Philip J. Ethington challenges the assumptions of several decades of urban history that treat American urban politics as the expression of social-group community experience. Instead, he maintains in *The Public City*, social-group identities of race, class, ethnicity, and gender were politically constructed in the public sphere in the process of political mobilization and journalistic discourse.

Kathleen Gregory Klein traces female paid, professional private investigators in British, Canadian, and American novels, revealing that the detective novel is both a reflection of and potential barrier to social change for women. This edition adds sixty new female private eyes to the roster and includes an afterword that assesses the current state of the genre's new and old novels. A comprehensive bibliography and a character list update the field through mid-1994.

A Companion to Old Norse-Icelandic Literature and Culture
Columbia University Press
Combining traditional

myth, oral history and re-worked European legend to depict an ancient realm of heroism and wonder, the seven tales collected here are among the most fantastical of all the Norse romances. Powerfully inspired works of Icelandic imagination, they relate intriguing, often comical tales of famous kings, difficult gods and women of great beauty, goodness or cunning. The tales plunder a wide range of earlier literature from Homer to the French romances - as in the tale of the wandering hero Arrow-Odd, which combines several older legends, or Egil and Asmund, where the story of Odysseus and the Cyclops is skilfully adapted into a

traditional Norse legend. These are among the most outrageous, delightful and exhilarating tales in all Icelandic literature.

The Perfect Score Project is an indispensable guide to acing the SAT – as well as the affecting story of a single mom’s quest to light a fire under her teenage son. It all began as an attempt by Debbie Stier to help her high-school age son, Ethan, who would shortly be studying for the SAT. Aware that Ethan was a typical teenager (i.e.,

completely uninterested in any test) and that a mind-boggling menu of test-prep options existed, she decided – on his behalf -- to sample as many as she could to create the perfect SAT test-prep recipe. Debbie’s quest turned out to be an exercise in both hilarity and heartbreak as she took the SAT seven times in one year and in-between “went to school” on standardized testing. Here, she reveals why the SAT has become so important, the cottage industries it has spawned, what really works in preparing for the test and what is a waste of time. Both a toolbox of fresh tips and an amusing snapshot of parental love and wisdom colliding with teenage

apathy, *The Perfect Score Project* rivets. In the book Debbie does it all: wrestles with Kaplan and Princeton Review, enrolls in Kumon, navigates khanacademy.org, meets regularly with a premier grammar coach, takes a battery of intelligence tests, and even cadges free lessons from the world’s most prestigious (and expensive) test prep company. Along the way she answers the questions that plague every test-prep rookie, including: “When do I start?” ... “Do the brand-name test prep services really deliver?” ... “Which should I go with: a tutor, an SAT class, or self study?” ... “Does test location really matter?” ... “How do I find the right tutor?” ...

“How do SAT scores affect merit aid?”... and “What’s the one thing I need to know?” The Perfect Score Project’s combination of charm, authority, and unexpected poignancy makes it one of the most compulsively readable guides to SAT test prep ever – and a book that will make you think hard about what really matters.

The ground plan for the present volume is unique in Indological studies. Twenty-three scholars from seven countries were invited to respond to issues elaborated in one or more of Wilhelm Halbfass` own critical essays on Edward Said`s Orientalism and related topics. The individual contributions are grouped under four headings: Cross-Cultural Encounter and Dialogue, Issues of Comparative Philosophy, Topics in Classical Indian Philosophy, and Indian Religion, Past and Present. The largest number of papers center on or touch upon topics dealt with

in India and Europe. Tradition and Reflection forms the subject matter and starting point of the second largest group of papers. One paper offers significant supplementary observations on the conception of Karman. On Being and What There Is has caught the attention of three contributors. Two authors take specific observations in the book as the starting point of their own related investigations and reflections, whereas another author examines in very broad and substantial manner whether the question of Being was at all addressed in Indian philosophy. Only three contributors specifically respond to On Being and What

There Is. One contributor presents with his fundamental reflections on a comparative history of world philosophy.

This Companion presents fifteen original and engaging essays by leading scholars on one of the most influential genres of Western literature. Chapters describe the origins of early verse romance in twelfth-century French and Anglo-Norman courts and analyze the evolution of verse and prose romance in France, Germany, England, Italy, and Spain throughout the Middle Ages. The volume introduces a rich array of traditions and texts and offers fresh perspectives on

the manuscript context of romance, the relationship of romance to other genres, popular romance in urban contexts, romance as mirror of familiar and social tensions, and the representation of courtly love, chivalry, 'other' worlds and gender roles. Together the essays demonstrate that European romances not only helped to promulgate the ideals of elite societies in formation, but also held those values up for questioning. An introduction, a chronology and a bibliography of texts and translations complete this lively, useful overview.

