The Ottomans Routledge

The most dramatic, revealing and little-known story in Turkey's history - which illuminates the nation 'Through the spellbinding career of a single, ill-fated leader, Jeremy Seal illuminates a bitterly divided country' Colin Thubron 'Read this book if you're interested in Turkey. Read it if you're interested in power, hubris and redemption. Read it' Christopher de Bellaigue, author of *The Islamic Enlightenment* In the spring of 2016 travel writer Jeremy Seal went to Turkey to investigate perhaps the most dramatic, revealing and little-known episode in the country's history - the 'original' coup of 1960, which deposed the traditionalist Prime Minister Adnan Menderes. The story of Menderes - to his

adoring supporters the country's founding democrat; to his sworn enemies its most infamous traitor - goes to the heart of the feud that continues to rage between the Western and secular ambitions of a minority elite and the religious and conservative instincts of the small-town majority. *A Coup in Turkey* is a thrilling account of the events leading up to the coup and the trials and executions that followed, a story of political subterfuge and score-settling, courtroom drama, state execution, authoritarian intolerance and ideological division. Seal travels through President Erdogan's Turkey, tracking down eye-witness accounts from survivors of the Menderes era in Istanbul, the historic metropolis, and the new capital at Ankara. As he expertly

guides us through this extraordinary story, so the compelling parallels between past and present become strikingly clear, and he illuminates this troubled nation with a deep sympathy and love for the people and places he writes about. By focussing on one key event - one which many Turks regard with shame - this evocative, gripping portrait of Turkey recentres our understanding of the past and makes sense of one of Europe's most bewildering yet intriguing neighbours. 'A wonderful writer' Robert Macfarlane

A Sultan in Autumn Farrar, Straus and Giroux

From a leading scholar of the Middle East and North Africa comes a new way of thinking about the Arab Spring and the meaning of revolution. From the

standpoint of revolutionary politics, the Arab Spring can seem like a wasted effort. In Tunisia, where the wave of protest began, as well as in Egypt and the Gulf, regime change never fully took hold. Yet if the Arab Spring failed to disrupt the structures of governments, the movement was transformative in farms, families, and factories, souks and schools. Seamlessly blending field research, on-the-ground interviews, and social theory, Asef Bayat shows how the practice of everyday life in Egypt and Tunisia was fundamentally altered by revolutionary activity. Women, young adults, the very poor, and members of the underground queer community can credit the Arab Spring with steps toward equality and freedom. There is also potential for further progress, as

women's rights in particular now occupy a firm place in public discourse, preventing retrenchment and ensuring that marginalized voices remain louder than in prerevolutionary days. In addition, the Arab Spring empowered workers: in Egypt alone, more than 700,000 farmers unionized during the years of protest. Labor activism brought about material improvements for a wide range of ordinary people and fostered new cultural and political norms that the forces of reaction cannot simply wish away. In Bayat's telling, the Arab Spring emerges as a paradigmatic case of "revolution" — a revolution that engenders reform rather than radical change. Both a detailed study and a moving appeal, *Revolutionary Life* identifies the social gains that were won through resistance.

Atatürk Europa Editions

This biography of Atatürk aims to strip away the myth to show the complexities of the man beneath. Mustafa Kemal Atatürk, founding father of the Turkish Republic, was born plain Mustafa in Ottoman Salonica in 1881. Trained as an army officer, he was virtually unknown until 1919, when he took the lead in thwarting the victorious Allies' plan to partition the Turkish core of the Ottoman Empire. He divided the Allies, worsted the last Sultan and secured the territory of the Turkish national state, becoming the first president of the new republic in 1923, transforming it from a battle-scarred ruin into a regional power, and fast creating his own legend and his own cult.

Political Leadership and Erdoğan

Bloomsbury Publishing

Recep Tayyip Erdogan has ruled Turkey for nearly two decades. Here, Soner Cagaptay, a leading authority on the country, offers insights on the next phase of Erdogan's rule. His dwindling support base at home, coupled with rising opposition, the impact of the Covid-19 pandemic, and Turkey's weak economy, would appear to threaten his grip on power. How will he react? In this astute analysis, Cagaptay casts Erdogan as an inventor of nativist populist politics in the twenty-first century. The Turkish president knows how to polarize the electorate to boost his base, and how to wield oppressive tactics when polarization alone cannot win elections. Cagaptay contends that Erdogan will cling to power-with severe costs for

Turkey's citizens, institutions, and allies. The associated dynamics, which carry implications far beyond Turkey's borders-and what they portend for the United States-make *A Sultan in Autumn* a must-read for all those interested in Turkey and the geopolitics of the next decade.

