Today we face a unique dichotomy between the wisdom of the Baby Boomer generation and the passion of Generation Y. According to Wisdom Meets Passion, the question is not which is right, but rather how can the two work together? Wisdom, meet passion. Passion, wisdom. By bringing these two voices to the issue, this book takes readers through familiar plights, such as understanding the American Dream, the quest for security, and work that matters—regardless of age. STONY MAN For the seasoned warriors of America's most elite and covert defense unit, each mission could be their last. Now a grim Presidential directive comes down hard, green-lighting a desperate search-and-destroy operation where minutes count. An unknown entity is in possession of one of the

deadliest weapons known to man, sounding a death knell for nations across the globe. NEUTRON CANNON It kills instantly. No heat, no noise, no radiation. Just silent, invisible slaughter from ultra-fast subatomic particles. The death toll mounts in a random, controlled carnage that is sending a clear message of absolute power—while leaving false trails and conflicting clues. Based on the provocative and popular New York Times op-ed, this memoir alternates between the examination of a working-class upbringing and a cultural analysis of the historical, psychological, and sociological sources that make up the roots of toxic masculinity and its impact on society. As progressivism changes American society, and globalism shifts labor away from traditional manufacturing, the roles that have been prescribed to men since the Industrial Revolution have been rendered obsolete. Donald Trump's campaign successfully leveraged male resentment and entitlement, and now, with Trump as president and the rise of the #MeToo movement, it's clear that our current definitions of masculinity are outdated and even dangerous. Deeply personal and thoroughly researched, the author of *The People Are Going to Rise Like the Waters Upon Your Shore* has turned his keen eye to our current crisis of masculinity using his upbringing in rural Indiana to examine the personal and societal dangers of the patriarchy. *The Man They Wanted Me to Be* examines how we teach boys what's expected of men in America, and the long-term effects of that socialization—which include depression, shorter lives, misogyny, and suicide. Sexton turns his keen eye to the establishment of the racist patriarchal structure which has favored white men, and investigates the personal and societal dangers of such outdated definitions of manhood. "By carefully and soberly examining his own story, Sexton deconstructs American life and gives many examples of how pervasive toxic masculinity is in our culture." —Henry Rollins, Los Angeles Times "This book is critically important to our historical moment . . . Crackles with intensity and absolutely refuses to allow the reader to look away for even a moment from the blight that toxic masculinity in America has wrought." —Nicholas Cannariato, NPR

*Esoteric Psychology - The Seven Rays*: The knowledge of the Seven Rays provided by this book will prove of immense value to all who seek to understand human nature, and to achieve enhanced self awareness and integration of personality, in themselves and others. This masterly written and illustrated manual is an absolutely essential starting and reference work for all those who finally respond in this lifetime to their Purpose and Inner Voice! This book emphasises that all is energy and that Man is an energy unit affected from both without and within. It demonstrates that Ray Psychology is essentially practical and shows how the qualities of these energies may be understood and embraced in human behaviour and today's language. It is plain that psychology will play an ever increasing role in the development of new age consciousness. Already today millions of people, who would be regarded as laymen, practise their own psychology in everyday life. This tendency has been boosted by the general interest in astrology. A glimpse into the future will show that the new psychology will be based on many emerging astrological factors. Esoteric psychology takes into account not only hereditary and environment, but draws also upon that massive third factor which is the psychic and spiritual nature of Mankind. The effect of karma, the influence of previous lives, etc., are major contributions to the behaviour of those who seek to tread the path towards spiritual enlightenment. Esoteric Psychology is based on two major precepts. Firstly, there is a cosmic force conveying seven streams of energy into our solar system that affect the nature, behaviour and evolution of all forms within the ring-pass-not of this system. These streams are termed the Seven Rays. Secondly, spiritual qualities emerging from the immortal component of Man's structure affect his behaviour and modify the contributing factors of his hereditary equipment and the environment into which it is thrust.