A little extra practice can make all the difference. Once you reach a certain point in your prep journey—and if you're reading this then you might have reached it—you end up spending most of your prep time working on questions you could do in your sleep. This isn't a bad thing: you don't get to be a top scorer without being able to cruise through easy questions without error, and you don't get to that level of consistency without practice. But if you find yourself wishing there were more than just a few challenging questions per practice test, then you've come to the right place. The finishing touches. This no-frills collection of practice questions is intended for you to use when you think you're

basically done with your math prep, but just need a few more workouts to be sure. There are solutions in case you get stuck, of course, but no comprehensive lessons. Just 125 problems, sorted roughly by difficulty. *San Francisco, 1846-1856* Harmony Asked shortly after the revolution about how she viewed the new government, Tatiana Varsher replied, "With the wide-open eyes of a historian." Her countrywoman, Zinaida Zhemchuzhnaia, expressed a similar need to take note: "I want to write about the way those events were perceived and reflected in the humble and distant corner of Russia that was the Cossack town of Korenovskaia." What

these women witnessed and experienced, and what they were moved to describe, is part of the extraordinary portrait of life in revolutionary Russia presented in this book. A collection of life stories of Russian women in the first half of the twentieth century, *In the Shadow of Revolution* brings together the testimony of Soviet citizens and émigrés, intellectuals of aristocratic birth and Soviet milkmaids, housewives and engineers, Bolshevik activists and dedicated opponents of the Soviet regime. In literary memoirs, oral interviews, personal dossiers, public speeches, and letters to the editor, these women document their diverse experience of

the upheavals that reshaped Russia in the first half of this century. As is characteristic of twentieth-century Russian women's autobiographies, these life stories take their structure not so much from private events like childbirth or marriage as from great public events. Accordingly the collection is structured around the events these women see as touchstones: the Revolution of 1917 and the Civil War of 1918-20; the switch to the New Economic Policy in the 1920s and collectivization; and the Stalinist society of the 1930s, including the Great Terror. Edited by two preeminent historians of Russia and the Soviet Union, the

volume includes introductions that investigate the social historical context of these women's lives as well as the structure of their autobiographical narratives.

 Empire of Magic offers a genesis and genealogy for medieval romance and the King Arthur legend through the history of Europe's encounters with the East in crusades, travel, missionizing, and empire formation. It also produces definitions of "race" and "nation" for the medieval period and posits that the Middle Ages and medieval fantasies of race and religion have recently returned. Drawing on feminist and gender theory, as well as cultural analyses of race, class, and colonialism, this provocative book revises our

understanding of the beginnings of the nine hundred-year-old cultural genre we call romance, as well as the King Arthur legend. Geraldine Heng argues that romance arose in the twelfth century as a cultural response to the trauma and horror of taboo acts -- in particular the cannibalism committed by crusaders on the bodies of Muslim enemies in Syria during the First Crusade. From such encounters with the East, Heng suggests, sprang the fantastical episodes featuring King Arthur in Geoffrey of Monmouth's chronicle *The History of the Kings of England*, a work where history and fantasy collide and merge, each into the other, inventing crucial new examples and

models for romances to come. After locating the rise of romance and Arthurian legend in the contact zones of East and West, Heng demonstrates the adaptability of romance and its key role in the genesis of an English national identity. Discussing Jews, women, children, and sexuality in works like the romance of Richard Lionheart, stories of the saintly Constance, Arthurian chivalric literature, the legend of Prester John, and travel narratives, Heng shows how fantasy enabled audiences to work through issues of communal identity, race, color, class and alternative sexualities in socially sanctioned and safe modes of cultural discussion in which pleasure, not

anxiety, was paramount. Romance also engaged with the threat of modernity in the late medieval period, as economic, social, and technological transformations occurred and awareness grew of a vastly enlarged world beyond Europe, one encompassing India, China, and Africa. Finally, Heng posits, romance locates England and Europe within an empire of magic and knowledge that surveys the world and makes it intelligible -- usable -- for the future. Empire of Magic is expansive in scope, spanning the eleventh to the fifteenth centuries, and detailed in coverage, examining various types of romance -- historical, national,

popular, chivalric, family, and travel romances, among others -- to see how cultural fantasy responds to changing crises, pressures, and demands in a number of different ways. Boldly controversial, theoretically sophisticated, and historically rooted, *Empire of Magic* is a dramatic restaging of the role romance played in the culture of a period and world in ways that suggest how cultural fantasy still functions for us today.

The conflict between Israel and Palestine has raised a plethora of unanswered questions, generated seemingly irreconcilable narratives, and profoundly transformed the land's physical and

political geography. This volume seeks to provide a deeper understanding of the links between the region that is now known as Israel and Palestine and its peoples—both those that live there as well as those who relate to it as a mental, mythical, or religious landscape. Engaging the perspectives of a multidisciplinary, international group of scholars, it is an urgent collective reflection on the bonds between people and a place, whether real or imagined, tangible as its stones or ephemeral as the hopes and longings it evokes. Pulp fictions of medieval England

comprises ten essays on individual popular romances; with a focus on romances that, while enormously popular in the Middle Ages, have been neglected by modern scholarship. Each essay provides valuable introductory material, and there is a sustained argument across the contributions that the romances invite innovative, exacting and theoretically charged analysis. However, the essays do not support a single, homogenous reading of popular romance: the authors work with assumptions and come

to conclusions about issues as fundamental as the genre's aesthetic codes, its political and cultural ideologies, and its historical consciousness that are different and sometimes opposed. Nicola McDonald's collection and the romances it investigates, are crucial to our understanding of the aesthetics of medieval narrative and to the ideologies of gender and sexuality, race, religion, political formations, social class, ethics, morality and national identity with which those narratives engage.