Why Turkey is Authoritarian The New Sultan

Turkish President Recep Tayyip Erdoğan has dominated the country's politics for more than two decades. To answer the question how one man was able to remain popular for such a long period of time, it is necessary to understand his leadership secrets. In *Political Leadership and Erdoğan*, former cabinet minister and long-time Erdoğan aide Yalçın Akdoğan provides valuable

insights into the Turkish president's leadership profile and explains how he relates to centuries-old theories of leadership in Turkish and Islamic thought. This book is appropriate for political scientists, international relations experts, practitioners and historians as well as scholars of Turkey, the Middle East and Eastern Europe. It is also intended to supplement courses in leadership development, political communication and public relations theory.

Modern Turkey and Under the New Sultan Tayyip Erdoğan HarperCollins UK
 New Edition of the Leading Work on Modern Turkey In a world of rising tensions between Russia and the United States, the Middle East and Europe, Sunnis and Shiites, Islamism and

liberalism, Turkey is at the epicentre. And at the heart of Turkey is its right-wing populist president, Recep Tayyip Erdoğan. Since 2002, Erdoğan has consolidated his hold on domestic politics while using military and diplomatic means to solidify Turkey as a regional power. His crackdown has been brutal and consistent - scores of journalists arrested, academics officially banned from leaving the country, university deans fired and many of the highest-ranking military officers arrested. In some senses, the nefarious and failed 2016 coup has given Erdoğan the licence to make good on his repeated promise to bring order and stability under a 'strongman'. Here, leading Turkish expert Soner Cagaptay will look at Erdoğan's roots in Turkish

history, what he believes in and how he has cemented his rule, as well as what this means for the world. The book will also unpick the 'threats' Erdogan has worked to combat - from the liberal Turks to the Gulen movement, from coup plotters to Kurdish nationalists - all of which have culminated in the crisis of modern Turkey.

For the last century, the Western world has regarded Turkey as a pivotal case of the 'clash of civilisations' between Islam and the West. Why Turkey is Authoritarian offers a radical challenge to this conventional narrative. Halil Karaveli highlights the danger in viewing events in Turkey as a war between a 'westernising' state and the popular masses defending their culture and

religion, arguing instead for a class analysis that is largely ignored in the Turkish context. This book goes beyond cultural categories that overshadow more complex realities when thinking about the 'Muslim world', while highlighting the ways in which these cultural prejudices have informed ideological positions. Karaveli argues that Turkey's culture and identity have disabled the Left, which has largely been unable to transcend these divisions. This book asks the crucial question: why does democracy continue to elude Turkey? Ultimately, Karaveli argues that Turkish history is instructive for a left that faces the global challenge of a rising populist right, which succeeds in mobilising culture and identity to its own purposes. Explains the social, economic, and historical origins of the ruling Justice and Development Party, offering keen insight into one of the most successful transformations of an Islamic movement in the Muslim world.

A Fez of the Heart Simon and Schuster

Turkey has leapt to international prominence as an economic and political powerhouse under its elected Muslim government, and is looked on by many as a model for other Muslim countries in the wake of the Arab Spring. This book reveals how Turkish national identity and the meanings of Islam and secularism have undergone radical changes in today's Turkey, and asks whether the Turkish model should be viewed as a

success story or cautionary tale. Jenny White shows how Turkey's Muslim elites have mounted a powerful political and economic challenge to the country's secularists, developing an alternative definition of the nation based on a nostalgic revival of Turkey's Ottoman past. These Muslim nationalists have pushed aside the Republican ideal of a nation defined by purity of blood, language, and culture. They see no contradiction in pious Muslims running a secular state, and increasingly express their Muslim identity through participation in economic networks and a lifestyle of Islamic fashion and leisure. For many younger Turks, religious and national identities, like commodities, have become objects of choice and forms of personal expression. This

provocative book traces how Muslim nationalists blur the line between the secular and the Islamic, supporting globalization and political liberalism, yet remaining mired in authoritarianism, intolerance, and cultural norms hostile to minorities and women.

Erdogan Rising: The Battle for the Soul of Turkey I.B. Tauris

Turkey is on the front line of the war which is consuming Syria and the Middle East. Its role is complicated by the long-running conflict with the Kurds on the Syrian border - a war that has killed as many as 80,000 people over the last three decades. In 2011 President Erdogan promised to make a deal with the PKK (Kurdistan Workers' Party), but the talks marked a descent into assassinations, suicide bombings and

the killing of civilians on both sides. The Kurdish peace process finally collapsed in 2014 with the spillover of the Syrian civil war. With ISIS moving through northern Iraq, Turkey has declared war on Western allies such as the Kurdish YPG (People's Protection Unit) - the military who rescued the Yezidis and fought with US backing in Kobane. Frontline Turkey shows how the Kurds' relationship with Turkey is at the very heart of the Middle Eastern crisis, and documents, through front-line reporting, how Erdogan's failure to bring peace is the key to understanding current events in Middle East.

