## Young Readers

This is the Russian edition of the book: "The Art of Piano Fingering - Traditional, Advanced, and Innovative" by virtuoso concert pianist Rami Bar-Niv. The 212-page book was first published in English in 2012 and it is the first of its kind and scope in the history of piano playing. The book is intended for anyone who plays the piano, from children to college students, from adult amateur to professional piano teachers and performing pianists. The book teaches how to create your own efficient and injury-free piano fingering, starting with traditional, continuing with advanced, and concluding with innovative fingering. The book offers useful exercises and in addition to fingering issues it also deals with related piano playing techniques,

phrasing, and interpretation. The text is illustrated with countless score samples, pictures, and diagrams.

Endorsements/Reviews: \*\*\*"The Art of Piano Fingering by Rami Bar-Niv, fills a tremendous void in the realm of the pianistic world. Published in 2012, it is the first book of its kind in the 303 year history of the piano. Order a copy; you will be immensely grateful you did." Dr. Walden Hughes, Professor of Piano, Northwest Nazarene University. \*\*\*"Bar-Niv's book is superbly indexed and valuable as a reference source... he also analyzes difficulties, formulates solutions, and even suggests exercises to help us master difficult solutions... Bar-Niv suggests ingenious fingering solutions... Anyone who plays the piano with serious intentions can benefit from

reading and studying this book." Lyn Bronson, CA Music Teacher, Summer 2012. \*\*\*"This book is truly the first of its kind, and it is perhaps three hundred years overdue. The depth of coverage will surprise even the most accomplished pianists." Jeremy Todd, adult piano student. \*\*\*"Rami's new book on fingering is a "must have"! I highly recommend it to everyone." Kevin Coan, Moderator of the E-group "Piano-Teachers." \*\*\*"I highly second that recommendation. Linda Kennedy, piano teacher." \*\*\*"Bar-Niv gives many wonderful fingering tips for students, teachers, and performers. Becky Hughes, MTNA's "American Music Teacher." \*\*\*"You must not miss this outstanding book on piano fingering. Rami Bar-Niv's comprehensive coverage

of the subject belongs in every piano teacher's library. Reward yourself with this gem. We have waited 300 years for this book on piano fingering so read this review and then order it promptly. You will not only be richly rewarded with a resource you will refer to frequently but also take great pleasure in reading its clear, intriguing text. Highly recommended. Though this is the first known book devoted to this essential aspect of achieving beautiful, artistic, comfortable study and performance, it sets a high standard with its clear, comprehensive coverage of the subject. Do not hesitate to purchase this book for you will use it often to find a storehouse of solutions to keyboard puzzles. The Art of Fingering is an adventure into the resources of the human hand as well as

how to teach these explorations inventively and thoroughly from the elementary to the advanced levels. The piano has been with us for three centuries now, making this first book that is devoted to fingering a most valuable and much needed resource." Mary Gae George, NCTM, Co-author of *Artistry at the Piano*.

*The Piano Improvisation Handbook* Alfred Music Publishing

This manual gives musicians and other performers practical insights on every aspect of performance. Through real life examples and pre-performance exercises, Gordon also offers detailed and workable suggestions for solving the issues and problems associated with live performance.

(Technical Reference). More than simply the book of the award-winning DVD set, *Art & Science of Sound Recording*, the Book takes legendary engineer, producer, and artist Alan Parsons' approaches to sound recording to the next level. In book form, Parsons has the space to include more technical background information, more detailed diagrams, plus a complete set of course notes on each of the 24 topics, from "The Brief History of Recording" to the now-classic "Dealing with Disasters." Written with the DVD's coproducer, musician, and author Julian Colbeck, ASSR, the Book offers readers a classic "big picture" view of modern recording technology in conjunction with an almost encyclopedic list of specific techniques,

processes, and equipment. For all its heft and authority authored by a man trained at London's famed Abbey Road studios in the 1970s ASSR, the Book is also written in plain English and is packed with priceless anecdotes from Alan Parsons' own career working with the Beatles, Pink Floyd, and countless others. Not just informative, but also highly entertaining and inspirational, ASSR, the Book is the perfect platform on which to build expertise in the art and science of sound recording.

