <p>Pookie is a children's book about a rabbit with wings. However, it had not been reprinted in many years and had never been published in the United States of America. Pookie appears on the Bookfinder's list of 100 books most searched for that are out of print. Therefore we have decided to reprint it to give American children the opportunity to learn about Pookie. This was the first book about Pookie. After Pookie became popular, there were several more books: Pookie (1946) Pookie and the Gypsies (1947) Pookie Puts the World Right (1949) Pookie in Search of a Home (1951) Pookie believes in Santa Claus (1953) Pookie at the Seaside (1956) Pookie's Big Day (1958) Pookie and the Swallows (1961) Pookie in Wonderland (1963) Pookie and his Shop (1966) *A History of Yugoslavia* ASTM International This work provides lawyers with more than 100 legal interpretation figures that are used by lawyers worldwide to justify their legal decisions. The book puts lawyers in a position, to develop - step by step - a solution for a hitherto unsolved legal problem in such a way that it convinces the opposing party of the content of his/her solution. The book covers - legal sources - classic and

modern figures of interpretation - the challenging concretisation and construction of law - influence of the constitution and European law as a higher-ranking law - determination of the limits of permissible further development of the law - and, very relevant for practice, the hermeneutics of facts The book benefits from a combination of classic and modern

methodology, a lively presentation with numerous examples from literature and jurisprudence and coverage of several cases for in-depth reflection. The work will be a significant tool for all those interested in the basics of law. Making Sense of Work Through Collaborative Storytelling Haufe-Lexware The true story of a young interpreter and her relationship

with the punk icon Sid Vicious. This story takes us behind the scenes of the Sex Pistols Scandinavian Tour of 1977 and shows the true characters of the band and their associates. Other peoples comments are speckled throughout the book, by people who were there. After Sid leaves Scandinavia other people who were present at the time, tell the story of what really happened to

Sid in New York and follow him all the way to spreading his ashes.

sense making

starts with

individual

stories.

Stories

influence how

we construct

our sense of

self in relation

to others and

our social

environment,

especially

within the

world of work.

The stories we

tell ourselves

at work,

particularly during times of change, impact our relationships and the collaboration with those who are engaged in the same work activities.

Stories that we take for granted as “common sense” may not resonate with others, leading to conflict and tensions. This book focuses on the development of collaborative practices at work, and in organisations, through Collaborative

Storytelling: from sharing stories to exchanging experiences and building a common narrative collectively. This open access book will be of interest to practitioners and academics working in the fields of adult education, equity and inclusion, human resource management, practice-based studies, organisational studies, qualitative research methods, sensemaking,

storytelling, and workplace identity.

Crashkurs Lohn- und Gehaltsabrechnung

Pearson Education
Ein attraktiver Arbeitsplatz, eine angemessene Vergütung, ein Zuschuss zur Kantine, Gleitzeit, Anerkennung und Wertschätzung sind wichtige Motivationsfaktoren zur Mitarbeiterbindung und -gewinnung. Auf der anderen Seite steht für Arbeitgeber die

wirtschaftliche Komponente, denn Löhne und betriebliche Sozialleistungen stellen für das Unternehmen Kosten dar. Die Optimierung von Entlohnungssystemen hat damit für beide Seiten einen hohen wirtschaftlichen Stellenwert. Nach einer kompakten Darstellung der Grundlagen der Lohn- und Gehaltsabrechnung gehen die Autoren auf die steuerrechtlichen und

verwaltungstechnischen Voraussetzungen zur Implementierung eines geeigneten Entgeltsystems ein. Dadurch lässt sich eine geeignete Datenbasis für das Personalcontrolling, die Personalstatistik und auch die Personalkostenplanung entwickeln. Doch die Autoren lassen es in diesem Buch nicht bei einer reinen deskriptiven Darstellung der betriebswirtschaftlichen

Sicht, sondern gehen vielmehr auch auf politisch-ethische und moralisch fragwürdige Geschäftsmodelle sowie Steuerhinterziehung von Eliten ein. A Vicious Love Story Springer Nature Charlemagne was the first emperor of medieval Europe and almost immediately after his death in 814 legends spread about his military and political prowess and the cultural glories of his court at Aix-la-Chapelle.

Entgeltmanagement Haufe-Lexware This absorbing, sensitive novel portrays a famed author in a moment of crisis: an aging Hugo von Hofmannsthal returns to a summer resort outside of Salzburg that he visited as a child. But in the spa town where he once thrilled to the joys of youth, he now feels unproductive and uninspired, adrift in the modern world born after World War

One. Over ten days in 1924 in a ramshackle inn that has been renamed the Grand Hotel, Hofmannsthal fruitlessly attempts to complete a play he's long been wrestling with. The writer is plagued by feelings of loneliness and failure that echo in a buzz of inner monologues, imaginary conversations and nostalgic memories of relationships with glittering cultural figures. Palace of Flies

conjures up an individual state of distress and disruption at a time of fundamental societal transformation that speaks eloquently to our own age.