The Rise of Turkey Oxford University Press

The Turkey of today little resembles that of recent decades. Its economy has

expanded hugely, new political elites have emerged, and the once powerful Kemalist military is no longer a potent and dominant political player. Meanwhile, new prosperity has had many unexpected social and political repercussions, pre-eminent among which is the advent of the Justice and Development Party (AKP), which first came to power in 2002 by downplaying its Islamist leanings and marketing itself as a center-right party. After several terms in office, and amid unprecedented popularity, the conduct of the AKP and its leading cadres has faced growing criticism. Turkey has yet to solve its Kurdish question, and its foreign policy is increasingly under threat as it balances relations with Iran, Israel, Iraq and Russia, to name only a few of its more

demanding interlocutors. Widespread domestic protests gripped the country in 2013. The government is now perceived by many to be corrupt, unaccountable, intimidating of the press and intolerant of alternative political views and criticism. Has this once promising democracy descended into a tyranny of the majority led by a charismatic leader, Recep Tayyip Erdogan? Is Turkey more polarized now than ever in its recent history? These are among the questions posed in this timely primer on a rising economic power.

 Bloomsbury Publishing

Turkey stands at the crossroads of the Middle East--caught between the West and ISIS, Syria and Russia, and governed by an increasingly forceful leader.

Acclaimed writer Kaya Genc has been covering his country for the past decade. In *Under the Shadow* he meets activists from both sides of Turkey's political divide: Gezi park protestors who fought tear gas and batons to transform their country's future, and supporters of Erdogan's conservative vision who are no less passionate in their activism. He talks to artists and authors to ask whether the New Turkey is a good place to for them to live and work. He interviews censored journalists and conservative writers both angered by what has been going on in their country. He meets Turkey's Wall Street types who take to the streets despite the enormity of what they can lose as well as the young Islamic entrepreneurs who drive Turkey's economy. While talking to

Turkey's angry young people Genc weaves in historical stories, visions and mythologies, showing how Turkey's progressives and conservatives take their ideological roots from two political movements born in the Ottoman Empire: the Young Turks and the Young Ottomans, two groups of intellectuals who were united in their determination to make their country more democratic. He shows a divided society coming to terms with the 21st Century, and in doing so, gets to the heart of the compelling conflicts between history and modernity in the Middle East.

The New Sultan I.B. Tauris

No Country for Old Men Oxford University Press

Gradually since 2003, Turkey's autocratic leader Recep Tayyip Erdogan has sought to make Turkey a great power -- in the tradition of past Turkish leaders from the late Ottoman sultans to Ataturk, the founder of modern Turkey. Here the leading authority Soner Cagaptay, author of *The New Sultan* -- the first biography of President Erdogan - provides a masterful overview of the power politics in the Middle East and Turkey's place in it. Erdogan has picked an unorthodox model in the context of recent Turkish history, attempting to cast his country as a stand-alone Middle Eastern power. In doing so Turkey has broken ranks with its traditional Western allies, including the United States and has embraced an imperial-style foreign policy which has aimed to restore

Turkey's Ottoman-era reach into the Arabian Middle East and the Balkans. Today, in addition to a domestic crackdown on dissent and journalistic freedoms, driven by Erdogan's style of governance, Turkey faces a hostile world. Ankara has nearly no friends left in the Middle East, and it faces a threat from resurgent historic adversaries: Russia and Iran. Furthermore, Turkey cannot rely on the unconditional support of its traditional Western allies. Can Erdogan deliver Turkey back to safety? What are the risks that lie ahead for him, and his country? How can Turkey truly become a great power, fulfilling a dream shared by many Turks, the sultans, Ataturk, and Erdogan himself?