How to Improvise on Piano Hal Leonard Corporation

This new series features carefully selected performance repertoire of the great masters from all eras. Each piece is accessible to students and creates a feeling of accomplishment. Diverse in

style and expression, each selection features melodic, rhythmic, or harmonic patterning to allow for ease in teaching and memorization. The CD, performed by Valery Lloyd-Watts, provides a powerful auditory tool for musical interpretation. Lloyd-Watts studied at the Conservatory of Music in Toronto and the Royal College of Music in London. She earned a Master of Music degree from the University of Wisconsin, where she studied with Paul Badura-Skoda. She co-authored the text *Studying Suzuki Piano: More than Music*, which was endorsed by Dr. Suzuki.

**The Art of the Piano** Lorenz Publishing Company

"This classic was written by a student of Godowsky and legendary piano teacher whose practical advice on tone,

technique, teaching, and other subjects is seasoned with personal experiences and leavened with humor"--

**The Art of Practicing** Schirmer Trade Books

Great modern teacher and pianist's concise statement of principles, technique, and related material. Includes 10 musical examples.

*The Art of Piano Fingering* Hal Leonard Corporation

Walking his two young children to school every morning, Thad Carhart passes an unassuming little storefront in his Paris neighborhood. Intrigued by its simple sign—Desforges Pianos—he enters, only to have his way barred by the shop's imperious owner. Unable to stifle his curiosity, he finally lands the proper introduction, and a world previously

hidden is brought into view. Luc, the atelier's master, proves an indispensable guide to the history and art of the piano. Intertwined with the story of a musical friendship are reflections on how pianos work, their glorious history, and stories of the people who care for them, from amateur pianists to the craftsmen who make the mechanism sing. The Piano Shop on the Left Bank is at once a beguiling portrait of a Paris not found on any map and a tender account of the awakening of a lost childhood passion. Praise for *The Piano Shop on the Left Bank*: "[Carhart's] writing is fluid and lovely enough to lure the rustiest plunker back to the piano bench and the most jaded traveler back to Paris." -San Francisco Chronicle "Captivating . . . [Carhart] joins the tiny company of

foreigners who have written of the French as verbs. . . . What he tries to capture is not the sight of them, but what they see.” –The New York Times “Thoroughly engaging . . . In part it is a book about that most unpredictable and pleasurable of human experiences, serendipity. . . . The book is also about something more difficult to pin down, friendship and community.” –The Washington Post “Carhart writes with a sensuousness enhanced by patience and grounded by the humble acquisition of new insight into music, his childhood, and his relationship to the city of Paris.” –The New Yorker

Curator Sandy Davis provides a brief introduction to this collection of drawings by architect and artist Diebboll. The drawings are of imaginary pianos, each created in response to an idea, a person, a feeling, an odd juxtaposition--stretching the idea of what a piano could be once mass production is not a consideration. Each illustration is accompanied by the artist's explanatory text. The book is 5.5x8". Annotation copyrighted by Book News, Inc., Portland, OR

**The Art of Piano Playing** Alfred Music

After a tsunami strikes the city of Kamaishi, Japan, a church finds their beloved piano upside down and covered in a big pile of mud and debris. Rather than throw it out, they decide to spend the enormous amounts of time and

money necessary to fix it. Inspired by a true story, "Pippy the Piano and the Very Big Wave" helps children understand the meaning of redemption.

**Pippy the Piano and the Very Big Wave** Hal Leonard Corporation

Master arranger Mark Hayes returns to the golden era of contemporary Christian music with songs made famous by Amy Grant, Sandi Patty, Michael W. Smith, and other favorites. These challenging arrangements will appeal to pianists who enjoy making full use of the instrument. A listening CD recorded by Mark himself is also available separately.

