General Intelligence and
Test of Reasoning owes
its existence to
comprehensive research
and strategic planning. A
thorough coverage of the
reasoning section of
various competitive
examinations has been
achieved after an in-depth

research and proper analysis of original papers of the UPSC, SSC, banking services, B-school tests and tests by other central and state-level recruitment bodies. A unique aspect of this book is the approach it adopts in explaining the concepts of verbal analysis, non-verbal analysis, critical reasoning and data interpretation. Each chapter starts with a brief introduction to the various formats of questions asked in competitive examinations, followed by topic-specific tests, which

provide numerous multiple-choice questions that involve students in an interactive way to improve their accuracy level. The last chapter provides scientifically structured and exam-oriented test papers to familiarize candidates with current trends and types of questions. These test papers and self-scoring tables will help students assess their own level of preparation. *Logical and Analytical Reasoning (Useful for All Competitive Exams)*