Erdogan Rising: a Warning to Europe Routledge

A “magical, marvellous” epic of an empire in collapse: Book one in the acclaimed Ottoman Quartet by the award-winning Turkish author and political dissident (La Stampa, Italy). Tracking the decline and fall of the Ottoman empire, Ahmet Altan’s Ottoman Quartet spans fifty years from the end of the nineteenth century to the post-WWI rise of Atatürk as leader of the new Turkey. In *Like a Sword Wound*, a modern-day resident of Istanbul is visited by the ghosts of his ancestors, finally free to tell their stories “under the broad, dark wings of death.” Among the characters who come to life are an Ottoman army officer; the Sultan’s personal doctor; a scion of the royal house whose Western education brings him into conflict with his family’s legacy;

and a beguiling Turkish aristocrat who, while fond of her emancipated life in Paris, finds herself drawn to a conservative Muslim spiritual leader. As their stories of intimate desire and personal betrayal unfold, the society that spawned them is transforming and the sublime empire disintegrating. Here is a Turkish saga reminiscent of *War and Peace*, written in lively, contemporary prose that traces not only the social currents of the time but also the erotic and emotional lives of its characters. “An engrossing novel of obsessive love and oppressive tyranny, a tale of collapse that dramatizes the fateful moments of an empire and its subjects.” —Publishers Weekly (starred review)

Turkey Unveiled William Collins
It is commonly believed that during the interwar period, Kemalist secularism successfully eliminated religion from the public sphere in Turkey, leaving Turkish national identity devoid of religious content. However, through its examination of the impact of the Ottoman millet system on Turkish and

Balkan nationalisms, this book presents a different view point. Cagaptay demonstrates that the legacy of the Ottoman millet system which divided the Ottoman population into religious compartments called millets, shaped Turkey's understanding of nationalism in the interwar period. Providing a compelling examination of why and how religion shapes national identity in Turkey and the Balkans the book covers topics including: * Turkish nationalism * the Ottoman legacy * Kemalist citizenship policies and immigration * Kurds, Muslims and Jews and the ethno-religious limits of Turkishness. Incorporating documents from untapped Turkish archives, this book is essential reading for scholars and students with research interests in Turkey, Turkish

nationalism and Middle East history.

Turkish Foreign Policy, 1774-2000

Bloomsbury Publishing

Turkey's Neo-Ottomanist Moment, A Eurasianist Odyssey, is the most comprehensive account to date of the transformation of Turkey's foreign policy related to its regime change. With first-hand knowledge, Cengiz Çandar tells the story of the emergence of Recep Tayyip Erdoğan's revisionist Turkey in global affairs. References from almost 90 different names from around 20 countries, he also reflects how the international expertise on Turkey viewed Turkey. "Cengiz Çandar has written a thought provoking and tremendously insightful book on contemporary Turkish foreign policy rooted in a deep understanding of Turkish history and

politics. Çandar's insights are grounded in experiences as a journalist and foreign policy advisor. This book goes a long way to explain Turkey's strident foreign policy today. It is a wonderfully informative and enjoyable read!" - Lenore G. Martin, Co-Chair of the Study Group on Modern Turkey, Center for Middle Eastern Studies, Harvard University, USA "No one better understands and explains "Neo-Ottomanism" than Cengiz Çandar, who coined the term almost 30 years ago, long before it became a fashionable concept capturing the evolution of Turkish foreign policy. And very few writers can so beautifully weave professional insights, objective analysis and anecdotal flair. By transcending easy clichés and lazy analogies, Çandar

has produced a definitive account. If you could only read one book on Turkish foreign policy, this is it." - Ömer Taşpınar, Professor National War College and The Johns Hopkins University (SAIS), USA "In his new book, Turkey's Neo-Ottomanist Moment: A Eurasianist Odyssey, Cengiz Çandar, a veteran foreign policy analyst, advances a lucid explanation of his country's increasingly assertive behavior. His seemingly paradoxical conclusion is aptly encapsulated in the book's title. Çandar's book is an intellectual tour de force and a must-read for anyone interested in the intertwined problem of contemporary Turkey's identity and foreign policy." - Igor Torbakov, Historian, former research scholar at the Russian Academy of Sciences.

 Eighty years have passed since Mustafa
 Kemal Atatürk founded the Turkish
 Republic out of the ruins of the Ottoman
 Empire and set it on the path of
 modernisation. He was determined that
 his country should be accepted as a
 member of the family of civilised

nations. Today Turkey is a rapidly developing country, an emergent market and a medium-sized regional power with the second strongest army in NATO. It is an open country which attracts millions of tourists, thousands of foreign businessmen and hundreds of researchers. They enjoy Turkish hospitality and experience its rich landscape and history, but many find it hard to form an overall picture of the

country. In this sequel to his acclaimed biography of Ataturk, Andrew Mango provides such an overall portrait, tracing the republic's development since the death of its founder and bringing to life the Turkish people and their vibrant society. The Turks Today interprets the latest academic research for a broader audience, making this highly readable book the authoritative work on modern Turkey.
