Porter's five forces analysis is a framework for analyzing the level of competition within an industry and business strategy development. It draws upon industrial

organization (IO) economics to derive five forces that determine the competitive intensity and therefore the attractiveness of an industry. Attractiveness in this context refers to the overall industry profitability. An "unattractive" industry is one in which the combination of these five forces acts to drive down overall profitability. A very unattractive industry would be one approaching "pure competition," in which available profits for all firms are driven to normal profit. This analysis is associated with its principal innovator Michael E. Porter of Harvard University. This updated and expanded second edition of Book provides a user-friendly introduction to the subject, Taking a clear structural framework, it guides the reader through the subject's core elements. A flowing writing style combines with the use of illustrations and diagrams throughout the text to ensure the reader understands even the most complex of concepts. This succinct and enlightening overview is a required reading for all those interested in the subject . We hope you

find this book useful in shaping your future career & Business.

This is a romantic look back at southern foods and foodways. Typical of many other such books following the Civil War, there is a touching, nostalgic (condescending) evocation of the author's

Mammy and her cooking. Painful as some of this is to read today, we find an underlying love and admiration for the Mammy and a feeling of loss for the "good old days." If one can pass by this aspect of the book, one can learn a great deal about an antebellum Southern kitchen. Every chapter contains good, solid Southern recipes. Many pages are required to discuss all the variations on the theme of the pig and pork: how to select, cure, pickle, make hams, hang hams, smoke, Render Lard, Prepare Fried Hog's Feet, Souse and Hog's Foot Oil and Jelly. We also have Barbecued Rabbit, Squirrel Smothered, Possum Roasted, Fried Chicken, Fig Pudding, Fried Pies, Sweet Potato Custard, Molasses Pie, Blackberry Mush, and Baked Peaches. There are sections on Creole Cookery, and fascinating discussions on the foods and festivities associated with special occasions - Weddings, Christmas, Birthday Barbecues, and Political Barbecues, among others.

With the ancient epic Mahabharat as her source, and the battle of

Kurukshetra as a central motif, Mahasweta Devi weaves three stories in which we visit unexpected alleys and by-lanes of the traditional epic saga, and look at events from the eyes of women marginalized, dispossessed, dalit. Their eyes condemn the wanton waste and inhumanity of war. This Kurukshetra is not the legendary Dharmayuddha of the popular imagination but rather a cold-blooded power game sacrificing countless human lives. How do the women s quarters of the palace, a colourless place of shadowy widowhood, appear to five peasant women whose lives are no less shattered by the Kurukshetra massacre, but who are used to dealing with trauma in a more robust manner? How does their outlook on life and survival influence the young pregnant princess who is abruptly plunged into the half-life of uppercaste widowhood? How does a lower caste serving woman, who was brought in to service king Dhritarashtra when his queen was with child, view her half-royal offspring and his decision to perform the last rites for a father who never acknowledged him as a

son? How does an ageing Kunti, living out her last years in the forest, come to terms with her guilt over her unacknowledged son, Karna? And, having finally voiced her shame aloud, how then does she face up to a crime she has not even remembered: the murder of a family of nishad forest dwellers? These tales, brewed in the imagination of a master story-teller, make us look at the Mahabharata with new eyes, insisting as they do on the inclusion, within the master narrative, of the fates and viewpoints of those previously unrepresented therein: women and the underclass. MAHASWETA DEVI is one of India s foremost writers. Her powerful, satiric fiction has won her recognition in the form of the Sahitya Akademi (1979), Jnanpith (1996) and Ramon Magsaysay (1996) awards, the title of Officier del Ordre Des Arts Et Des Lettres (2003) and the Nonino Prize (2005), amongst several other literary honours. She was also awarded the Padmasree in 1986, for her activist work amongst dispossessed tribal communities. ANJUM KATYAL is as an editor who has also translated several plays and short

stories.