*The Art of the Pianist* Createspace

Why and how do music and abstract art pack such universal appeal? Why do they often have 'therapeutic' efficacy? Between Couch and Piano links well-established psychoanalytic ideas with historical and neurological theory to help us begin to understand some of the reasons behind music's ubiquity and power. Drawing on new psychoanalytic understanding as well as advances in neuroscience, this book sheds light on the role of the arts as stimulus, and as a key to creative awareness. Subjects covered include: \* music in relation to the trauma of loss \* music in connection with wholeness and the sense of identity

\* the ability of music to jump-start normal feelings, motion and identity where these have been seemingly destroyed by neurological disease \* the theory of therapeutic efficacy of music and art. Between Couch and Piano is a comprehensive overview that will be of interest to all those intrigued by the interrelation of psychoanalysis and the creative arts.

### **Mastering the Art of Piano Sight Reading** CreateSpace

This book is intended for an intermediate/advanced pianist who would like to learn more about the art of improvisation. Some of the topics discussed in this book are: how to improvise over a chord progression, how to improvise in various genres including:

classical, jazz, blues, funk and rock, how to emulate your favorite players, how to create your own musical ideas and develop your own sound, how to improvise based on a mood/feeling, how to use chords, scales and arpeggios and much more! It has never been easier to learn this art form. Never has there been a book that guides you along every step of the way from pressing the first note all the way to playing a full-length unique improvisation! If you would like to become a great improviser with your own unique sound and have hundreds of new ideas on how to approach this art form, this is the book for you!

Mastering the Art of Performance Alfred Music Publishing (Amadeus). This holistic approach to the keyboard, based on a sound

understanding of the relationship between physical function and musical purpose, is an invaluable resource for pianists and teachers. Professor Fink explains his ideas and demonstrates his innovative developmental exercises that set the pianist free to express the most profound musical ideas. **HARDCOVER.**

The Ultimate Piano Beginner's Guide

David R. Godine Publisher

Eighty-three popular piano classics arranged for the beginning student are accompanied by a short history of each piece and advice on playing each arrangement.5NjBwBT

The Art of the Piano : Drawings Random House Trade Paperbacks

This unique text uses a step-by-step approach to guide the reader from fundamental concepts to advanced

topics in improvisation. Each subject is broken into easy to understand segments, gradually becoming more complex as improvisational tools are acquired. Designed for the classically trained pianist with little or no experience in improvisation, it uses the reader's previous knowledge of basic theory and technique to help accelerate the learning process. Included are more than 450 music examples and illustrations to reinforce the concepts discussed. These concepts are useful in all improvisational settings and can be applied to any musical style. For pianists interested in jazz, there are three chapters dedicated to introducing jazz improvisation, which can be used as the basis for further study in this idiom. Teachers using this text can go online to

[www.improvisationatthepiano.com](http://www.improvisationatthepiano.com) to download lesson plans, ask specific questions about improvisation, and view answers to the most frequently asked questions about this book.

### **Basic Principles in Pianoforte**

**Playing** Oxford University Press

An illustrated guide for the amateur and professional musician that teaches us

how to transform practicing from an often laborious activity into an exhilarating and rewarding experience  
Foreword by Yehudi Menuhin • "Give this book to any musician you love and to any person who loves what music does for them and for the world."—Richard Stoltzman, clarinetist  
In *The Art of Practicing*, acclaimed pianist and teacher Madeline Bruser combines physiological and meditative principles to help musicians release physical and mental tension and unleash their innate musical talent. She offers practical techniques for cultivating free and natural movement, a keen enjoyment of sounds and sensations, a clear and relaxed mind, and an open heart and she explains how to:

- Prepare the body and mind to practice with ease
- Understand the

effect of posture on flexibility and expressiveness • Make efficient use of the hands and arms • Employ listening techniques to improve coordination • Increase the range of color and dynamics by using less effort • Cultivate rhythmic vitality • Perform with confidence, warmth, and freedom

Complete with photographs to show essential points of posture and movement for a variety of instruments, this is the definitive guide to turning practice from a sometimes frightening, monotonous chore to a fun, fulfilling activity.
