 This is an

illustrated history of the extraordinary Anglo-American Wheelwright family. In 1636 an outspoken Puritan, Reverend John Wheelwright, left his native Lincolnshire and headed for the new Boston Bay Colony. His stay in Massachusetts would be short lived. Persecuted and banished, Reverend John went on to found two New England towns and a dynasty which now spans six continents. The Wheelwrights

have produced explorers, engineers, clerics, consuls and a family of cannibals. There are philanthropists, philanderers, psychoanalysts, scientists, soldiers and sailors. A sea captain became a pirate. A lawyer became a gold-digging sportsman and a kidnapped child was transformed from Puritan to Catholic mother superior. The Wheelwright's

story, complete with black sheep and skeletons a-plenty, spans four centuries. Hundreds of illustrations and family charts, drawn from years of research, bring 580 pages of this most remarkable family's history to life. Hutton THE LIFE OF SIR WALTER SCOTT by J. G.	<b>Woman's Home Companion</b> Foundation Books No serious philosopher or student of philosophy can afford to neglect Wittgenstein's work. Professor Fogelin provides an authoritative critical evaluation of both the Tractatus Logico-Philosophicus and Philosophical Investigations, enabling the reader to come to grips with these difficult yet key works.	Fogelin explains Wittgenstein's attempt in the Tractatus to combine a picture theory of propositional structure, and also explores Wittgenstein's own criticisms of the Tractarian synthesis. He gives particular attention to topics in the philosophy of language, logic, psychology and the foundations of mathematics, examining Wittgenstein's work on these fields and arguing that

Wittgenstein's criticisms in these areas form the basis for a radically new standpoint in philosophy.
