and practices of the Prophet and his companions. (World Religions) Queer Eye Popular Prakashan On the morning of April 3, 1941, 'Orlando Mazzotta', a man posing as an Italian diplomat, walked up the steps of the German Foreign Office on the Wilhelmstrasse in Berlin, having arrived from Moscow the previous afternoon. The Under-Secretary of State, Dr Ernst Woermann,

immediately received him and listened carefully as he spoke of establishing a government-in-exile and launching a military offensive. The government he had in mind was Indian and the target of his offensive was British India. Although Woermann was taken aback by the nature of these proposals, he should not have been. 'Orlando Mazzotta' was in fact Subhas Chandra Bose, an Indian

leftist radical nationalist and former President of the Indian National Congress who had escaped a few months earlier from Calcutta and reached Kabul. From there, the German and Italian legations assisted him in reaching Berlin, via Moscow, under Italian diplomatic cover. Bose is one of India's national icons, practically on a par with Gandhi, a hero of anti-colonial resistance against the

British, who established the Indian National Army in order to recruit Indian soldiers to fight the imperial power. His activities in Nazi Germany - particularly taking into account their inevitably highly controversial implications - merit scrupulous, scholarly and detailed study, yet till today almost everything published on the subject has been suffused with hagiography. This book is

the first to focus exclusively on Bose's interactions with Nazi Germany during the Second World War. Hayes's narrative makes extensive use of German, Indian and British documents, including memoranda, notes, minutes, reports, telegrams, letters and broadcasts, and he also presents the reader with fresh scholarly sources from the German historical

archives. His book takes not only the political dimension into consideration but the intelligence and propaganda angles too, including the recruitment and training of Indian POWs captured in North Africa. Emphasis is also placed on the specific roles of key actors including Hitler, Joachim von Ribbentrop, Gandhi, Nehru, Mussolini, Churchill, Sir Stafford Cripps, Chiang

Kai-shek, General Hideki Tojo and, to a lesser extent Dr Goebbels, Heinrich Himmler and Count Galeazzo Ciano. Hayes's objective is to reveal a lesser-known aspect of Nazi foreign policy and to challenge and provide an alternative to Gandhi-centric portrayals of the Indian independence movement. His book, augmented by a fascinating selection of hitherto largely unpublished photographs,

will appeal to those interested in the Third Reich, Indian nationalism and anti-colonialism and the Second World War.

Subhas Chandra Bose in Nazi Germany

Amaryllis - an imprint of Manjul Publishing House
A historical investigation into the mysterious bug that wiped out the vineyards of, first, France and then Europe in the 1860s -- and how one

young botanist, who had served an apprenticeship at Kew Gardens, eventually 'saved wine for the world'. Bordeaux, inexplicably began to wither and die. Panic seized France, and Jules-Emile Planchon, a botanist from Montpellier, was sent to investigate. Magnifying glass in hand, he discovered the roots of a dying vine covered in microscopic yellow insects. The tiny aphid would be

named Phylloxera vastatrix -- 'the dry leaf devastator'. Where it had come from was utterly mysterious, but it advanced with the speed of an invading army. As the noblest vineyards of France came under biological siege, the world's greatest wine industry tottered on the brink of ruin. The grand owners fought the aphid with expensive insecticide, while peasant

vignerons simply abandoned their ruined plots in despair. Within a few years the plague had spread across Europe, from Portugal to the Crimea. The parasite had accidentally been imported from America. He believed that only the introduction of American vines, which appeared to have developed a resistance to the aphid, could save France's vineyards. His opponents

maintained that this would merely assist the spread of the disease. Meanwhile, encouraged by the French government's offer of a prize of 300,000 gold francs for a remedy, increasingly bizarre suggestions flooded in, and many wine-growing regions came close to revolution as whole local economies were obliterated. Eventually Planchon and his supporters won the day, and

phylloxera-resistant American vines were grafted onto European root-stock. Despite some setbacks -- the first fruits of transplanted American vines were universally pronounced undrinkable -- by 1914 all vines cultivated in France were hybrid Americans. of one of the earliest and most successful applications of science to an ecological disaster. *Sri Japji Sahib*

