Buku ini terkumpul dari artikel pilihan yang dimuat di fokus Islam.com. Media online ini menjadi pilihan karena bersedia memuat tulisan-tulisan yang membela kepentingan umat Islam. Tidak banyak media yang bersedia memuat tulisan-tulisan yang melawan media mainstream, khususnya pihak-pihak yang phobia pada Islam. Yang banyak, justru media mainstream justru ikut larut, dan bahkan menjadi bagian dari upaya untuk menyudutkan umat Islam. Islam seringkali dituduh sebagai agama yang menopang gagasan-gagasan intoleran. Tidak heran bila ketika muncul tindakan-tindakan terorisme dan radikalisme, dengan serta merta Islam menjadi sasaran tuduhan.

could only be a few winners, and a lot of losers. And yet we played on, because we had hope that we might be the lucky ones." In the early 1900s, teenaged Sunja, the adored daughter of a crippled fisherman, falls for a wealthy stranger at the seashore near her home in Korea. He promises her the world, but when she discovers she is pregnant--and that her lover is married--she refuses to be bought. Instead, she accepts an offer of marriage from a gentle, sickly minister passing through on his way to Japan. But her decision to abandon her home, and to reject her son's powerful father, sets off a dramatic saga that will echo down through the generations. Richly told and profoundly moving, Pachinko is a story of love, sacrifice, ambition, and loyalty. From bustling street markets to the halls

of Japan's finest universities to the pachinko parlors of the criminal underworld, Lee's complex and passionate characters--strong, stubborn women, devoted sisters and sons, fathers shaken by moral crisis--survive and thrive against the indifferent arc of history. \*Includes reading group guide\*

"Fresh, original, and brings together in one place a set of authors who are very important to the field." -- Mary Margaret Fonow, coeditor of *Beyond Methodology: Feminist Scholarship as Lived Research*

"Finally, a collection dedicated to demonstrating precisely what it means to do feminist research " -- Madonna Harrington Meyer, University of Illinois at Urbana-Champaign

How likely is feminist

research to promote change in society? Are some research methods more successful at bringing about change than others? Contributors to this volume discuss principles of feminist inquiry, providing examples from their own experience and evaluating research practices for their potential to promote social change. The twelve chapters cover methodologies including ethnographic study, in-depth interviewing, naming, and going public. Also explored are consultative relationships between academic researchers and activist organizations, participatory and advocacy research processes, and coalition building.

"Why write together?" the authors ask. They answer that question here, in the

first book to combine theoretical and historical explorations with actual research on collaborative and group writing. Lisa Ede and Andrea Lunsford challenge the assumption that writing is a solitary act. That challenge is grounded in their own personal experience as long-term collaborators and in their extensive research, including a three-stage study of collaborative writing supported by the Fund for the Improvement of Post-Secondary Education. The authors urge a fundamental change in our institutions to accommodate collaboration by radically resituating power in the classroom and by instituting rewards for collaborative work that equal rewards for single-authored work. They conclude with the injunction: "Today and in the

twenty-first century, our data suggest, writers must be able to work together. They must, in short, be able to collaborate."

Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or

more years ago. Books from that period are often spoiled by imperfections that did not exist in the original.

Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride

ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. How do different artistic and cultural practices develop in the contemporary consumer culture? Providing a new direction in cultural studies as well as a vigorous defence of the field, Angela McRobbie's new collection of essays considers the social consequences of cultural proliferation and the social basis

of aesthetic innovation. In the wake of postmodernism, McRobbie offers a more grounded and even localised account of key cultural practices, from the new populism of young British artists, including Damien Hirst and Tracy Emin, to the underground London sounds of drum'n'bass, discussing music by artists such as Tricky, Talvin Singh and Goldie; from the new sexualities in girls' and women's magazines like *More!* and *Sugar* to the dynamics of fashion production and consumption. Throughout the essays the author returns to issues of livelihoods and earning a living in the cultural economy, while at the same time pressing the issue of cultural value.

Despite societal constraints that would seem insurmountable, 19th century African American women spoke out on topics such as universal suffrage, mob violence, and social and education reform. This anthology introduces the rhetoric of seven extraordinary women and, in addition, provides historical background and biographical data for each. Life-expectancy worldwide is twice what it was a hundred years ago. And because of modern medicine, many of us don't often see death up close. That makes it easy to live as if death is someone else's problem. It isn't. Ignoring the certainty of death doesn't protect us from feeling its effects throughout the lives we're living now. But this avoidance can hold us back from experiencing the powerful, everyday relevance of Jesus's promises to us. So long as death remains remote and unreal, Jesus's promises will too. But honesty about death brings hope to life.

That's the ironic claim at the heart of this book. Cultivating "death-awareness" helps us bring the promises of Jesus from the hazy clouds of some other world into the everyday problems of our world—where they belong.
