The Clarinet in the Classical Period Oxford University Press, USA
Includes entries for maps and atlases.

Stravinsky's Histoire Du Soldat Rowman & Littlefield

A comprehensive study of the clarinet in use through the classical period, 1760 to 1830, a period of intensive musical experimentation. The book provides a detailed review and analysis of construction, design, materials, and makers of clarinets. Rice also explores how clarinet construction and performance practice developed in tandem with the musical styles of the period.

University of Michigan Official Publication A-R Editions, Inc.

The first edition of Albert R. Rice's *The Baroque Clarinet* is widely considered the authoritative text on the European clarinet during the first half of the eighteenth century. Since its publication in 1992, its conclusions have influenced the approaches of musicologists, instrument historians, and clarinet performers. Twenty-eight years later, Rice has updated his renowned study in a second edition, with new chapters on chalumeau and clarinet music, insights on newly found instruments and additional material on the Baroque clarinet in society. Expanding the volume to include the chalumeau, close cousin and predecessor to the clarinet, Rice draws on nearly three decades of new research on the instrument's origins and music. Discoveries include two recently found chalumeaux in a private collection, one by Johann Heinrich Eichentopf of Leipzig, and attributions based on historical evidence for three more chalumeaux. Rice furthers the discussion to recently uncovered early instruments and historical scores, which shed light on the clarinet's evolution. Most essentially, Rice highlights the chalumeau's substantial late-seventeenth and early-eighteenth century repertory, comprising over 330 works by 66 composers, and includes a more expansive list of surviving Baroque clarinet works, organized by date, composer, and tonality/range. The *Baroque Clarinet and Chalumeau* provides a long-awaited follow-up to Rice's groundbreaking volume, drawing from a variety of sources-including German, Italian, Dutch, Swedish, Norwegian, Danish, Finnish, Flemish, Czech, and Catalan research-to bring this new information to an English-speaking audience. With his dedication to scholarly accuracy, Rice brings the Baroque clarinet into sharper focus than ever before.

Olivier Messiaen: Journalism 1935-1939 Routledge

A 'conservative radical' is William Alexander Eddie's description of the French virtuoso composer-pianist Charles Valentin Alkan (1813-1888). Judaic culture, the French baroque and German classicism were the main influences on Alkan's musical style, with more radical musical tendencies found in many of the *Esquisses* op 63. This comprehensive survey takes as its focus a stylistic analysis of Alkan's compositions from the apprentice works to the later 'massed style' etudes; the latter are of considerable length and pianistic difficulty. There is also consideration of Alkan's achievements as pianist and teacher, and the sections on performance practice in Alkan will be of interest to pianists today. A full investigation of Alkan's reception history is also included and useful appendices provide a guide to further archival research. A list of works and basic discography complete this new study of an important French composer.

Daniels' *Orchestral Music* is the gold standard reference for conductors, music programmers, librarians, and any other music professional researching an orchestral program. This sixth edition, celebrating the fiftieth anniversary of the original work, includes over 14,000 entries with a vast number of new listings and updates.

European Music Catalogue UM Libraries

Camille Saint-Saëns 1835-1921: A Thematic Catalogue of his Complete Works defines the achievement of this great French composer. All his musical works are presented: the well-recognized masterpieces, the childhood sketches, the unpublished compositions, and the previously unknown pieces now revealed for the first time. This comprehensive collection fully documents the composer's extraordinary contribution to the musical world. Volume 1 concentrates specifically on his Instrumental output, while the two later volumes will cover Dramatic Works and Choral & Vocal Works respectively.

Charles Valentin Alkan Scarecrow Press

One of the foremost composers of the twentieth century, Olivier Messiaen wrote widely on his music and on his beliefs. This is the first edition of his early journalism and provides both the original French text and an English translation. The writing in this volume dates from the 1930s, before the composer gained the international reputation that he and his music now enjoy. The pieces he wrote range from reviews of individual performances to essays on particular works or composers and articles that discuss more general themes such as sincerity of expression in music. Many of the articles included in this collection are new to the Messiaen bibliography, and others are available here for the first time in English. A number are, as Broad describes them, 'quietly shocking' in that they force us to reappraise certain aspects of the composer such as his role in *La Jeune France*, and his wider participation in the debates of his time. This edition, therefore, represents a new source for understanding Messiaen and provides a fascinating glimpse of the composer in the early part of his career.

General Register

Heitor Villa-Lobos was the most famous, and charismatic twentieth century Brazilian composer. This book, based on the composer's private papers and correspondence, describes the gradual development from his first struggles to world wide recognition of the individuality of his compositions and his influence on the generation of musicians and composers of the late twentieth and twenty first century. Essential reading for anyone who has ever succumbed to the magic and power of Villa-Lobos's music and to anyone interested in the arts of Brazil over the last century.