Ranging over more than a century, the essays here focus on theatre that has challenged the perceived dominance of realism in Irish drama. Mansarovar - Part I Penguin Books India In these enlightening and eye-opening conversations, the renowned spiritual mentor, Sister BK Shivani reveals how to create a life of joy, contentment and bliss, because we all have the choice and the

power to do so. According to her, the reason why there is so little happiness in the world is dependency. Happiness is not dependent on 'anything' or 'anyone', or found 'anywhere'. We keep delaying our happiness until things are just right in our life. We think we will be happy in the future and then wonder why we are not happy now. Happiness is only possible when we are able to accept

everyone as they are, at every moment, in every situation. This book is a medium for the awakening and acceptance of self-responsibility. Helping us choose our thoughts and feelings aligned with our true nature of purity, peace and love. To make us shift from asking to sharing; from holding on to letting go; from expectations to acceptance; from the past and the future

to being in the now. Happiness is a 'decision', not a 'consequence' .

 From GPO Bookstore's Website:
 Authors with diverse backgrounds in science, history, anthropology, and more, consider culture in the context of the cosmos. How does our knowledge of cosmic evolution affect terrestrial culture? Conversely, how does our knowledge of cultural evolution affect our thinking about

possible cultures in the cosmos? Are life, mind, and culture of fundamental significance to the grand story of the cosmos that has generated its own self-understanding through science, rational reasoning, and mathematics? Book includes bibliographical references and an index.

A New English-Hindustani Dictionary

Clarkson Potter
Former Prime Minister of India and

member of the Bharatiya Janata Party (BJP), Atal Bihari Vajpayee was an understated politician of the kind not often seen in contemporary times. His patriotism was uncompromising, forged out of the paradoxes in his life: a sensitive poet who summoned nerves of steel to conduct the Pokhran-II nuclear tests; a man of humble beginnings who envisioned a project as

titanic as the Golden Quadrilateral highways. Devoid of any natural political pedigree or patronage network, he harnessed his political acumen to transform India's relations with the United States which had long been mired in misunderstandings rooted in the Cold War. His prudent decisions led to key strategic and economic policy contributions. There is a

need to understand Vajpayee as a decision-maker, with specific references to key initiatives in the strategic and economic fields that have had a significant effect on the India that we see today. Vajpayee fleshes out not only Vajyapee's political philosophy but also provides an insider's account and an intimate memoir of the person. Unfinished Ballantine Books

Roger Angell, the acclaimed New Yorker writer and editor, returns with a selection of writings that celebrate a view from the tenth decade of an engaged, vibrant life. Long known for his range and supple prose (he is the only writer elected to membership in both the Baseball Hall of Fame and the American Academy of Arts and Letters), Angell won the 2015 American Society of

Magazine Editors' Best Essay award for "This Old Man," which forms a centerpiece for this book. This deeply personal account is a survey of the limitations and discoveries of great age, with abundant life, poignant loss, jokes, retrieved moments, and fresh love, set down in an informal and moving fashion. A flood of readers from different generations have discovered and shared

this classic piece. Angell's fluid prose and native curiosity make him an amiable and compelling companion on the page. The book gathers essays, letters, light verse, book reviews, Talk of the Town stories, farewells, haikus, Profiles, Christmas greetings, late thoughts on the costs of war. Whether it's a Fourth of July in rural Maine, a beloved British author at work, Derek Jeter's

departure, the final game of the 2014 World Series, an all-dog opera, editorial exchanges with John Updike, or a letter to a son, what links the pieces is the author's perceptions and humor, his utter absence of self-pity, and his appreciation of friends and colleagues—writers, ballplayers, editors, artists—entered over the course of a full and generous life. *Fakira*
